Ruin the Sacred Truths Harold Bloom,1991-09-01 From the earliest source documents of the Torah to the heretical reinterpretations of Judaism in Freud Kafka and Gershom Scholem the prodigious and always fascinating Harold Bloom shows us how great authors construct the new by destroying the old and in the process wrest divinity from the hand of God

Ego Anthony Hirst,2004 The Greek Bible and the services of the Orthodox Church have proved a rich source of language for many poets of modern Greece and perhaps for none more than for Kostis Palamas Angelos Sikelianos and Odysseas Elytis whose overlapping careers span the period 1876 1996 A blurring of the boundaries between Orthodoxy and Greekness hell nikot ta which all three poets celebrate has often led critics to assume from the Christian borrowings in the poetry the Christian allegiance of the poets Through detailed analyses of selected poems focusing on their relation to Biblical and liturgical source texts this book questions whether the work of these poets is compatible with Christianity at all It asks whether a Christ who is assimilated along with the Virgin Mary into the ancient Greek pantheon or presented as a symbol of Beauty or as object of the erotic desire of the women of the Gospels is still within the realm of Orthodoxy Above all it asks whether when the poetic ego appropriates to itself words which in their original context belong to Christ or Jehovah there is any room left for the divine or whether the poet has not in fact elbowed God off the stage altogether *Literature and*

Theology Dr Heather Walton,2013-06-28 This book explores current trends in the interdisciplinary study of literature and theology an area of academic activity that has developed dramatically in the past twenty years The field of study originated from the impetus to embrace the richness of imaginative resources in theological reflection and was stimulated by the re emergence of the sacred in contemporary theory Since the mid 90s critical theory has undergone a number of significant transformations theology has become a subject of public concern and the boundaries between sacred and cultural texts have

become increasingly unstable This book brings together the work of leading scholars in the field with that of emerging voices Offering an important resource for the growing number of postgraduate courses exploring the relation between religion and culture in the contemporary context this book delineates current trends in interdisciplinary debate as well as tracing emerging configurations

cultural fears about the contagion of heresy and engaged in the making of heretics as well as writers who challenged the constructions of heretics and the culture of religious fear mongering The responses of early modern writers in English to the specter of heresy and the making of heretics were varied complex and contradictory depending on their religious and political alignments Some writers for example Thomas More Richard Bancroft and Thomas Edwards used their rhetorical resourcefulness and inventiveness to contribute to the politics of heresy making and the specter of cunning diabolical heretics ravaging the Church the state and thousands of souls others for example John Foxe questioned within certain cultural limitations heresy making processes and the violence and savagery that religious demonizing provoked and some writers for example Anne Askew John Milton and William Walwyn interrogated with great daring and inventiveness the politics of religious demonizing heresy making and the cultural constructions of heretics Treacherous Faith examines the complexities and paradoxes of the heresy making imagination in early modern England the dark fantasies anxieties terrors and violence it was capable of generating but also the ways the dreaded specter of heresy could stimulate the literary creativity of early modern authors engaging with it from diverse religious and political perspectives Treacherous Faith is a major interdisciplinary study of the ways the literary imagination religious fears and demonizing interacted in the early modern world This study of the early modern specter of heresy contributes to work in the humanities seeking to illuminate the changing dynamics of religious fear the rhetoric of religious demonization and the powerful ways the literary imagination represents and constructs religious difference

The Oxford Handbook of Andrew Marvell Martin Dzelzainis, Edward Holberton, 2019-03-28 The Oxford Handbook of Andrew Marvell is the most comprehensive and informative collection of essays ever assembled dealing with the life and writings of the poet and politician Andrew Marvell 1621-78 Like his friend and colleague John Milton Marvell is now seen as a dominant figure in the literary landscape of the mid-seventeenth century producing a stunning oeuvre of poetry and prose either side of the Restoration In the 1640s and 1650s he was the author of hypercanonical lyrics

like *To His Coy Mistress* and *The Garden* as well as three epoch defining poems about Oliver Cromwell After 1660 he virtually invented the verse genre of state satire as well as becoming the most influential prose satirist of the day in the process forging a long lived reputation as an incorruptible patriot Although Marvell himself was an intensely private and self contained character whose literary religious and political commitments are notoriously difficult to discern the interdisciplinary contributions by an array of experts in the fields of seventeenth century literature history and politics gathered together in the Handbook constitute a decisive step forward in our understanding of him They offer a fully rounded account of his life and writings individual readings of his key works considerations of his relations with his major contemporaries and surveys of his rich and varied afterlives Informed by the wealth of editorial and biographical work on Marvell that has been produced in the last twenty years the volume is both a conspectus of the state of the art in Marvell studies and the springboard for future research

The Ruins of Allegory Catherine Gimelli Martin, 1998 In a reexamination of the allegorical dimensions of *PARADISE LOST* Catherine Martin presents Milton's poem as a prophecy foretelling the end of one culture and its replacement by another Maintaining a dialogue with a critical tradition that extends from Johnson and Coleridge to the best contemporary Milton scholarship Martin sets *PARADISE LOST* in both the early modern and the postmodern worlds

Paragraph, 1991

Pharaoh's Magicians Gregory C. Benoit, 2011-05-31 The ancient heresy of Gnosticism has seeped into the church and is being taught in our most influential seminaries today This can be seen most readily in the willingness and even determination of leading scholars and theologians to force the doctrines of evolution into the sacred text of the Scriptures This book looks closely at the Bible to determine whether or not evolution can be endorsed by the Word of God It then moves on to examine how today's theologians have played tricks with the text in order to seduce ordinary Christians into embracing Gnosticism This book is a call to God's people to eradicate this heresy and return to an honest reading of the Bible These higher critics have castrated Christianity they themselves are spiritual eunuchs incapable of producing any spiritual seed with which to grow the church in the coming generations They hope to bring some reconciliation between the teachings of modern science and the traditional teachings of Scripture but instead they only serve to instill doubt in the ordinary Christian doubt that an ordinary believer can ever again trust his own uneducated reading of the Bible It is sad to think that William Tyndale was martyred for bringing the Bible to the common man while modern theologians are being praised for taking it away again

Milton's Socratic Rationalism David Oliver Davies, 2017-08-17 The conversation of Adam and Eve in *Paradise Lost* that most obvious of Milton's additions to the Biblical narrative enacts the pair's inquiry into and discovery of the gift of their rational nature in a mode of discourse closely aligned to practices of Socrates in the dialogues of Plato and eponymous discourses of Xenophon Adam and Eve both begin their life much wondering where And what I was whence thither brought and how Their conjoint discoveries of each other's and their own nature in this talk Milton arranges for a in dialectical counterpoise to his persona's expressed task to justify the ways of

God to men Like Xenophon's Socrates in the *Memorabilia* Milton's persona indites those ways of God in terms most agreeable to his audience of men notions Aristotle calls generally accepted opinions Thus for Milton's fit audience *Paradise Lost* will present two ways that address congenial to men per se and a fit discourse attuned to their very own rational faculties to understand the ways of God to men The interrogation of each way by its counterpart among the distinct audiences is the great Argument of the poem
