**Giacomo Puccini** Roger Flury, 2012-06-21 Opera recordings have been with us since the creation of the first wax cylinders Now at a time when the 25 year reign of the compact disc appears to be coming to an end is the moment to take stock of the history of recordings of arguably the most popular composer of operas Giacomo Puccini In Giacomo Puccini A Discography librarian and music historian Roger Flury looks at each opera chronologically from Le Villi to Turandot followed by sections on Puccini s instrumental chamber orchestral and solo vocal works Details of each complete opera are listed by recording date followed by excerpts in the order in which they occur in the opera Recordings of each aria are listed alphabetically by the name of the artist For ease of use Flury establishes as the main criteria for inclusion those recordings assigned a commercial issue number and available for purchase This book does not limit itself to mainstream recordings but includes as well unofficial recordings taken from broadcasts or illegally recorded in theaters ensuring that the audio recording history of Puccini is free of gaps Video and DVD issues whether of staged performances or excerpts in concert are not included unless they have been issued in a sound only format This volume brings together information on nearly 10 000 recordings of Puccini s music It provides a comprehensive overview of the recorded history of the composer s works and serves as a useful guide for the transfer of recordings from one format to another Rockin' the Classics and Classicizin' the Rock: Janell R. Duxbury, 2001-02-05 Rock music of all varieties has been influenced by classical music and vice versa both in the form of direct quotes and in the form of borrowings of style composition and instrumentation The average listener may be unaware of the many links between rock music and the classics One might remember a few examples such as Walter Murphy s chart topping A Fifth of Beethoven or Eric Carmen s All by Myself but pass them off as interesting anomalies However the influence of the classics on rock music is pervasive and grows from a long line of precedents This second supplement to Janell R Duxbury s original 1985 discography Rockin the Classics and Classicizin the Rock brings the earlier work and first supplement up to date with hundreds of new entries documenting recently released or newly discovered examples of the interconnection between these musical genres Duxbury details nearly 700 new examples of recorded rock instrumentals and songs that borrow musical themes from the classics Variations range from contemporary renditions of complete classical works to brief classical quotes or phrases subtly incorporated into rock compositions Duxbury also gives additional examples of recorded orchestral versions of songs originally composed and or written by rock artists In these examples the musical style varies from strict classical interpretations to pop style orchestral renditions The second supplement then expands Duxbury s original compilation of sound recordings and live performances of rock groups performing with established orchestras and choruses selected samples of recorded rock music that simulate baroque or classical sound structure examples of the manifest influence of rock on classical music and instances of rock artists and classical artists switching roles Lastly this discography updates the 1985 version and the first supplement with new information expanded details and minor

corrections to the earlier works An extended list of selected non rock background examples is included in several new appendixes The Preface is updated A general index includes the names of classical composers rock artists and groups orchestras choruses orchestra conductors sound recording producers and song or instrumental titles With its incomparable scope and content this supplement together with Duxbury s previous discography and its first supplement will be appreciated by students researchers record collectors trivia buffs music industry employees and fans of rock music and the classics

Samuel Wesley (1766-1837): A Source Book Michael Kassler, Philip Olleson, 2017-07-05 Hailed as a child prodigy and later acclaimed as England s finest extempore organist Samuel Wesley son of Charles Wesley and nephew of John Wesley the founders of Methodism is best known today for his musical compositions and for his promotion of the music of J S Bach At the heart of this source book is a calendar of Samuel Wesley s correspondence The editors date and summarise the content of over 1100 surviving letters and other documents most of which have not previously been published The book accordingly reveals

considerable new information about Wesley and his complex personal affairs including his incarceration for debt and his confinement in a lunatic asylum for a year Many details are provided about London musical life in the era from Boyce to Mendelssohn that prior scholars have not taken into account The book also presents a chronology of Wesley s life a descriptive list of his nearly 550 musical and literary works a discography an iconography and a bibliography It therefore is the most comprehensive available reference source for Wesley s life times and music The Story Of Naxos Nicolas

Soames,2012-05-03 In 1987 a budget classical record label was started in Hong Kong by Klaus Heymann a German businessman who loved classical music Swiftly it gained a world wide reputation for reliable new digital recordings of the classics at a remarkably low price Despite opposition from the classical record establishment it grew at a remarkable pace and soon expanded into opera early music contemporary music and specialist repertoire so that it became appreciated by specialist collectors as well as the general music lover It is now the leading provider of classical music and as an innovator in digital delivery At the heart of Naxos is one man Klaus Heymann The combination of his broad knowledge of classical music and his acute business acumen has enabled him to build the most varied classical music label in the world but also the most effective distribution network to ensure that his recordings are available everywhere This fascinating story explains how it happened how a one time tennis coach in Frankfurt became a classical recording mogul in Hong Kong and how at the age of 75 he still holds the reins as firmly as ever **Samuel Wesley (1766?837): A Source Book** Michael Kassler,2017-07-05

This new edition of The Keyed Bugle is an expansion rather than a revision of the first edition The performance practice discussion has been extended to cater to the needs of the reader who wishes to learn the instrument All chapters contain new information and the chapters on Performers Makers and Sellers have been extensively expanded An additional chapter offers an explanation of the peculiarly distinct acoustics of keyed bugles and provides an analysis of construction styles employed by particular makers After closely researching instruments that have been documented by the signatures of specific firms

and comparing them with unmarked examples the author enables readers to make confident observations on the nature of regional and manufacturer s styles The new research in this area provides the groundwork for informed speculation about the origins of undocumented keyed bugles This work puts the best of current research on the instrument into book form and provides the collector performer and serious music student with a clear picture of the instrument s history repertoire and technique     *Handbook for England and Wales* John Murray (Firm),1890     *Discourses of Education in the Age of New Imperialism* Jerome Satterthwaite,Elizabeth Atkinson,2005 This fourth volume in the Discourse Power Resistance series takes the theme into new territory setting educational thinking and practice firmly in its global political context Drawing on schools of thought as diverse as Marxism and eco feminist theology the contributors to Part 1 Global Imperialism and Terror The Theory and Practice of Othering led by Peter McLaren examine the possibilities for critical thinking and transformative practice in the aftermath of 9 11 and the new age of cultural and political imperialism In Part 2 Praxis Thinking and Doing contributors draw on a range of critical perspectives to examine both the theory and practice of education taking the reader from the self to the system and back again via dynamic systems theory flow theory and a multiplicity of diverse and often conflicting practices of subversion The book closes with two radical departures from the norm a seriously playful transgression into the fields of pop art and film and a searing poetic lament on the current state of educational policy and practice As educators we are all in William Pinar s words behind enemy lines in a field which despite our continued bids for autonomy is increasingly hijacked by globalizing political forces This book offers modes of resistance which are startling unsettling and challenging It will be of deep interest to students tutors and researchers in education policy studies and related fields and to those who are involved in training or becoming the educators of the future The contributors are Peter McLaren William Pinar Mike Cole Lisa Isherwood Elizabeth Atkinson Tamsin Haggis Sue Clegg Gill Boag Munroe Ros Ollin Victoria
