

RULES OF TABLE TENNIS

First to 11 points!
Best of 3, 5, or 7 games.

Use spin, speed, and tactics to beat your opponents!
The aim is to strike the ball onto your opponent's side of the table so that they cannot return it.

Each player gets two serves before switching, and must reach 11 points with a 2-point clearance. If play reaches 10-10 the person serving swaps every point.

You can serve anywhere on the table unless you are playing doubles (for this it must be diagonal to the right). And unlike during open play, when serving the ball must strike both your side and the opponent's side of the table.

SERVING RULES

1. Serve from an open palm
2. Throw the ball vertically >16cm
3. Serve behind the back line
4. Serve above the table's surface
5. Do not obscure the ball

The Rules of the Game in the Global Economy Lee E. Preston,Duane Windsor,2013-11-11 This study has been long in the making and the world has changed dramatically while we have been at work We initially anticipated a substantial section on the Soviet dominated Council for Mutual Economic Assistance CMEA or COMECON which offered an interesting contrast to the kind of international business regime typically found among market oriented countries and industries As we moved toward publi tion the CMEA vanished and so we mention it only in passing The USSR subsequently disintegrated into a Commonwealth of Independent States CIS On the other hand we began with the assumption that the historic rule of capture no long played a significant role in international economic relations The seizure of Kuwait s territory and wealth by the government of Iraq suggests that this assumption was heavily influenced by wishful thinking Even though this seizure has been reversed by military action the experience remains a challenge to generally held beliefs about the strength of order versus chaos in contemporary international affairs Some readers of this volume have suggested that it gives insufficient attention to the fact that many of the important business and economic regimes of the postwar period are currently under significant pressure perhaps even in danger of collapse We acknowledge that there are many evidences of strain in for example the free trade and money exchange regimes and in many areas of environmental protection
