**The Unlikely Bushman** Ron Hicks, 2011 *Understanding Cancer* Ron Hicks, 2009-10-15 Cancer is a mystery to most people, a deadly mystery. Many believe that just about anything you eat or do can cause cancer and that the disease is an automatic death sentence. This is not the case. The aim of *Understanding Cancer* is to remove the misconceptions that surround the disease and make it understandable to the general public. As early treatment often means the difference between success or failure, the book describes the danger signals you should be aware of, particularly for the top five cancers. This will answer most of the questions people ask about the disease. But above all, it emphasises that most cancers are caused by the environment and most cancers can be prevented or avoided. *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), **Financing Universal Access To Healthcare: A Comparative Review Of Landmark Legislative Health Reforms In The Oecd** Alexander S Preker, 2018-03-20

The recent expansion of health insurance coverage in the USA under the Affordable Health Care Act and current threats to reverse the benefits of this reform have once again focused the world's attention on the difficult challenges faced by other countries trying to provide better access to healthcare to their population at an affordable cost. This textbook provides a comparative review of financing universal access to healthcare in the Organisation for Economic Co-operation and Development (OECD) countries. The first two chapters of the book provide a framework for financing universal access to healthcare. The remaining eight chapters present case studies of eight OECD countries that have successfully introduced reforms to finance universal access to healthcare for their population through landmark legislative reforms. A concluding chapter focuses on the lessons learned from the OECD and recommendations from policymakers and others who are planning

similar reforms The book is designed as a learning tool for students and as a user guide for policymakers The Vampire Killer Ron Hicks,2009 When police found the body of Edward Baldock by the shores of the Brisbane River he had been so savagely murdered his head was nearly severed And there were strange marks on his neck There seemed no reason for this horrific crime but as they searched the scene the police found a bank keycard tucked neatly into the victim s shoe The card was soon identified as belonging to Tracey Avril Wigginton In one of the most sensational and bizarre cases in Australia s criminal history Tracey Wigginton s three female companions that night told the police that Baldock was killed to feed Tracey s blood lust because she was a vampire Was Tracey Wigginton the first vampire for over 300 years Or was there a deeper darker reason for her crime Why was it that during police interviews it was clear that one part of Tracey knew what happened but another didn t The Vampire Killer unravels the tragic and at times horrifying true story of Tracey Wigginton and her desperate cry for help *Investigation Into the Fifteen Gallon Law of Massachusetts* Massachusetts.
