## Rumble In Hong Kongdrunken Master:

Cities and Cinema Barbara Mennel,2008-03-19 Films about cities abound They provide fantasies for those who recognize their city and those for whom the city is a faraway dream or nightmare How does cinema rework city planners hopes and city dwellers fears of modern urbanism Can an analysis of city films answer some of the questions posed in urban studies What kinds of vision for the future and images of the past do city films offer What are the changes that city films have undergone Cities and Cinema puts urban theory and cinema studies in dialogue The book s first section analyzes three important genres of city films that follow in historical sequence each associated with a particular city moving from the city film of the Weimar Republic to the film noir associated with Los Angeles and the image of Paris in the cinema of the French New Wave The second section discusses socio historical themes of urban studies beginning with the relationship of film industries and individual cities continuing with the portrayal of war torn and divided cities and ending with the cinematic expression of utopia and dystopia in urban science fiction The last section negotiates the question of identity and place in a global world moving from the portrayal of ghettos and barrios to the city as a setting for gay and lesbian desire to end with the representation of the global city in transnational cinematic practices The book suggests that modernity links urbanism and cinema It accounts for the significant changes that city film has undergone through processes of globalization during which the city has developed from an icon in national cinema to a privileged site for transnational cinematic practices It is a key text for students and researchers of film studies urban studies and cultural studies

*Legacies of the Drunken Master* Luke White,2020-04-30 In 1978 the films Snake in the Eagle s Shadow and Drunken Master both starring a young Jackie Chan caused a stir in the Hong Kong cinema industry and changed the landscape of martial arts cinema Mixing virtuoso displays of acrobatic kung fu with knockabout humor to huge box office success they broke the mold of the tragic and heroic martial arts film and sparked not only a wave of imitations but also a much longer trend for kung fu comedies that continues to the present day Legacies of the Drunken Master the first book length analysis of kung fu comedy interrogates the politics of the films and their representations of the performing body It draws on an interdisciplinary engagement with popular culture and an interrogation of the critical literature on Hong Kong and martial arts cinema to offer original readings of key films These readings pursue the genre in terms of its carnival aesthetic the utopias of the body it envisions its highly stylized depictions of violence its images of masculinity and the registers of its hysterical laughter The book s analyses are carried out amidst kung fu comedy s shifting historical contexts including the aftermath of the 1960s radical youth movements the rapidly globalizing colonial enclave of Hong Kong and the emerging consciousness of its 1997 handover to China and the transnationalization of cinema audiences It argues that through kung fu comedy s images of the body the genre articulated in complex and often contradictory ways political realities relevant to late twentieth century Hong Kong and the wider conditions of globalized capitalism The kung fu comedy entwines us in a popular cultural history that stretches into the folk

past and forward into utopian and dystopian possibilities Theoretically rich and critical Legacies of the Drunken Master aims to be at the forefront of scholarship on martial arts cinema It also addresses readers with a broader interest in Hong Kong culture and politics during the 1970s and 1980s postcolonialism in East Asia and action and comedy films in a global context as well as those fascinated with the performing body in the martial arts
