development of nuclear energy but also shows how the Spanish nuclear program came about how it was financed and who the main architects and beneficiaries at the industrial financial commercial and banking levels were all without losing sight of the energy policy aspects such as energy mix and energy security The volume provides useful analysis and sources for a variety of core fields across the social sciences including economic history of post war Europe industrial and energy policy international relations and history of technology

Literature in Motion Ellen Jones, 2022-01-18 Literature is often assumed to be monolingual publishing rights are sold on the basis of linguistic territories and translated books are assumed to move from one original language to another Yet a wide range of contemporary literary works mix and meld two or more languages incorporating translation into their composition How are these multilingual works translated and what are the cultural and political implications of doing so In *Literature in Motion* Ellen Jones offers a new framework for understanding literary multilingualism emphasizing how authors and translators can use its defamiliarizing and disruptive potential to resist conventions of form and dominant narratives about language and gender Examining the connection between translation and multilingualism in contemporary literature she considers its significance for the theory practice and publishing of literature in translation Jones argues that translation does not conflict with multilingual writing's subversive potential Instead we can understand multilingualism and translation as closely intertwined creative strategies through which other forms of textual and conceptual hybridity fluidity and disruption are explored Jones addresses both well known and understudied writers from across the American hemisphere who explore the spaces between languages as well as genders genres and textual versions reading their work alongside their translations She focuses on U S Latinx authors Susana Ch vez Silverman Junot D az and Giannina Braschi who write in different forms of Spanglish as well as the Brazilian writer Wilson Bueno who combines Portuguese and Spanish or Portunhol with the indigenous language Guarani and whose writing is rendered into Frenglish by Canadian translator Er n Moure
