Rumors Of Separate Worlds:

Linking Separate Worlds Karsten Paerregaard,2020-05-31 This pathbreaking ethnography of population movements between rural and urban places in Peru addresses the conceptual and methodological problems of studying deterritorialized populations and the implications of this for anthropology s notions of culture and identity Based on extensive fieldwork this book explores the economic social and ritual bonds which link migrants in Peru s major cities to their Andean native village Many urban migrants establish networks based on kinship and marriage ties to exploit resources in the city as well as the village These networks ensure they maintain strong links to their native village Fiestas soccer tournaments and folklore festivals also play a crucial role in the formation of migrant communities in Peru s cities The author analyses these performance practices and shows how they give rise to the creation of new social identities The participation of second generation migrants returning migrants and migrant spouses in village life is also discussed   **ILAR News** ,1975   **The News Event** Francis Cody,2023-04-05 In the hypermediated world of Tamil Nadu Francis Cody studies how news events are made Not merely the act of representing events with words or images a news event is the reciprocal relationship between the events being reported in the news and the event of the news coverage itself In The News Event Francis Cody focuses on how imaginaries of popular sovereignty have been remade through the production and experience of such events Political sovereignty is thoroughly mediated by the production of news and subjects invested in the idea of democracy are remarkably reflexive about the role of publicly circulating images and texts in the very constitution of their subjectivity The law comes to stand as both a limit and positive condition in this process of event making where acts of legal and extralegal repression of publication can also become the stuff of news about news makers When the subjects of news inhabit multiple participant roles in the unfolding of public events when the very technologies of recording and circulating events themselves become news the act of representing a political event becomes difficult to disentangle from that of participating in it This Cody argues is the crisis of contemporary news making the news can no longer claim exteriority to the world on which it reports
