## Runaway Crisis:

Asia and China in the Global Era Adrian J. Bailey, Ricardo K. S. Mak, 2021-01-18 China's strong economic growth occurring alongside modernization across the great majority of Asian societies has created what many see as a transnational space through and by which not only economic social and cultural resources but also threats and crises flow over traditional political boundaries The first section of the work lays out a clear conceptual framework It draws on arguments about nation no longer being the only container of society about trans disciplinary thinking and about knowledge being context bound It identifies and discusses distinctive features of China and Asia in the global era These include population urbanization and climate change the continuing reach of Orientalist shadows cultural politics of knowledge It closes by arguing how global studies adds value to existing accounts The second and longer section applies this framework through a series of original empirical case studies in three areas migration poverty gender culture education well being Both the conceptual framework and case studies are drawn from research presented at HKBU since 2011 under the auspices of the Global Social Sciences Conference Series and supplemented by additional papers Analysis and Evaluation United States. Office of Juvenile Justice and Delinquency Prevention, Assembly Bill California. Legislature. Assembly, 1976 From Child Welfare to Child Well-Being Sheila Kamerman, Shelley Phipps, Asher Ben-Arieh, 2009-10-23 This chapter provides a brief overview of the book highlighting the modest progress from child welfare to child well being reflected in these chapters and the parallel movement in Kahn's career and research as his scholarship developed over the years It then moves to explore the relationship between two overarching themes child and family policy stressing a universal approach to children and social protection stressing a more targeted approach to disadvantaged and vulnerable individuals including children and the complementarity of these strategies Introduction To a large extent Alfred J Kahn was at the forefront of the developments in the field of child welfare services protective services foster care adoption and family preservation and support Overtime his scholarship moved to a focus on the broader policy domain of child and family policy and the outcomes for child well being His work as is true for this volume progressed from a focus on poor disadvantaged and vulnerable children to a focus on all children He was convinced that children by definition are a vulnerable population group and that targeting all children employing a universal policy as a strategy would do more for poor children than a narrowly focused policy targeted on poor children alone As we first argued more than three decades ago Not for the Poor Alone Universalism and Income Testing in Family Policy one could target the most disadvantaged within a universal framework and this would lead to more successful results than targeting only the poor *DHHS Publication No. (OHDS).*, 1978 **Hearings, Reports and Prints of the House Committee on Education and Labor** United States. sentences were commuted to life with parole in 1972 since 1978 they have been regularly attending parole hearings Today all of the living defendants remain behind bars Relying on nearly fifty years of parole hearing transcripts as well as interviews and archival materials Hadar Aviram invites readers into the opaque world of the California parole process a realm of almost unfettered administrative discretion prison programming inadequacies high pitched emotions and political pressures Yesterday s Monsters offers a fresh longitudinal perspective on extreme punishment Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 2000 United States. **From Soul to Hip Hop** Tom Perchard,2017-07-05 The essays contained in this volume address some of the most visible durable and influential of African American musical styles as they developed from the mid 1960s into the 21st century Soul funk pop R B and hip hop practices are explored both singly and in their many convergences and in writings that have often become regarded as landmarks in black musical scholarship These works employ a wide range of methodologies and taken together they show the themes and concerns of academic black musical study developing over three decades While much of the writing here is focused on music and musicians in the United States the book also documents important and emergent trends in the study of these styles as they have spread across the world The volume maintains the original publication format and pagination of each essay making for easy and accurate cross reference and citation Tom Perchards introduction gives a detailed overview of the book s contents and of the field as a whole situating the present essays in a longer and wider tradition of African American music studies In bringing together and contextualising works that are always valuable but sometimes difficult to access the volume forms an excellent introductory resource for university music students and researchers Hollywood in San Francisco Joshua Gleich,2018-11-14 One of the country s most picturesque cities and conveniently located just a few hours drive from Hollywood San Francisco became the most frequently and extensively filmed American city beyond the production hubs of Los Angeles and New York in the three decades after World War II During those years the cinematic image of the city morphed from the dreamy beauty of Vertigo to the nightmarish wasteland of Dirty Harry although San Francisco itself experienced no such decline This intriguing disconnect gives impetus to Hollywood in San Francisco the most comprehensive study to date of Hollywood s move from studio to location production in the postwar era In this thirty year history of feature filmmaking in San Francisco Joshua Gleich tracks a sea change in Hollywood production practices as location shooting overtook studio based filming as the dominant production method by the early

1970s He shows how this transformation intersected with a precipitous decline in public perceptions of the American city to which filmmakers responded by developing a stark realist aesthetic that suited America's growing urban pessimism and superseded a fidelity to local realities Analyzing major films set in San Francisco ranging from *Dark Passage* and *Vertigo* to *The Conversation* *The Towering Inferno* and *Bullitt* as well as the TV show *The Streets of San Francisco* Gleich demonstrates that the city is a physical environment used to stage urban fantasies that reveal far more about Hollywood filmmaking and American culture than they do about San Francisco

Sanders, 2020-12-10 Children are the future Or so we like to tell ourselves In the wake of the Second World War Americans took this notion to heart Confronted by both unprecedented risks and unprecedented opportunities they elevated and perhaps exaggerated the significance of children for the survival of the human race *Razing Kids* analyzes the relationship between the postwar demographic explosion and the birth of postwar ecology In the American West especially workers policymakers and reformers interwove hopes for youth environment and the future They linked their anxieties over children to their fears of environmental risk as they debated the architecture of wartime playgrounds planned housing developments and the impact of radioactive particles released from distant hinterlands They obsessed over how riot riddled cities War on Poverty era rural work camps and pesticide laden agricultural valleys would affect children Nervous about the world they were making their hopes and fears reshaped postwar debates about what constituted the social and environmental good
