Ellenberger,2020-12-17 What is the relationship between culture and mental health Is mental illness universal Are symptoms of mental disorders different across social groups In the late 1960s these questions gave rise to a groundbreaking series of articles written by the

psychiatrist Henri Ellenberger who would go on to publish *The Discovery of the Unconscious: The History and Evolution of Dynamic Psychiatry* in 1970. Fifty years later they are presented for the first time in English translation introduced by historian of science Emmanuel Delille. *Ethnopsychiatry* explores one of the most controversial subjects in psychiatric research: the role of culture in mental health. In his articles, Ellenberger addressed the complex clinical and theoretical problems of cultural specificity in mental illness, collective psychoses, differentiations within cultural groups, and biocultural interactions. He was especially attuned to the correlations between rapid cultural transformations in postwar society, urbanization, and the frequency of mental illness. Ellenberger drew from a vast and varied primary and secondary literature in several languages as well as from his own findings in clinical practice, which included work with indigenous peoples. In analyzing Ellenberger's contributions, Delille unveils the transnational and interdisciplinary origins of transcultural psychiatry, which grew out of knowledge networks that crisscrossed the globe. The book has a rich selection of appendices, including Ellenberger's lecture notes on a case of peyote addiction and his correspondence with anthropologist and psychoanalyst Georges Devereux. These original essays and their masterful contextualization provide a compelling introduction to the foundations of transcultural psychiatry and one of its most distinguished and prolific researchers.

Ten Follies: A Journey Around the World in Ten Forms of Madness Marco Innamorati, 2025-07-22. *Ten Follies: A Journey Around the World in Ten Forms of Madness* focuses on a critical question in the history of psychiatry: to what extent does psychopathology describe phenomena that exist before or beyond their description? Marco Innamorati probes the view that any description of a psychopathological phenomenon is to a significant extent the result of a construction by the subject describing it or a co-construction made by the clinician and the patient, a perspective also known as the constructivist approach. Starting from the work of the philosopher and historian of science Ian Hacking, who proposed the concept of transient mental illness, i.e., an illness that appears at a given time in a given place and then disappears, Hacking (1998) Innamorati explores some forms of madness that seem to arise in a particular environment and in specific historical circumstances, developing through a kind of epidemic and then disappearing almost definitively. The author evaluates strengths and weaknesses of the constructivist approach by juxtaposing evolving hermeneutical questions to cultural factors. From hysteria to demonic possession, from the mad travellers to arctic shamanism, until the recent mushrooming of the hikikomori phenomenon, *Ten Follies* is an unconventional journey around the world in ten forms of madness, which takes the reader through astonishing stories of suffering and healing. Against the trend of mapping a single globalised discourse of folly, this book embraces a kind of philosophical perspectivism, ten follies, which echoes the contemporary cultural transformation of the many narratives of madness.

beyond fashionable postcolonial theory to bring to our attention the complex history of Philippines U S literary interactions In sharp contrast to other works on the subject the author presents Filipino literary production within the context of a long and sustained tradition of anti imperialist insurgency and foregrounds the strong presence of oppositional writing in the Philippines After establishing the historical context of U S intervention and Filipino resistance San Juan examines the work of two very significant writers The first Carlos Bulosan a journalist and union activist became in the author s words a tribune of the people Bulosan s writings which combine critique and prophecy do not allow us to forget the atrocities inflicted on the Filipino people The other Jos Garcia Villa lapsed into premature obscurity on account of the complexity of his writings about the Filipino predicament Read through San Juan s eyes these writers are revealed as multifaceted thinkers and activists not stereotypical ethnic artists San Juan goes beyond literary studies and contemporary debates about nationalism and politics to point the way to a new direction in radical transformative writing He uncovers hidden agendas in many previous accounts of U S Philippine relations and this book exemplifies how best to combine activist scholarship with historically grounded cultural commentary Author note E San Juan Jr is Fellow of the Center for the Humanities and Visiting Professor of English Wesleyan University and Director of the Philippines Cultural Studies Center He was recently chair of the Department of Comparative American Cultures Washington University and Professor of Ethnic Studies at Bowling Green State University Ohio He received the 1999 Centennial Award for Literature from the Philippines Cultural Center His most recent books are *Beyond Postcolonial Theory From Exile to Diaspora* After Postcolonialism and *Racism and Cultural Studies Violent Internal Conflicts in Asia Pacific* Asvi Warman Adam, Dewi Fortuna Anwar, 2005 The last decade has seen an upsurge in violent internal conflicts in southern Thailand southern Philippines Sri Lanka and a number of regions in Indonesia and the Pacific Like terrorism and nuclear proliferation violent internal conflicts are increasingly being seen as a global security issue
