Political Campaigns in the United States Richard K. Scher, 2016-02-19 A Choice Highly Recommended Title January 2017 This book is an interpretive analysis of political campaigns in America instead of focusing on how campaigns are designed and run it investigates the role campaigns play in our American politics and the close symbiosis between campaigns and those politics The text examines how campaigns are an important manifestation of how we do politics in this country Hallmarks of this text include showing how campaigns can undermine our democracy and asking how democratic they are and by extension our politics really are demonstrating that the ability of the media to accurately fairly and deeply report on campaigns has been severely compromised both because of the growing distance between campaigns and media outlets and because of the structure of Big Media corporate ownership and its tight relationship to Big Money It asks important questions about the media including How do the media reporters in particular cover campaigns What pressures and forces shape what and how they present campaigns What is the impact of the ever increasing chasm separating campaigns and the media How does the close tie between corporate mainstream media and Super PAC money affect campaign coverage How does the ability of campaigns and media to segment voters into ever smaller slices influence how campaigns are covered tracking the continuing growth of unregulated private unaccountable dark money in campaigns as a threat to our democratic elections and politics Democracy rests fundamentally on transparency and accountability sunlight and our campaign laws and norms now allow and encourage exactly the opposite largely because of decisions by the United States Supreme Court

Campaigns That Matter Jay Wendland, 2017-06-30 Every four years Americans are inundated with campaign activities from candidates attempting to become the next president of the United States An under researched area of these campaign activities are campaign visits rallies town hall meetings and candidate meet and greets for example Almost all candidates conduct visits yet we do not have a good understanding of how they affect voters Wendland tackles four big questions throughout Campaigns That Matter 1 Do campaigns matter 2 Are campaign visits strategic 3 Do visits help mobilize voters 4 Do visits impact candidate preference Using a unique set of data that includes all visits conducted throughout the 2008 2012 and 2016 presidential nominating contests Wendland explores how these visits affected voters compared to traditional measures of advertisements campaign spending and momentum In doing so Wendland has provided us with a more comprehensive picture of how voters make decisions in the voting booth

Scher,1997 Political campaigns in the United States have been favorite targets of critics since our nation s origin Too long too expensive too negative too personal unbecoming to our democracy these criticisms were made in the nineteenth century just as they are made today but are they compelling This short book takes a fresh look at the American style of campaign politics past and present warts and all to argue that campaigns reflect both our popular culture and the place of politics in our national life In the end the purpose of campaigns is to draw voters attention to a candidate or issue even though politics

is not of immediate interest to many or most citizens That is what campaigns do and always have done in America and there is little reason to think that a more cerebral approach to politics would be more effective Reflective analytical and firmly committed to democratic values this book challenges citizens to trade cynicism for realism to take a clear eyed look at our politics and ourselves and appreciate both for what they are
