**CIVILIZATION** Armand du Plessis,2014-06-04 We witness step by step decay of civilization across the world particularly in South Africa As many others I also want to arrest the decline I thought I could reach the broad public by writing but after various persons had read the draft I realized only independent thinkers could benefit from it whilst it needlessly confuse those who are dependent on society for values Those who are content with society and their prospects probably would not find use in this writing Maintenance of civilization is of the very greatest concern to man and even to plant and animal particularly threatened species I cannot imagine anyone who can read would object to this axiom But few know that which we call civilization was created by the Aryans and only this race and those who inherited sufficient of its characteristics maintain civilization On each of the legion subjects relating to civilization scholars already published documents but I have yet to find one revealing adequate role players to elucidate a total image covering both nature and history to enable us to find solutions for the preservation of Civilization
