RUNNING WITH REINDEER

ENCOUNTERS IN RUSSIAN LAPLAND

ROGER TOOK

Running With Reindeer Encounters In Russian Lapland

Carrie Bucki

Running With Reindeer Encounters In Russian Lapland:

Running with Reindeer Roger Took, 2008-11-10 Russian Lapland a region of amazing contrasts Here lies the last true wilderness of Europe a rich and pristine ecosystem teeming with bird and animal life But here too lie the dark satanic mills of the former Soviet Union and the rotting remnants of nuclear submarines Running with Reindeer is the first account in over a century to describe life in this harsh but beautiful land Living among remote reindeer herding and hunting families Roger Took spends a decade following the lives and traditions of the indigenous Lapps or Saami He meets pioneering villagers descended from medieval Novgorod fur traders who are now learning to cope with the new economy and the men and women originally forced north to mine Russian Lapland's fabulous mineral wealth but are now unemployed and stranded Avoiding the still vigilant security services he explores the naval bases where nuclear powered submarines are lying dangerously neglected His encounters with the land and its inhabitants are dramatic and comical as well as emotionally disturbing and physically dangerous Moving between the lines of the official histories coping with arduous Arctic conditions he writes compellingly offering a vivid account of a unique part of Europe Lapland: A Natural History Derek Ratcliffe, 2010-06-30 This stunning new Poyser title looks at the flora and fauna of Lapland that area of northern Europe and northwestern Russia which lies within the Arctic circle After general introductions the book examines the Lapland ecosystems and species by habitat type with one chapter dealing with freshwater habitats another with open tundra and so on The history of natural history study in the region and the conservation issues affecting it today are also discussed The book is illustrated throughout with a wealth of the author's own colour photographs and there are also some line drawings and a number of maps and other figures to illustrate key points This is a wonderfully evocative book which creates a vivid sense of place for one of the planet's last wildernesses and will appeal to anyone who loves wildlife and wild places A rare window onto one of Europe's most unspoiled areas by the outstanding British field naturalist of the late 20th century The Independent An informative and easy to read text on a part of the natural world unfamiliar to many It is a fascinating enjoyable book Wildlife Activist Summer 2006

Big Oil Playground, Russian Bear Preserve Or European Periphery? Bjørn Brunstad, 2004 Barents Russia is the far northwestern corner of the Russian Federation bordering on the Barents Sea and the affluent Nordic countries It is a region full of natural resources petroleum fish minerals etc much of which is yet to be exploited The region is heavily influenced by the Cold War and 70 years of Soviet central planning with heavy industry concentrated in company towns and with a strong military presence The region also houses some serious threats to a vulnerable Arctic environment The ten past years have brought historic changes in Barents Russia and in the relations between this region and the world around it Yet the next couple of decades may bring even more profound changes the direction of which is hard to predict Much hangs in the balance ranging from the supply of oil and gas to the world market to broader political issues such as the future for democracy and the rule of law the protection of the environment the integration into world trade and the old favourite topic

of the high north the strategic balance This book presents three plausible but provoking scenarios for the future of Barents Russia Big Oil Playground Russian Bear Preserve or European Periphery and will hopefully contribute to increased attention and deeper understanding of the forces and actors that will shape the region The aim is for the scenarios to provoke new insights about change dynamics opportunities and challenges and to serve as a backdrop for public planning corporate strategy making and more Book jacket

The Sámi Peoples of the North Neil Kent,2019-03-01 There is no single volume that encompasses an integrated social and cultural history of the S mi people from the Nordic countries and northwestern Russia Neil Kent s book fills this lacuna In the first instance he considers how the S mi homeland is defined its geography climate and early contact with other peoples He then moves on to its early chronicles and the onset of colonisation which changed S mi life profoundly over the last millennium Thereafter the nature of S mi ethnicity is examined in the context of the peoples among whom the S mi increasingly lived as well as the growing intrusions of the states who claimed sovereignty over them The Soviet gulag the Lapland War and increasing urbanisation all impacted upon S mi life Religion too played an important role from pre historic times with their pantheon of gods and sacred sites to their Christianisation In the late twentieth century there has been an increasing symbiosis of ancient S mi spiritual practice with Christianity Recently the intrusions of the logging and nuclear industries as well as tourism have come to redefine S mi society and culture Even the meaning of who exactly is a S mi is scrutinised at a time when some intermarry and yet return to S mi where their children maintain their S mi identity

Old Woman with Berries in Her Lap Vivian Faith Prescott,2022-03-15 Through a single descendant s voice that speaks to the S mi diaspora this collection of poems is a journey through colonialism transgenerational trauma and identity Many have heard of the S mi reindeer herders brought to Alaska by Sheldon Jackson in the 1800s but not much is known about the S mi diaspora experiences in the state and beyond The poems in *Old Woman with Berries in Her Lap* use the North S mi language as well as graphics and various types of poetry to tell these stories of migration and diaspora Vivian Faith Prescott s use of language is both a celebration of the richness of the S mi languages and a mourning of the loss of language that occurs when a population is displaced and forced to exist in a totally foreign language space According to S milinguist professor and politician Ole Henrik Magga the S mi languages have very easily one thousand lexemes with connections to snow ice freezing and melting These lexemes frame many of Prescott s poems introducing ideas and feelings around the loss of language and culture A compelling insight into the S mi culture from a contemporary poet s eye *Old Woman with Berries in Her Lap* juxtaposes past and present in an act of reclamation

Power and the People Yulian Konstantinov,2023-09-02 This book discusses state periphery relations from the view point of a reindeer husbandry community in the Russian Far North Murmansk Region The time is the current period of Putin led Russia The analysis is based on the premise that the mode of current top power governance can be described as selective de centralization Below a certain level of state power interests conflicts get resolved in favour of local communities That gains support for the supreme

leadership and reproduces a Soviet like reality Termed sovkhosm the latter holds the Soviet state farm sovkhos as creating an ideal socio economic environment When issues are of significant interest to superior power selection favours cavalier bypassing of people friendly concerns At this level power acts in an authoritarian mode favouring the interests of state power structures in conjunction with the upper tiers of the loyal oligarchate It is shown how this governing mode contains significant potential for escalating centre vs periphery tensions

Liberating Sápmi Gabriel Kuhn,2020-03-01 The Sápmi who have inhabited Europe's far north for thousands of years are often referred to as the continent's forgotten people With Sápmi their traditional homeland divided between four nation states Norway Sweden Finland and Russia the Sápmi have experienced the profound oppression and discrimination that characterize the fate of indigenous people worldwide their lands have been confiscated their beliefs and values attacked their communities and families torn apart Yet the Sápmi have shown incredible resilience defending their identity and their territories and retaining an important social and ecological voice even if many progressives and leftists included refuse to listen *Liberating Sápmi* is a stunning journey through Sápmi and includes in depth interviews with Sápmi artists activists and scholars boldly standing up for the rights of their people In this beautifully illustrated work Gabriel Kuhn author of over a dozen books and our most fascinating interpreter of global social justice movements aims to raise awareness of the ongoing fight of the Sápmi for justice and self determination The first accessible English language introduction to the history of the Sápmi people and the first account that focuses on their political resistance this provocative work gives irrefutable evidence of the important role the Sápmi play in the resistance of indigenous people against an economic and political system whose power to destroy all life on earth has reached a scale unprecedented in the history of humanity The book contains interviews with Mari Boine Harald Gaski Ann Kristin Håkansson Aslak Holmberg Maxida Mørak Stefan Mikaelsson May Britt Høman Synne Persen Yvonne Ravn Niillas Somby Anders Sunna and Suvi West

Nuclear Bodies Robert A. Jacobs,2022-01-01 The Cold War reconsidered as a limited nuclear war A grimly important analysis of the cold war Andrew Robinson Nature Inexorable clarity and care for his fellow humans mark Robert Jacobs's guide to the Cold War as a limited nuclear war whose harms disfigure any possible future Norma Field author of *In the Realm of a Dying Emperor* Japan at Century's End In the fall of 1961 President Kennedy somberly warned Americans about deadly radioactive fallout clouds extending hundreds of miles from H-bomb detonations yet he approved ninety six U.S. nuclear weapon tests for 1962 Cold War nuclear testing production and disasters like Chernobyl and Fukushima have exposed millions to dangerous radioactive particles these millions are the global hibakusha Many communities continue to be plagued with dire legacies and ongoing risks sickness and early mortality forced displacement uncertainty and anxiety dislocation from ancestors and traditional lifestyles and contamination of food sources and ecosystems Robert A. Jacobs re-envisions the history of the Cold War as a slow nuclear war fought on remote battlegrounds against populations powerless to prevent the contamination of their lands and bodies His comprehensive account necessitates a profound rethinking of the

meaning costs and legacies of our embrace of nuclear weapons and technologies

Merchant Adventurers James Evans, 2013-09-12 A Tudor voyage of exploration an extraordinary story of daring discovery tragedy and pioneering achievement In the spring of 1553 three ships sailed north east from London into uncharted waters The scale of their ambition was breathtaking Drawing on the latest navigational science and the new spirit of enterprise and discovery sweeping the Tudor capital they sought a northern passage to Asia and its riches The success of the expedition depended on its two leaders Sir Hugh Willoughby a brave gentleman soldier and Richard Chancellor a brilliant young scientist and practical man of the sea When their ships became separated in a storm each had to fend for himself Their fates were sharply divided One returned to England to recount extraordinary tales of the imperial court of Tsar Ivan the Terrible The tragic mysterious story of the other two ships has to be pieced together through the surviving captain s log book after he and his crew became lost and trapped by the advancing Arctic winter This long neglected endeavour was one of the boldest in British history and its impact was profound Although the merchant adventurers failed to reach China as they had hoped their achievements would lay the foundations for England s expansion on a global stage As James Evans vivid account shows their voyage also makes for a gripping story of daring discovery tragedy and adventure

Tourism and Indigeneity in the Arctic Arvid Viken, Dieter K. Müller, 2017-05-03 This is the first book to exclusively address tourism and indigenous peoples in the circumpolar North It examines how tourism in indigenous communities is influenced by academic and political discourses and how these communities are influenced by tourism The volume focuses on the ambivalence relating to tourism as a modern force within ethnic groups who are concerned with maintaining indigenous roots and traditional practices It seeks to challenge stereotypical understandings of indigenusness and indigeneity and considers conflicting imaginaries of the Arctic and Arctic indigenous tourism The book contains case studies from Canada Greenland Norway Sweden Finland and Russia and will be of interest to postgraduate students and researchers of tourism geography sociology cultural studies and anthropology

Tudor Adventurers James Evans, 2014-08-15 In the spring of 1553 three ships sailed north east from London into uncharted waters The scale of their ambition was breathtaking Drawing on the latest navigational science and the new spirit of enterprise and discovery sweeping the Tudor capital they sought a northern passage to Asia and its riches The success of the expedition depended on its two leaders Sir Hugh Willoughby a brave gentleman soldier and Richard Chancellor a brilliant young scientist and practical man of the sea When their ships became separated in a storm each had to fend for himself Their fates were sharply divided One returned to England to recount extraordinary tales of the imperial court of Tsar Ivan the Terrible The tragic mysterious story of the other two ships has had to be pieced together through the surviving captain s log book after he and his crew became lost and trapped by the advancing Arctic winter This exceptional endeavour was one of the boldest in British history and its impact was profound Although the merchant adventurers failed to reach China as they had hoped their achievements would lay the foundations for England s expansion on a global stage As

James Evans vivid account shows their voyage also makes for a moving story of daring discovery tragedy and adventure

Remaking Europe in the Margins Christopher S. Browning, 2019-06-04 Originally published in 2005 This comprehensive volume examines the issue of Europe making related to the post EU NATO enlargement and the post 9 11 situation Dual enlargement and the War on Terrorism are raising important questions for various actors in Europe in particular what these developments will mean for the future of regional cooperation and the development of a regional subjectivity Such concerns have been further compounded by America s distinction between New Europe and Old Europe The volume analyzes at both policy and conceptual levels how the dual enlargement and the War on Terrorism will impact on regional cooperation in northern Europe It examines how events in northern Europe have helped shape the nature of European space borders and governance including how the EU the US and Russia have each highlighted northern Europe as a special case to be utilized and learnt from in dealing with problems elsewhere in Europe and globally Presenting original articles the volume will appeal to scholars of regional politics as well as security international relations theory and geopolitics

War at the Margins Lin Poyer, 2022-12-31 War at the Margins offers a broad comparative view of the impact of World War II on Indigenous societies Using historical and ethnographic sources Lin Poyer examines how Indigenous communities emerged from the trauma of the wartime era with social forms and cultural ideas that laid the foundations for their twenty first century emergence as players on the world s political stage With a focus on Indigenous voices and agency a global overview reveals the enormous range of wartime activities and impacts on these groups connecting this work with comparative history Indigenous studies and anthropology The distinctiveness of Indigenous peoples offers a valuable perspective on World War II as those on the margins of Allied and Axis empires and nation states were drawn in as soldiers scouts guides laborers and victims Questions of loyalty and citizenship shaped Indigenous combat roles from integration in national armies to service in separate ethnic units to unofficial use of their special skills where local knowledge tilted the balance in military outcomes Front lines crossed Indigenous territory most consequentially in northern Europe Southeast Asia and the Pacific Islands but the impacts of war go well beyond combat Like others around the world Indigenous civilian men and women suffered bombing and invasion displacement forced labor military occupation and economic and social disruption Infrastructure construction and demand for key resources affected even areas far from front lines World War II dissolved empires and laid the foundation for the postcolonial world Indigenous people in newly independent nations struggled for autonomy while other veterans returned to home fronts still steeped in racism National governments saw military service as evidence that Indigenous peoples wished to assimilate but wartime experiences confirmed many communities commitment to their home cultures and opened new avenues for activism By century s end Indigenous Rights became an international political force offering alternative visions of how the global order might make room for greater local self determination and cultural diversity In examining this transformative era War at the Margins adds an important

contribution to both World War II history and to the development of global Indigenous identity **A Viking Way of Life**
Steven P. Ashby, 2014-01-15 An engaging look at life in the Viking Age **Place Names** Francesco Perono
Cacciafoco, Francesco Cavallaro, 2023-03-09 Illustrated with numerous case studies this book is the first comprehensive
overview of the related fields of toponymy and toponomastics **From These Bare Bones** Alice Choyke, Sonia
O'Connor, 2013-12-19 A fundamental component of the study of worked osseous objects is the identification of the raw
materials chosen to make them In archaeological contexts many objects become degraded to the point where identification is
very difficult and the way in which these materials decay during burial and upon excavation can vary greatly Correct
identification is crucial to the investigation of objects their conservation and future curation Above all understanding raw
material selection aids our understanding of human animal interaction in the past both on pragmatic and symbolic levels
since the choices made by artisans vary by cultural tradition as well as availability The 20 papers presented here explore a
wealth of information pertaining to the use of osseous materials over the long period of human craftsmanship and tool
manufacture by exploring several key themes Raw material selection and curation within tool types Social aspects of raw
material selection New methods of materials identification It is demonstrated that the issue of raw material identification has
numerous implications for conservation work reproduction of objects the physical characteristics of the tool or ornament
availability of raw materials the materials chosen for procurement and the cultural reasons that lie behind the choice of raw
materials from particular species and skeletal elements to produce planned tool and ornament types Together these papers
emphasize the need for confident and correct materials identification and demonstrate that functionality is by no means the
only nor necessarily the most important factor in the selection of osseous raw materials for the fabrication of tools and other
cultural objects *Book Review Index* ,2006 Every 3rd issue is a quarterly cumulation *Library Journal* ,2003 Includes
beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035
called Junior libraries 1954 May 1961 Also issued separately *Reindeer Roundup!* Carrie Bucki, 2004 Nomadic Peoples
,2006
