## **Running A School Library:**

*Running a School Library* Colin Ray, 1990 This handbook is intended first and foremost for teachers who take on the responsibility of managing their school's library without previous experience. It therefore covers at a very basic level those procedures which are fundamental in setting up a new library, reorganizing an old one, carrying out the day to day administration and integrating the library with the work of the school. *Running a School Library Media Center* Barbara L. Stein, Barbara Stein Martin, Risa W. Brown, 1992 Information is organized into nine chapters which cover topics ranging from goal setting and budgeting to ordering materials to programming. Appendices contain lists of sources, a learning skills inventory, sample job descriptions and Library Bill of Rights information. *Voice Youth Advocates* *Running a School Library Media Center* B. Stein, 2002-07-01 **Managing Your School Library and Information Service** Anthony Tilke, 2002 Focusing on the library as an intrinsic part of the secondary or high school, this practical handbook provides the school librarian with the skills, knowledge and competencies that are needed to make a school library effective in the 21st century. The school's organization and current learning and curriculum matters are seen as equally important to the technical aspects of a school librarian's role. Linking all of these issues is management, either for a single person, unit or an organization with a large number of staff. Using case studies and comments from a large number of school librarians, this text is intended for teachers, headteachers and all those involved in school policy making. **School Library Management** Patricia A. Messner, Brenda S. Copeland, 2011-12-15 Written in clear, simple language, this book provides information that will help an aide or paraprofessional manage a school library. Setting up and managing a library media center is a complex task, best handled by a certified and experienced librarian, but the fact of the matter is that many school districts have had to cut librarian positions and are attempting to fill the gaps with aides. *School Library Management: Just the Basics* describes the step by step process of setting up the management processes in a school library and outlines easy management concepts that will guide aides through challenges like setting up activity centers and establishing rules for behavior. With over three decades of experience in librarianship, between them the authors cover topics such as student incentives and rewards, scheduling and supervising computer usage, circulation procedures, training materials for volunteers, passes, book marks and other patterns and privacy issues. This book can also serve as an effective training guide for district librarians responsible for training aides who are running multiple centers. **Where Do I Start?** Santa Clara County Office of Education, 2012-02-13 If you're new to running a library or looking for a refresher, this book can serve as your first reference source for school library operation, providing overview information on a wealth of topics, lists of resources for more in depth information and coverage of current topics such as Web 2.0, fundraising, digital booktalks and cybersafety. With the extreme budget cuts most school libraries are facing, professional development resources for library support staff that improve library management efficiency are in great demand. This popular handbook provides an overview of many topics related to school libraries.
