Rural Life in Canada , *Canadian History: Confederation to the present* Martin Brook Taylor,Doug Oworm,1994-01-01 In these two volumes which replace the Reader s Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship

Cover Dear Editor and Friends Norah L. Lewis,2006-01-01 How did women in the early twentieth century newly arrived in North West Canada cope with their strange new lives so very different from the lives they used to lead How did they see themselves and their role in frontier life In the early twentieth century drawn west by the promise of free land economic success or religious and political freedom women moved from eastern Canada and overseas to farms and ranches in North West Canada They discovered that it was not the utopia touted by government propaganda or land agents They also discovered that there was a select but diverse group of rural women who shared their common experiences of isolation of hard work and duty of poverty and neglect But more importantly they shared knowledge of independence and self reliance and of pride in what they had accomplished Through letters written to the women s pages in agricultural newspapers they forged a vital network that supported encouraged and educated women in ways to improve their rural lives Their letters show how these rural women made significant and vital contributions to the settlement and development of the Canadian North West

Being Neighbours Catharine Anne Wilson,2022-10-28 Throughout history farm families have shared work and equipment with their neighbours to complete labour intensive time sensitive and time consuming tasks They benefitted materially and socially from these voluntary flexible loosely structured networks of reciprocal assistance making neighbourliness a vital but overlooked aspect of agricultural change Being Neighbours takes us into the heart of neighbourhood the set of people near and surrounding the family through an examination of work bees in southern Ontario from 1830 to 1960 The bee was a special event where people gathered to work on a neighbour s farm like bees in a hive for a wide variety of purposes including barn raising logging threshing quilting turkey plucking and apple paring Drawing on the diaries of over one hundred men and women Catharine Wilson takes readers into families daily lives the intricacies of their labour exchange and their workways feasts and hospitality Through the prism of the bee and a close reading of the diaries she uncovers the subtle social politics of mutual dependency the expectations neighbours had of each other and their ways of managing conflict and crisis This book adds to the literature on cooperative work that focuses on evaluating its economic efficiency and complicates histories of capitalism that place communal values at odds with market orientation Beautifully written engaging and richly detailed and illustrated Being Neighbours reveals the visceral textures of rural life

Canadiana ,1989 **A Time Such as There Never Was Before** Alan Bowker,2014-09-06 As much upheaval as WWI caused in Canada its aftermath was even more transformative for the country With victory and the return the troops Canadian society was now faced with the question of how to return to normalcy and what normal would mean as Canada

emerged from its colonial status and found its independent national identity **The New Christianity** Salem

Bland, 1973-12-15 This volume a survey of the Canadian scene that urged various reforms appeared shortly after the First World War It was considered to be extremely radical in its proposals and implications at that time and had the distinction of being one of that rare breed of attempts to survey Canadian developments in terms of large principles of analysis or historical development In *The New Christianity* Salem Bland tried to place the unrest of the times in a large historical perspective and brought social political and economic developments into conjunction with main trends of religion in recent decades His central theme was that the processes of industrial and social consolidation the growth of organized labour and the spread of sociological ideas spelled the end of the old order of capitalism and Protestantism which had dominated most of western Christendom for three centuries Specifically the primary impediment to full realization of democracy and brotherhood Bland argued was modern capitalism based on private property rights in industry and motivated by a competitive individualism The second impediment to a new social order embodying the Christian spirit was the strong attachment of Christians to their traditions The chief hope of the future lay in a marriage of labour Christianity and American Christianity that would unite with all other traditions in a worldwide ecumenical movement Fifty years later the reprinting of this book is important because it is an instructive study in how the highest traditions of Christianity came into radical conjunction with the currents of economic change social reform and political upheaval in Canada in the first decades of this century

Improper Advances Karen Dubinsky, 1993-09-15 This book provides a study of women men and sexual crime in rural and northern Ontario expanding the terms of current debates about sexuality and sexual violence Karen Dublinsky relies on criminal case files a revealing but largely untapped source for social historians to retell individual stories of sexual danger crimes such as rape abortion seduction murder and infanticide Her research supports many feminist analyses of sexual violence that crimes are expressions of power that courts are prejudiced by the victim s background and that most assaults occur within the victim s homes and communities But she refuses to view women solely as victims and sex as a tool of oppression demonstrating that these women actively distinguished between wanted and unwanted sexual encounters and that they attempted to punish coercive sex despite obstacles in the court system and the community Voice of the

Vanishing Minority Robert Hill, 1999-04-20 Widely regarded as the authentic voice of English speaking farmers in Quebec Robert Sellar editor of the *Huntingdon Gleaner* was the most quoted rural newspaperman in Canada *Voice of the Vanishing Minority* recounts Sellar s crusade against the tide of Frenchification that would displace English speaking people from the townships they had pioneered As a result of his outspokenness Sellar endured character assassination physical violence legal harassment arson clerical condemnation disappointment and the apathy of the dwindling communities he was defending His provocative beliefs about Quebec s first English exodus shared by the grass roots but dismissed by politically correct politicians journalists and academics as Anglo Protestant bigotry cut to the core of the unity crisis already developing in

The Petite Bourgeoisie F. Bechhofer,B. Elliott,2016-04-30 *Fundamentalists in the City* Margaret Lamberts

Bendroth,2005-07-14 *Fundamentalists in the City* is a story of religious controversy and division set within turn of the century and early twentieth century Boston It offers a new perspective on the rise of fundamentalism emphasizing the role of local events both sacred and secular in deepening the divide between liberal and conservative Protestants The first part of the narrative beginning with the arrest of three clergymen for preaching on the Boston Common in 1885 shows the importance of anti Catholicism as a catalyst for change The second part of the book deals with separation told through the events of three city wide revivals each demonstrating a stage of conservative Protestant detachment from their urban origins
