## **Rural China:**

Rural China Jie Fan, Thomas Heberer, Wolfgang Taubmann, 2015-05-15 This book reports the findings of two field studies conducted between 1993 and 2001 in seven townships and six provinces in China. The authors describe the process of rural urbanization and its related economic, social, and political changes by focusing mainly on the Zhen town, in addition to administrative offices and companies involved in the local economy and village committees. The authors show that the social changes resulting from China's economic reforms are occurring mainly from below and that this process is also resulting in a weakening of the economic and political dominance of the central government. Other changes discussed in this study include the development of new ownership structures and the increasing dominance of the private sector, a shift in the functions of administrative offices as the bureaucracy becomes increasingly business-oriented, the rise of a new local elite, a rebirth of traditional social structures, clans, local associations, and the emergence of new interest groups and institutions to represent their needs.

*Women's Work in Rural China* Tamara Jacka, 1997 Based on interviews with rural Chinese women, officials, and social scientists, and on Chinese newspapers, journals, and academic reports. Analyses the situation of women of Han nationality with rural household registration, most of whom worked in townships and villages, but some of whom worked in cities. Delineates patterns in gender divisions of labour in the context of economic reform.

**The Transformation of Rural China** Jonathan Unger, 2016-09-16 During the past quarter century, Jonathan Unger has interviewed farmers and rural officials from various parts of China in order to track the extraordinary changes that have swept the countryside from the Maoist era through the Deng era to the present day. A leading specialist on rural China, Professor Unger presents a vivid picture of life in rural areas during the Maoist revolution and then after the post-Mao disbandment of the collectives. This is a story of unexpected continuities amidst enormous change. Unger describes how rural administrations retain Mao era characteristics despite the major shifts that have occurred in the economic and social hierarchies of villages as collectivization and class struggle gave way to the slogan to get rich is glorious. A chapter explores the private entrepreneurship that has blossomed in the prosperous parts of the countryside. Another focuses on the tensions and exploitation that have arisen as vast numbers of migrant laborers from poor districts have poured into richer ones. Another, based on five months of travel by jeep into impoverished villages in the interior, describes the dilemmas of underdevelopment still faced by many tens of millions of farmers and the ways in which government policies have inadvertently hurt their livelihoods.

The Transformation of Rural China Jonathan Unger, 2002 Here Professor Unger presents a vivid picture of life in rural areas during the Maoist revolution and then after the post-Mao disbandment of the collectives. A story of unexpected continuities amidst great change. Unger describes how rural administrations retain Maoist characteristics.

**The Underworld of Rural China** Baifeng Chen, 2023-02-20 This book aims to provide the readers a better understanding of rural China through the particular perspective of the rural underworld. It proposes new concepts to describe social changes of

rural China by comparing the contemporary rural society with the acquaintance society the classic model for depicting the traditional Chinese society The author's down to earth fieldwork has revealed that with a permeating gang influence the society of rural China has actually changed in nature Such change in social nature is summarized as the estrangement of acquaintances or moral ambiguity As a result of the rural gangster's unlawful acts of lining their pockets with national resources rural China is going through rural governance involution In short this book develops new models and concepts to establish a comprehensive scientific conceptual system for explaining social reality With hard to come by information and a prudent and multi faceted analysis on a neglected topic this book gradually reveals to the readers the true picture of rural China

*Research On Community Construction In Rural China* Jiquan Xiang,2020-09-28 Rural community construction is an important topic of study in China This book examines the development of various construction models the reasons behind their emergence and provides analyses based on their characteristics problems and trends It offers insights from a historical perspective through the study of organizational bases structural functions behavioral patterns and their roles in national governance as well as social systems of rural communities in different periods This book is also integrated with comparative analyses on urban and rural communities and comprises of examples from China and other countries including United States Japan South Korea and more

*The Distribution of Wealth in Rural China* Terry McKinley,2016-09-16 Based on an analysis of a 1988 nationwide sample survey of 10 258 households this book aims to offer insights into issues of rural inequality in China The work focuses on the study of wealth rather than income as the primary measure

*Politics and Markets in Rural China* Björn Alpermann,2012-03-29 Thirty years have passed since the beginning of the reform era in China which saw important changes in agriculture and rural organizations but it is clear that certain entrenched legacies from pre reform China still linger on even after WTO accession most importantly the key role played by state actors and politics in the development of markets in rural China Although increasingly diversified markets have emerged for major agricultural inputs and products their development cannot be understood without taking this role into account Against this backdrop the contributors to this book offer a fresh account of rural politics and markets consciously linking these two realms and highlighting their interconnectedness The book is organized in three parts addressing respectively markets for agricultural inputs and outputs as well as current policies in rural development The perspectives adopted link macro and micro level analysis in each chapter and thus contribute substantially to our understanding of existing markets As an original account of rural politics and markets in China this book will appeal to students and scholars of Chinese politics economics development studies and political economy

[Tax Reform in Rural China](#) Hiroki Takeuchi,2014-08-11 This book answers the important question how does China maintain authoritarian rule while it is committed to market oriented economic reforms

*Handbook of Essential Keywords for Understanding Rural China* Liu Jinhai,2024-12-14 Based on sociolinguistic analysis methods theoretical analysis or empirical research was conducted on 39 keywords related to rural reform peasant behaviour

and peasant politics in China since the founding of the People's Republic of China. The research content covers the period from 1949 to the first decade of the twenty-first century. The research content includes changes in the rural policies of the People's Republic of China, changes in rural systems, organisations and behaviour in the era of collectivisation and peasants' reactions and behaviour in the face of national policies. This book focuses on four aspects: the meaning of words themselves in Chinese, their meaning in contemporary Chinese political life, how peasants understand and practice the elements and connotations contained in words, and how words themselves change, transform or even disappear. This book will appeal to scholars of peasant politics, Chinese affairs and contemporary Chinese history, undergraduate and postgraduate students of history, sociology and political science, and the general reader interested in Chinese rural areas and Chinese politics. Chinese political societies in English-speaking countries, Chinese or East Asian research centres, universities or libraries may also be interested in this book.

**Political Culture and Participation in Rural China** Yang Zhong, 2013-06-17. Despite China's rapid urbanisation and industrialisation, most Chinese still live in the vast countryside or have rural household registration. Although there was significant economic improvement in rural areas in the 1980s, the rural economy has been stagnating or deteriorating since then, and the book argues that the rural-urban income gap is giving rise to the potential for political instability throughout China. This book, based on extensive original research including interview fieldwork in rural areas, examines the nature of political culture and participation in rural China, discussing issues such as the support or lack of it for democratic values, levels of political interest, the ways in which Chinese peasants interact with village and local officials, subjective factors that motivate them to vote or not to vote in village elections, and rural people's views on market-oriented economic reforms, local and national government, and the Communist Party. The book argues that although hitherto peasants' riots, sit-ins and demonstrations have been localised and uncoordinated, they are frequent and have the potential to cause serious political crises for China's rulers. It concludes by considering the future political development of China's vast countryside.

The Growth of Market Relations in Post-Reform Rural China Hiroshi Sato, 2003-08-27. This book assesses the different factors that are contributing to the transition to a market economy and the growth of networks in rural China. It demonstrates the importance of the party-state system and regional differences.

**The Educational Hopes and Ambitions of Left-Behind Children in Rural China** Yang Hong, 2021-10-15. This monograph highlights the educational experiences of rural children who are left behind by their migrant worker parents in China, analyzing how this situation impacts on their aspirations and self-identity. Via an ethnographic and qualitative case study of a rural school in southwest China, the author presents the real lives of these disadvantaged children along with their challenges and needs, and provides an in-depth understanding of how being left behind impacts on their future aspirations. Building on the sociological theories of Pierre Bourdieu, the author makes an original contribution by combining seemingly incompatible disciplinary perspectives such as cultural capital from sociology, rational action from behavioral economics, and self-efficacy from psychology. Hence, the

book endeavors to transfer these Western theories to an Eastern context and demonstrates cultural nuances that are not always captured when applied in the West The book will attract academic scholars and postgraduate students in the area of socially disadvantaged children and young people as well as those who are working on youth studies and rural education

**Sustainable Development in Rural China** Bin Wu, 2004-06-02 Sustainable development in marginal areas especially in those where rural poverty and environmental degradation are interwoven is a great concern of development agencies worldwide and much effort is put into development programmes technology transfer schemes and so on The problem is particularly acute in China where increasing regional differences and inequality are eroding governmental poverty reduction efforts and exacerbating ecological crises This book based on extensive original research examines the situation in China especially in the Loess Plateau of Shaanxi Province It explores in particular how farmers have organised themselves to initiate technical innovation and considers communication networks and co operative mechanisms It discusses successful self organisation and how interfaces with external development agencies and with institutional innovation might be handled highlighting the potential of farmer innovation initiatives especially when they are linked with external development and environmental improvement programmes

The Transformation of Governance in Rural China An Chen, 2015 Explores the economic social and financial changes that have transformed China's rural governance over the past twenty years

The Industrialization of Rural China Chris Bramall, 2007 The Industrialization of Rural China highlights the economic social achievements of the Maoist regime Using a constructed dataset covering China's 2000 plus counties complemented by a detailed econometric study of county level industrialization in the provinces of Sichuan Guangdong Jiangsu the author shows that history mattered

**China's Rural Economy after WTO** Aimin Chen, 2019-05-23 China's Rural Economy after WTO discusses and analyses China's rural sector problems in detail including the areas of poverty income inequality the gender gap barriers of rural urban migration discrimination against rural workers poor rural governance and the impact of WTO membership It also tackles the important subjects of inadequate infrastructure and discriminatory credit services Strategies to modernize China's rural economy are proposed and the relevant experiences and lessons of other countries are analyzed

Organizing Rural China — Rural China Organizing Ane Bislev, Stig Thøgersen, 2012-04-05 During the early 1980s China embarked on what can be seen as one of the world's largest social experiments ever Decollectivization meant much more than the reorganization of agricultural production into family based farming It signaled significant changes to rural social relations when privatization marketization and increased geographical mobility started tearing apart the economic and social institutions that had structured collective village life under Mao The focus of this book is on how rural society has been reorganized in the 21st century The first chapters outline the basic organizational structure of rural China and can be used as an introduction to the topic in a classroom setting They show how the state and its social scientists draw up plans to overcome the perceived lack of rural social organization and discuss the often problem ridden implementation of their ideas

The second section presents case studies of institutions that organize key aspects of rural life Boarding schools where rural children learn to accept organizational hierarchies lineage organizations carving out new roles for themselves dragonhead enterprises expected to organize agricultural production and support rural development and several others The book is of theoretical interest because of its focus on the re embedding or reintegration of individuals into new types of collectivities which are less predetermined by tradition and habit and more a matter of at least perceived individual choice Most chapters are based on extensive fieldwork and contain vivid examples from daily life which will make the book attractive to anyone who wants to understand how Chinese villagers experience the extraordinary social changes they are going through

Peasants and Revolution in Rural China Chang Liu, 2007-05-14 This book explores rural political change in China from 1850 to 1949 to help us understand China's transformation from a weak decaying agrarian empire to a unified strong nation state during this period Based on local gazetteers contemporary field studies government archives personal memoirs and other primary sources it systematically compares two key macro regions of rural China the North China plain and the Yangzi delta to demonstrate the ways in which the forces of political change shaped by different local conditions operated to transform the country It shows that on the North China plain the village community composed mainly of owner cultivators was the focal point for political mobilization whilst in the Yangzi delta absentee landlordism was exploited by the state for local control and tax extraction However these both set the stage in different ways for the communist mobilization in the first half of the twentieth century Peasants and Revolution in Rural China is an important addition to the literature on the history of the Chinese Revolution and will be of interest to anyone seeking to understand the course of Chinese social and political development
