## **Rural Society In The Age Of Reason:**

**Rural Society in the Age of Reason** Chris J. Dalglish, 2006-04-11 My interest in the archaeology of the Scottish Highlands began long before I had any formal training in the subject Growing up on the eastern fringes of the southern Highlands close to Loch Lomond it was not hard to stumble across ruined buildings old field boundaries and other traces of everyday life in the past This is especially true if you spend much time as I have done climbing the nearby mountains and walking and driving through the various glens that give access into the Highlands At the time I had no real understanding of these remains simply accepting them as being built and old After studying archaeology for a few years at the University of Glasgow itself only a short commute from the area where I grew up I became acutely aware that I still had no real understanding of these familiar yet enigmatic buildings and fields This and a growing interest in Scotland's historical archaeology drove me to take several courses on the subject of rural settlement studies These courses allowed me to place what I now knew to be houses barns mills shieling transhumance settlements rig and furrow cultivation and other related remains in history Overwhelmingly they seemed to date from the period of the last 300 years I also began to understand how they all worked together as component parts of daily rural life in the past

**Rural Society in the Age of Reason** Chris J. Dalglish, 2014-01-15 **Flesh in the Age of Reason** Roy Porter, 2004 Starting with the grim Britain of the Civil War era with its punishing sense of the body as a corrupt vessel for the soul Roy Porter charts how through figures as diverse as Locke Swift Johnson and Gibbon ideas about medicine politics and religion fundamentally changed notions of self He shows how the Enlightenment with its explosion of rational thinking and scientific invention of the eighteenth and nineteenth centuries provided a lens through which we can best see the profound shift from the theocentric otherworldly Dark Ages to the modern earthly body centered world we live in today As man made in God's image gave way to the Enlightenment's notion of the Self made man the body moved center stage Porter writes brilliantly on the ways in which men and women flaunted decorated tanned and dieted themselves activities that we find familiar but that a Puritan divine would have considered satanic And he explores how at the end of the century the human soul took on a new significance in the works of Godwin Blake and Byron

Hamilton, Zheng Wang, 1992 A lucid and fascinating work about Chinese society and values Fei's account of how China differs from the West is every bit as telling now as it was when this book was first published almost half a century ago Orville Schell What are the fundamental characteristics of Chinese society and how does it differ from the West In From the

Soil China's foremost sociologist offered his insights based on fieldwork in China and residence in the West into this fascinating question Vivid and clearly written it has long been a classic of Chinese sociology widely read by Chinese It is wonderful finally to have it available in English David Arkush University of Iowa *Encyclopedia of the Enlightenment* Michel Delon, 2013-12-04 This acclaimed translation of Michel Delon's Dictionnaire Europeen des Lumieres contains more than 350 signed entries covering the art economics science history philosophy and religion of the Enlightenment Delon's team of more than 200 experts from around the world offers a unique perspective on the period providing offering not only factual information but also critical opinions that give the reader a deeper level of understanding An international team of translators editors and advisers under the auspices of the French Ministry of Culture has brought this collection of scholarship to the English speaking world for the first time The Church of England in Industrialising Society Michael Francis Snape, 2003 The Church of England in the 18th century is seen as failing its congregation in the industrialising areas specific issues are set out Was the Church of England an ailing or a healthy institution in the eighteenth century Responding to the slings and arrows of its Victorian critics ever since the publication in the 1930s of Norman Sykes Church and State in England in the Eighteenth Century modern scholarship has tended to stress the competence of the Church's leadership at a national and diocesan level and its importance and popularity for the nation at large Moreover in recent years several studies have emerged which argue a strong case for the multi faceted appeal of the Church of England at the local level However although this revisionist scholarship helps to underline the importance of religion for eighteenth century English society it fails to account for the haemorrhaging of support which the Church of England experienced in the first half of the nineteenth century With reference to the situation in England's largest parish this new study of the Church of England's fortunes in the eighteenth century demonstrates its long term failure to retain the loyalty and affections of many men and women in the country's industrialising areas In drawing attention to hitherto neglected issues such as the situation of the Church of England's non graduate clergy and the failure of its ecclesiastical courts it presents a post revisionist case which challenges the existing academic consensus on the situation and success of this faltering institution Dr M F SNAPE teaches in the Department of Theology at the University of Birmingham A Visual History of Walking Sticks and Canes Anthony Moss, 2021-10-10 A comprehensive study of walking canes from around the world dating from the distant past to the modern day The book presents a historical context on both practical and ceremonial usage At the same time specially shot pictures showcase the celebrated A D Collection of canes while enlightening prose demonstrates the cane's enduring relevance to society More than just a mobility aid the cane has held numerous offices of significance From the staff of the legendary Monkey King in the classic Chinese Journey to the West or the stylised crosiers carried by high ranking prelates from the Roman Catholic church to the truncheon wielded by Mr Punch in puppet shows canes are embedded in the culture of almost every country around the globe Roving the map with one hand and thumbing through history books with the other A Virtual
