Rushing To Armageddon The Shocking Truth About Canada Missile Defence And Star Wars:

Rushing to Armageddon Mel Hurtig, 2004 Mel Hurtig has five best sellers to his credit but this is easily his most important book Readers will be shocked to learn how both the American and Canadian governments are intentionally misleading their citizens about the Pentagon's unprecedented plans to weaponize space about the huge new Russian and Chinese nuclear missile buildup resulting from U S Star Wars plans about the destruction of vitally important long standing arms control agreements and about the rapidly increasing danger of a nuclear apocalypse Among the topics covered are why the so called U S missile defence system is really about establishing a U S first strike from space capability why both Paul Martins government and Stephen Harper's Conservatives want to join in George W Bush's dangerous program how numerous official U S documents reveal their plans to dominate space and place deadly lasers and nuclear weapons in space how today's nuclear weapons are up to 350 times more powerful than the bombs that devastated Hiroshima and Nagasaki how the missile defence plans will mean the placement of missiles on Canadian soil making Canada much less secure Hurtig provides remarkable and often devastating new information that will shock anger and appall readers This is a book that every Canadian must read before Ottawa becomes an active partner in a tragic and potentially cataclysmic blunder *Canada and Ballistic Missile Defence, 1954-2009* James G. Fergusson, 2011-01-01 Since the mid 1950s successive Canadian governments have grappled with the issue of Canada's role in US ballistic missile defence programs Until Paul Martin's government finally said no policy makers responded to US initiatives with fear and uncertainty as they endlessly debated the implications at home and abroad of participation However whether this is the end of the story remains to be seen Drawing on previously classified government documents and interviews with senior officials James Fergusson examines Canada's policy deliberations during five major US initiatives He reveals that a combination of factors such as weak leadership and a tendency to place uncertain and ill defined notions of international peace and security before national defence resulted in indecision on what role Canada would play in ballistic missile defence In effect policy makers have failed to transform debates about the issue into an opportunity to define Canada's strategic interests at home and on the world stage *Canada and Ballistic Missile Defense* is the first comprehensive account of Canada's response and indecision regarding US ballistic missile defence initiatives and the implications of this inaction *Missile Defence: Round One* Steven Staples, 2006-10-03 An insider's account of how and why Canada said no to George W Bush and why the missile defence issue won't go away In the wake of the terrorist attacks of September 11 2001 the United States embarked on a mission to resurrect the ballistic missile defence program once envisioned by Ronald Reagan known as Star Wars But when Bush turned to Canada to support the program he touched off a political firestorm This book is an account of how this issue emerged in Canada based on interviews on and off the record with cabinet ministers MPs generals and protestors It explains how an unlikely coalition of parliamentarians peace activists former diplomats experts and ordinary citizens were able to stop Canadian participation

Steven Staples one of the key organizers of the opposition to missile defence explores the public positions and private motivations that led Paul Martin to reverse his original decision to participate With round two of the missile defence debate likely to take place soon led by a Conservative defence minister who wants to reopen the issue this book is timely as well as readable

Rushing to Armageddon Mel Hurtig, 2004 Canadian nationalist Mel Hurtig exposes Paul Martin's secret commitment to George W Bush's weaponizing of space Mel Hurtig has five best sellers to his credit but this is easily his most important book Readers will be shocked to learn how both the American and Canadian governments are intentionally misleading their citizens about the Pentagon's unprecedented plans to weaponize space about the huge new Russian and Chinese nuclear missile buildup resulting from U S Star Wars plans about the destruction of vitally important long standing arms control agreements and about the rapidly increasing danger of a nuclear apocalypse Among the topics covered are why the so called U S missile defence system is really about establishing a U S first strike from space capability why both Paul Martin's government and Stephen Harper's Conservatives want to join in George W Bush's dangerous program how numerous official U S documents reveal their plans to dominate space and place deadly lasers and nuclear weapons in space how today's nuclear weapons are up to 350 times more powerful than the bombs that devastated Hiroshima and Nagasaki how the missile defence plans will mean the placement of missiles on Canadian soil making Canada much less secure Hurtig provides remarkable and often devastating new information that will shock anger and appall readers This is a book that every Canadian must read before Ottawa becomes an active partner in a tragic and potentially cataclysmic blunder

The Globalization of Addiction Bruce Alexander, 2010-03-04 Addiction is increasing all around the world and the conventional remedies don't work The Globalization of Addiction argues that the cause of this failure to control addiction is that past treatments have focused too single mindedly on the afflicted individual addict This book presents a radical rethink about the nature of addiction

The Globalization of Addiction Bruce K. Alexander, 2008-07-03 The Globalization of Addiction presents a radical rethink about the nature of addiction Scientific medicine has failed when it comes to addiction There are no reliable methods to cure it prevent it or take the pain out of it There is no durable consensus on what addiction is what causes it or what should be done about it Meanwhile it continues to increase around the world This book argues that

the cause of this failure to control addiction is that the conventional wisdom of the 19th and 20th centuries focused too single mindedly on the afflicted individual addict Although addiction obviously manifests itself in individual cases its prevalence differs dramatically between societies For example it can be quite rare in a society for centuries and then become common when a tribal culture is destroyed or a highly developed civilization collapses When addiction becomes commonplace in a society people become addicted not only to alcohol and drugs but to a thousand other destructive pursuits money power dysfunctional relationships or video games A social perspective on addiction does not deny individual differences in vulnerability to addiction but it removes them from the foreground of attention because social determinants are more powerful This book shows that the social circumstances that spread addiction in a conquered tribe or a falling civilisation are also built into today s globalizing free market society A free market society is magnificently productive but it subjects people to irresistible pressures towards individualism and competition tearing rich and poor alike from the close social and spiritual ties that normally constitute human life People adapt to their dislocation by finding the best substitutes for a sustaining social and spiritual life that they can and addiction serves this function all too well The book argues that the most effective response to a growing addiction problem is a social and political one rather than an individual one Such a solution would not put the doctors psychologists social workers policemen and priests out of work but it would incorporate their practices in a larger social project The project is to reshape society with enough force and imagination to enable people to find social integration and meaning in everyday life Then great numbers of them would not need to fill their inner void with addictions

An Army at War: Change in the Midst of Conflict (The Proceedings of the Combat Studies Institue [sic] 2005 Military History Symposium) , *America and the World: The Double Bind* Kevin P. Clements, 2017-07-05 As the world s first democracy with a written constitution and Bill of Rights the United States has stood for global aspirations toward democratic liberty equality and solidarity since its formation in 1776 However as it developed into an empire by the late nineteenth century the United States also has threatened the liberties of other peoples including Native Americans Hawaiians Latin Americans Asians and Africans The American role in world affairs has long been polarized around two conflicting images and strategies In the name of counter terrorism the Bush administration pursued a largely unilateralist policy in the Middle East and elsewhere Yet in the name of protecting its national sovereignty the United States also has rejected most of the recent multilateral treaties that strive to contain violence by fortifying the rule of international law A unilateralist strategy also goes largely against the U S postwar multilateralism which established the United Nations and its specialized agencies This volume explores these contradictions Contributors include Kevin P Clements Tom Coffman Audrey Kitagawa Jeffrey F Addicott Steven Zunes Vivien Stewart Kathy Ferguson Phyllis Turnbull Bilveer Singh Ibrahim G Aoude Richard Falk Ann Wright Beverley Kleeve Linda Groff George Kent Majid Tehranian Mohammad Ali Terrence Paupp Gillian Young Mihay Simaii and David Krieger The annual publication Peace Policy sponsored by the Toda Institute for Global Peace and Policy

Clements, In the name of counter terrorism the Bush administration pursued a largely unilateralist policy in the Middle East and elsewhere Yet in the name of protecting its national sovereignty the United States also has rejected most of the recent multilateral treaties that strive to contain violence by fortifying the rule of international law A unilateralist strategy also goes largely against the U S postwar multilateralism which established the United Nations and its specialized agencies This volume explores these contradictions BOOK JACKET *The Book Review Digest* ,2005 Peace Magazine ,2005 The Writers Directory ,2013 *Book Review Index* ,2006 Every 3rd issue is a quarterly cumulation **Misguided Missiles** Simon Rosenblum,1985-01-01 First published in 1985 Misguided Missiles examines the intense controversies surrounding Canadian participation in the development of new weapons systems during the Reagan years Simon Rosenblum demonstrated how these weapons systems were dubious even on their own terms technically economically and strategically Deploying a tremendous depth of research the author shows how Pentagon and defence industry machinations rather than security needs explain the contemporary rise of the cruise missile and Star Wars initiatives Misguided Missiles offers a vital an immediate appreciation of one of the most contentious debates in Canadian national life in the early 1980s
