Ruskins Venice The Stones Revisited:

Ruskin's Venice Sarah Quill, 2017 This title was first published in 2000 John Ruskin's three volume *The Stones of Venice* 1851-3 remains massively influential in art and architecture To mark the centenary of Ruskin's death this illustrated guide links Ruskin's descriptions of individual buildings with a photograph of the architecture and sculpture as it is today Much of Ruskin's prose is reproduced together with many of his drawings and watercolours and a number of 19th century engravings Sarah Quill's photographs identify the details described by Ruskin and show the extent to which the city's architecture has survived or changed since first publication of *The Stones of Venice* The opening chapter provides an introduction to Ruskin's involvement with Venice and to the periods and styles of Venetian architecture Provided by publisher [Ruskin's Venice](#), 2000

Ruskin's Venice John Ruskin, Sarah Quill, 2015 Photographer Sarah Quill has selected passages from Ruskin's *The Stones of Venice* and has linked them to her own photographs of Venetian architecture so creating a fascinating guide that fuses Ruskin's vision of the city with images of the present day [Venice and the Cultural Imagination](#) Michael O'Neill, Mark Sandy, Sarah Wootton, 2015-10-06 In the era of the Grand Tour Venice was the cultural jewel in the crown of Europe and the epitome of decadence This edited collection of eleven essays draws on a range of disciplines and approaches to ask how Venice's appeal has affected Western culture since 1800

Building Ruskin's Italy Stephen Kite, 2017-07-05 Based on extensive fieldwork and research into John Ruskin's still little interpreted archival material notebooks and drawings in the Ruskin Library Lancaster University UK and elsewhere Stephen Kite offers an unprecedented account of the evolution of Ruskin's architectural thinking and observation in the context of Italy where his watching of building achieved its greatest intensity Venice naturally figures large in a work that also examines other key sites including Verona Lucca Pisa Florence Milan and Monza here the fabrics are vividly read in their contexts against the rich evidence of Ruskin's diaries his pocket book sketches architectural worksheets drawings and daguerrotypes the early form of photography and the drafts and published editions of the texts Kite presents the complex story of Ruskin's visual thinking in architecture as a narrative of deepening interpretation and representation focusing on the humbler monuments of Italy He shows how Ruskin's early picturesque naturalism was transformed by the realisation that to understand the built realities confronting him in Italy demanded a closer engagement with the substance of the stones themselves reflecting Ruskin's sense of his task as a near archaeological gleaning and gathering of remains hidden in many a grass grown court and silent pathway and lightless canal

The Last Pre-Raphaelite Fiona MacCarthy, 2012-02-29 In Fiona MacCarthy's riveting account Burne Jones's exchange of faith for art places him at the intersection of the nineteenth century and the Modern as he leads us forward from Victorian mores and attitudes to the psychological sexual and artistic audacity that would characterize the early twentieth century

Killing the Moonlight Jennifer Scappettone, 2014-11-25 As a city that seems to float between Europe and Asia removed by a lagoon from the tempos of terra firma Venice has long seduced the Western imagination Since the 1797 fall of the

Venetian Republic fantasies about the sinking city have engendered an elaborate series of romantic clichés provoking conflicting responses some modern artists and intellectuals embrace the resistance to modernity manifest in Venice's labyrinthine premodern form and temporality whereas others aspire to modernize by killing the moonlight of Venice in the Futurists notorious phrase Spanning the history of literature art and architecture from John Ruskin Henry James and Ezra Pound to Manfredo Tafuri Italo Calvino Jeanette Winterson and Robert Coover *Killing the Moonlight* tracks the pressures that modernity has placed on the legacy of romantic Venice and the distinctive strains of aesthetic invention that resulted from the clash In Venetian incarnations of modernism the anachronistic urban fabric and vestigial sentiment that both the nation state of Italy and the historical avant garde would cast off become incompletely assimilated parts of the new *Killing the Moonlight* brings Venice into the geography of modernity as a living city rather than a metaphor for death and presents the archipelago as a crucible for those seeking to define and transgress the conceptual limits of modernism In strategic detours from the capitals of modernity the book redrafts the confines of modernist culture in both geographical and historical terms

John Ruskin, J.M.W. Turner and the Art of Water Carmen Casaloggi, 2022-12-20 This book assesses Ruskin's and Turner's mutual interest in the theme of water with particular reference to *The Harbours of England* 1856 Ruskin's book on ships and marine art to which are appended Turner's 12 illustrations of the English ports By considering existing scholarly works on Ruskin and Turner the book begins by demonstrating that the two despite their widely acknowledged relations have rarely been examined in conjunction It raises the question as to how the subject of water inspired the intellectual aesthetic philosophical and scientific climate of the nineteenth century both in Britain and abroad and acknowledges the significance of the relationship between Ruskin and Turner in the context of aquatic studies Ruskin's childhood fascination with water is examined in detail while the scientific and spiritual importance of the subject in *Modern Painters* and *The Stones of Venice* is also emphasised and read in parallel with *The Harbours of England* a detailed account of which is given referring to both text and illustrations Turner's role in Ruskin's understanding of specific water pictures is also reconstructed The book demonstrates that water is important as a multifaceted compendium of contemporary themes for tradition progress nationalism and patriotism find their iconography in its depiction Considering the literary and painterly implications of wateriness the text concludes with a reflection upon the significance of the study of water for Ruskin and Turner and for their age

John Ruskin and the Fabric of Architecture Anuradha Chatterjee, 2017-10-02 Through the theoretical lenses of dress studies gender science and visual studies this volume analyses the impact John Ruskin has had on architecture throughout the nineteenth and twentieth centuries It explores Ruskin's different ideologies such as the adorned wall veil which were instrumental in bringing focus to structures that were previously unconsidered John Ruskin and the Fabric of Architecture examines the ways in which Ruskin perceives the evolution of architecture through the idea that architecture is surface The creative act in architecture analogous to the divine act of creation was viewed as a form of dressing By adding highly aesthetic features to designs taking inspiration from the veil of women's clothing Ruskin believed that buildings could be transformed into meaningful architecture This volume discusses the importance of Ruskin's surface theory and the myth of feminine

architecture and additionally presents a competing theory of textile analogy in architecture based on morality and gender to counter Gottfried Semper's historicist perspective. This book would be beneficial to students and academics of architectural history and theory, gender studies and visual studies who wish to delve into Ruskin's theories and to further understand his capacity for thinking beyond the historical methods. The book will also be of interest to architectural practitioners, particularly Ruskin's theory of surface architecture. *The Cambridge Companion to John Ruskin* Francis O'Gorman, 2015-10-26.
