Kells, 2023-02-07 Australia's oldest university press is also one of our best known and most trusted publishers Founded in 1921 as a bookshop for students at the University of Melbourne Melbourne University Press was soon publishing important works that contained the best of national scholarship Landmark MUP books and series include The Australian Dictionary of Biography Manning Clark's History of Australia The Encyclopaedia of New Guinea and the journal Meanjin These and other MUP publications helped shape how Australians perceived themselves and how they talked about literature politics race the Pacific the world wars and public policy From its inception MUP grappled with hard questions How should a university press be governed To what extent should such a press be concerned with political polemical and radical works And can a university

press be financially self sustaining if it focuses on books that commercial publishers overlook The respective leaders of MUP answered these questions in ways that regularly led the press into controversy Using a century of MUP publications and archives Stuart Kells has written a rich and fascinating history of an invaluable Australian institution one that is widely seen as public property and whose ups and downs have always been news

Cubism & Australian Art Lesley Harding, Sue Cramer, 2009 Cubism was a movement that changed fundamentally the course of twentieth century art It had far reaching effects both conceptual and stylistic which are still being felt today Described in 1912 by French poet and commentator Guillaume Apollinaire as not an art of imitation but an art of conception Cubism irreversibly altered art's relationship to visual reality I paint things as I think them not as I see them Picasso said Cubism and Australian Art examines for the first time the impact of this transformative art movement on the work of Australian artists from the early 1920s to the present day The authors argue that by its very nature Cubism was characterised by variation and change that the idea of a pure or original Cubism was short lived and that its appearance in Australian art parallels its uptake and re interpretation by artists internationally In the words of French artist Andr   Lhote mentor to several Australians who studied at his Academy in Paris There are a thousand definitions of Cubism because there are a thousand painters practising it More than eighty international and Australian artists are showcased with over 300 works featuring Sam Atyeo Ralph Balson Grace Crowley Frank Hinder Roger Kemp Godfrey Miller Stephen Bram and Daniel Crooks as well as Pablo Picasso Georges Braque and Fernand L  ger

Vandemonians Janet McCalman, 2021-09-28 It was meant to be Victoria the Free uncontaminated by the Convict Stain Yet they came in their tens of thousands as soon as they were cut free or able to bolt

More than half of all those transported to Van Diemen's Land as convicts would one day settle or spend time in Victoria. There they were demonised as Vandemonians. Some could never go straight; a few were the luckiest of gold diggers; a handful founded families with distinguished descendants. Most slipped into obscurity. Burdened by their pasts and their shame, their lives as free men and women, even within their own families, were forever shrouded in secrets and lies. Only now are we discovering their stories and Victoria's place in the nation's convict history. As Janet McCalman examines this transported population of men, women and children from the cradle to the grave, we can see them not just as prisoners but as children, young people, workers, mothers, fathers and colonists. From the author of *Struggletown* and *Journeys*, this rich study of the lives of unwilling colonisers is an original and confronting new history of our convict past, the repressed history of colonial Victoria.

H.M. Bark Endeavour: Updated Edition Ray Parkin, 2020-05-19. Here in one accessible volume is Ray Parkin's highly acclaimed and multi-award-winning study of Captain James Cook's Endeavour. This incomparable book is a unique account of a great journey: Endeavour's voyage up the east coast of Australia in 1770 and a remarkable re-creation of the experience of being on board ship. Parkin draws on meticulous research to reveal what the Endeavour looked like, how it sailed, how it smelled, what daily life would have been like for those on board. How many strands of yarn were in the ship's cable? 954. Did the ship have a lightning conductor? Yes. What was the diameter of her main mast? 21 inches. These details are illustrated by plans and figures depicting the ship's architecture and construction, its deck plan, rigging, sails, armament, boats, cables, anchors and accommodation, all beautifully drawn by Parkin. A composite log of Endeavour's voyage, extracts from journals kept by those on board, is supplemented by an interpretive commentary and explanatory charts. *H.M. Bark Endeavour* is an absorbing book, discursive, erudite at times, poetic, full of wisdom, insight and information.

Colonial Kangaroo Hunt Ken Gelder, Rachael Weaver, 2020-03-03. From the arrival of Captain James Cook in 1770 to classic children's tale *Dot and the Kangaroo*, Ken Gelder and Rachael Weaver examine hunting narratives in novels, visual art and memoirs to discover how the kangaroo became a favourite quarry, a relished food source, an object of scientific fascination and a source of violent conflict between settlers and Aboriginal people. The kangaroo hunt worked as a rite of passage and an expression of settler domination over native species and land. But it also enabled settlers to begin to comprehend the complexity of bush ecology, raising early concerns about species extinction and the need for conservation and the preservation of habitat.

Cannon Fire Michael Cannon, 2022-11-01. Michael Cannon is best known as the author of landmark and popular works of Australian history, including *The Land Boomers* (1966) and as the founding editor of *Historical Records of Victoria*. But Cannon, the child and grandchild of important figures in Australian independent journalism, developed a fascination with print media early in his life and had a long and colourful career in printing, publishing and editing books, newspapers and magazines. In *Cannon Fire*, he brings to life many notable personalities with whom he worked, including Keith and Rupert Murdoch, and recreates the ink-stained, cigarette smoke-filled and always well-lubricated worlds of publishing across Melbourne and Sydney in the

second half of the twentieth century More than this Cannon s intimate account of a life that began in the 1920s fascinates as both a personal story of unusual courage in the face of challenge and heartache and as a tale of times now passing from memory
