Whitaker's Books in Print ,1998 **Rewriting History in Soviet Russia** R. Markwick,2001-02-01 This book explores the political significance of the development of historical revisionism in the USSR under Khrushchev in the wake of the Twentieth Congress of the CPSU and its demise with the onset of the period of stagnation under Brezhnev On the basis of intensive interviews and original manuscript material the book demonstrates that the vigorous rejuvenation of historiography undertaken by Soviet historians in the 1960s conceptually cleared the way for and fomented the dramatic upheaval in Soviet historical writing occasioned by the advent of perestroika **East European Accessions Index** ,1957 **Monthly List of Russian Accessions** ,1957 *The Routledge Atlas of Russian History* Martin Gilbert,2013-04-03 The complex and often turbulent history of Russia over the course of 2 000 years is brought to life in a series of 176 maps by one of the most prolific and successful historian authors today This fourth edition of The Routledge Atlas of Russian History covers not only the wars and expansion of Russia but also a wealth of less conspicuous details of its history from famine and anarchism to the growth of naval strength and the strengths of the river systems From 800 BC to the fall of the Soviet Union this indispensable guide to Russian history covers war and conflict from the triumph of the Goths between 200 and 400 BC to the defeat of Germany at the end of the Second World War and the end of the Cold War politics from the rise of Moscow in the Middle Ages to revolution the fall of the monarchy and the collapse of communism industry economics and transport from the Trans Siberian Railway between 1891 and 1917 to the Virgin Lands Campaign and the growth of heavy industry society trade and culture from the growth of monasticism to peasant discontent Labour Camps and the geographical distribution of ethnic Russians Now bringing new material to view and including seven new maps this popular atlas will more than readily gain a place on the bookshelves of anyone interested in the history of Russia **Monthly List of Russian Accessions** Library of Congress. Monthly Index of Russian Accessions ,1959 *Monthly Index of Russian Accessions* Library of Congress. Processing Department,1959 Revolution and Reform in Russia and Iran Ghoncheh Tazmini,2012-03-30 The Russian Revolutions of 1917 and the Iranian Revolution of 1979 are two examples of dramatic sudden and extraordinary political upheaval that significantly altered the nature of the state and society in the modern age Here Ghoncheh Tazmini provides an unprecedented comparative study of these two major revolutions of the twentieth century which although removed from each other both spatially and temporally have striking similarities Examining the roots events and impact of these two defining upheavals Tazmini analyses how they resemble each other stressing the continuity of the dilemma of modernisation for the Romanov Pahlavi Communist and Islamist rulers alike This book is a significant contribution to both historical and contemporary debates concerning Russian and Iranian politics and to the discourse on the origins and consequences of modernisation and revolution themselves **Foreign Social Science Bibliographies** United States. Census,1965 The Russian Revolution, 1917 Rex A. Wade,2017-01-16 Rex A Wade presents an essential overview of the Russian Revolution from its beginning in February 1917 through the numerous political crises under Kerensky to the victory of Lenin and the Bolsheviks in the October Revolution This thoroughly revised and expanded third edition introduces students to new approaches to the Revolution s political history and clears away many of the myths and misconceptions that have clouded studies of the period It also gives due space to the social history of the Revolution incorporating people and places too often left out of the story including women national minority peoples peasantry and front soldiers The third edition has been updated to include new scholarship on topics such as the coming of the Revolution and the beginning of Bolshevik rule as well as the Revolution s cultural context This highly readable book is an invaluable guide to one of the most important events of modern history *Imaginary Futures* Richard Barbrook,2007-04-20 This book is a history of the future It shows how our contemporary understanding of the Internet is shaped by visions of the future that were put together in the 1950s and 1960s At the height of the Cold War the Americans invented the only working model of communism in human history the Internet Yet for all of its libertarian potential the goal of this hi tech project was geopolitical dominance the ownership of time was control over the destiny of humanity The potentially subversive theory of cybernetics was transformed into the military friendly project of artificial intelligence Capitalist growth became the fastest route to the information society The rest of the world was expected to follow America s path into the networked future Today we re still being told that the Internet is creating the information society and that America today is everywhere else tomorrow Thankfully at the beginning of the twenty first century the DIY ethic of the Internet shows that people can resist these authoritarian prophecies by shaping information technologies in their own interest Ultimately if we don t want the future to be what it used to be we must invent our own improved and truly revolutionary future Education in the U.S.S.R. Nellie Mary Apanasewicz,1974 The American Slavic and East European Review ,1956 Bibliography of the History of Medicine ,1980 The Russian Revolution and Civil War 1917-1921 Jonathan Smele,2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state **The Waning of the West: an Inconvenient Truism** Peter J. Sandys,2019-02-18 The Waning of the West An Inconvenient Truism offers a comprehensive geopolitical and philosophical commentary on global politics following the Cold War Author Peter J Sandys

presents a series of extensive analyses on social and political movements and what kinds of challenges face the West in the twenty first century Sandys gives what he describes as a politically incorrect examination of political philosophy and the socialist transformation of the West He s critical of the present Western political arrangement and after analyzing the different systems offers recommendations as to the methods of solving the readily apparent impasse Topics include the screenplay of the Velvet Revolution European federalism under German leadership Russia s newly found old identity a critique of democracy a critique of socialism a critique of modern conservatism and deteriorating social values The Waning of the West An Inconvenient Truism delivers Sandys thoughts on the rejection of liberal democracy and the condemnation of the Western elite It goes on to outline a new system termed the essential option that has the manners values and qualities associated with meritorious aristocracy and is intended to gently steer Western culture and politics onto a more sustainable course

History of the Caucasus Christoph Baumer,2023-10-05 In the Shadow of Great Powers is the second volume of Christoph Baumer s *History of the Caucasus* It covers the period from the Seljuk domination of the Southern Caucasus around 1050 CE to the present day After the Kingdom of Georgia s golden age of independent power and cultural blossoming in the 12th and early 13th centuries the Caucasus was overrun by the Mongols and soon disintegrated into innumerable smaller kingdoms principalities and khanates At the same time an Armenian kingdom in exile maintained a precarious independence in Cilicia today s southern Turkey by applying a three way diplomatic policy balanced between the Mongol Il Khanate the Crusader states and to a lesser degree the Mameluke Empire Then followed four centuries during which the highly fragmented polities of the North and South Caucasus became political pawns of the regional great powers above all the Ottomans Iran and Russia In the wake of World War I the South Caucasus enjoyed a short lived independence whereas its northern neighbours were engulfed by the Russian civil wars But by 1921 the Soviet Union had re established Russian dominance over the whole region and from a Western perspective the region disappeared behind the Iron Curtain Nevertheless the Caucasian nations kept their pronounced identities even under Soviet rule giving rise at the dissolution of the Soviet Union to a number of internecine conflicts Whereas the Russian Federation managed to maintain its supremacy over the North Caucasus albeit at the cost of bloody wars and insurrections Armenia Azerbaijan and Georgia succeeded in more or less gaining control over their destiny Of these three republics only Azerbaijan secured a wide ranging independence thanks to its fossil fuel resources Following Russian interference Georgia lost control over two of its provinces while Armenia remains dependent on Russian support in the face of its notoriously antagonistic relations with neighbouring Azerbaijan and Turkey over the unresolved issue of Karabakh In the Shadow of Great Powers includes some 200 full colour images and maps which further bring the turbulent history of this region to light
