Phelpstead, 2020-06-17 Combining an accessible approach with innovative scholarship Carl Phelpstead draws on historical context contemporary theory and close reading to deepen our understanding of Icelandic saga narratives about the island s early history The Art of Love Poetry Erik Gray, 2017-12-29 Love begets poetry poetry begets love So thinkers from Plato onwards have claimed and even today when poetry has largely disappeared from the mainstream of popular culture it is still commonly considered the most seductive of all forms of art But why should this be What are the connections between poetry and love that lead us to associate them so strongly with one another In this study Erik Gray draws on a broad range of Western thought and poetry to reveal the qualities and structures that love and poetry share Above all he argues both are founded on paradox Love is at once necessarily public because interpersonal and intensely private hence love both requires expression and resists it Likewise the experience of love is simultaneously surprising and familiar singular and conventional In poetry especially lyric poetry which is similarly both dependent on and resistant to language both exceptionally regular and exceptionally irregular love finds a natural outlet The Art of Love Poetry illuminates many of the recurrent tropes that poets across the centuries have employed to represent and express love exploring such topics as the poetic kiss the lyric of conjugal love and the role of animals in love poetry In describing the inherent erotics of poetry it offers new insights not only into the long tradition of love lyric but into the nature of love itself **Reading Shakespeare's Poetry** Dympna

**The Life and Poetry of Frank Stanford** James McWilliams, 2025-07-01 The full throated biography fans have been yearning for Kirkus Starred Review April 2025 When twenty nine year old Frank Stanford put three bullets in his chest on June 3 1978 he ended a life that had been inextricably linked with poetry since childhood Deeply influential but largely unknown outside his corner of the poetry world this prodigy of the American South inspired a cult following that has kept his reputation and work flickering on the periphery of the American literary tradition ever since The Life and Poetry of Frank Stanford offers for the first time a comprehensive study of Stanford s life and work introducing to a broad readership poetry that remains both captivating to poets and in its celebration of everyday experience over academic erudition accessible to those who rarely read poetry Stanford s poems range from one line to his 15 283 line epic The Battlefield Where the Moon Says I Love You The vital thread running through all of his poetry is an ear for language that vies with Walt Whitman in its expansiveness and generosity Stanford s omnivorous attraction to vernacular particularly Black and rural vernacular centered on an admiration for the marginalized and eccentric Blending the Southern Gothic of Faulkner and O Connor with a racially egalitarian vision his poetry thrives on the stories and traditions of the oppressed and forgotten The themes that preoccupied Stanford s prolific output language sex death class geography commercialism surrealism film race also preoccupied the poet in his daily life which was marked by heavy drinking philandering mental instability emotional abuse and through it all an inveterate desire for beauty Constantly attentive to this tension biographer James McWilliams traces the short and painfully complicated life of this hidden talent who left a lifetime s worth of poetry that through its grounding in the mundane achieved a vision of the transcendent

Imagining the Chorus in Augustan Poetry Lauren Curtis, 2017-09-14 From archaic Sparta to classical Athens the chorus was a pervasive feature of Greek social and cultural

life Until now however its reception in Roman literature and culture has been little appreciated This book examines how the chorus is reimagined in a brief but crucial period in the history of Latin literature the early Augustan period from 30 to 10 BCE It argues that in the work of Horace Virgil and Propertius the language and imagery of the chorus articulate some of their most pressing concerns surrounding social and literary belonging in a rapidly changing Roman world By re examining seminal Roman texts such as Horace s Odes and Virgil s Aeneid from this fresh perspective the book connects the history of musical culture with Augustan poetry s interrogation of fundamental questions surrounding the relationship between individual and community poet and audience performance and writing Greek and Roman and tradition and innovation

**On Shakespeare in Sonnets** E. L. Ridsen, 2017-06-23 Reader Response Theory began to take hold in the 1960s Much like the phenomenological approach to criticism that preceded it it allows both reader and author intentionality and conscious presence and it gives the reader particular presence in the fulfillment or completion of the text The work of art mediates between author and reader and the reader participates in an interpretive community that gives the work life and liveliness This book is divided into three sections Part I discusses the history and practice of Reader Response criticism Part II comprises a collection of thirty eight sonnets responding both critically and creatively to Shakespeare s works and Part III discusses the poems of Part II as both creative and critical acts elaborating on what they aim to show about the plays and how Shakespeare s plays continue to encourage varied analytical and personal response As shown here the creative and the critical need not be separate exclusive acts each invades the other

Arthur

O'Shaughnessy, A Pre-Raphaelite Poet in the British Museum Jordan Kistler, 2016-02-26 Arthur O'Shaughnessy's career as a natural historian in the British Museum and his consequent preoccupation with the role of work in his life provides the context with which to reexamine his contributions to Victorian poetry O'Shaughnessy's engagement with aestheticism, socialism, and Darwinian theory can be traced to his career as a Junior Assistant at the British Museum and his perception of the burden of having to earn a living outside of art Making use of extensive archival research, Jordan Kistler demonstrates that far from being merely a minor poet, O'Shaughnessy was at the forefront of later Victorian avant-garde poetry Her analyses of published and unpublished writings, including correspondence, poetic manuscripts, and scientific notebooks, demonstrate O'Shaughnessy's importance to the cultural milieu of the 1870s, particularly his contributions to English aestheticism, his role in the importation of decadence from France, and his unique position within contemporary debates on science and literature

*Poems of My Way* 101 Richard L. Gorrell, 2018-12-21 Different meanings all combined in nine months of rapid writing along with fortunate joyful and restful writing sessions of mine From the month of August 1994 to the month of May 1995 birthed the nine-month creation of my life's efforts A lot came to me Others just popped into my head I just had to write and type to keep up It was a glorious nine-month period Almost like water rapids It could be calm or rough waters What a great undoing and collecting of time Back to a time that was somehow lost You could say this was my inner self being let out from being cooped up for so long to get out of the cocoon

Bedouin and 'Abbāsid Cultural Identities Ruqayya Yasmine Khan, 2019-10-18 This literary historical book draws out and sheds light upon the mechanisms of the ideological work that the Arabic Majnūn Layl story performed for Abbāsid urbanite imperial audiences in the wake of the disappearance of the Bedouin cosmos The study focuses upon the processes of primitivizing Majnūn in the romance of Majnūn Layl as part of the paradigm shift that occurred in the Abbāsid empire after the Greco-Arabian intellectual revolution Moreover, this book demonstrates how gender and sexuality are employed in the processes of primitivizing Majnūn As markers of strangeness and foreignness in the Abbāsid interrogations of the multiple categories of ethnicity, culture, identity, religion, and language present in their cosmopolitan milieus Such cultural work is performed through the ideological uses of alterity given its mechanisms of distancing, e.g. temporal and spatial, and nearness, e.g. affective Lastly, the Majnūn Layl love story demonstrates in its text and reception that a Greco-Arabian and Greco-Persian subculture thrived in the centers of Abbāsid Baghdad that molded and shaped the ways in which this love story was compiled, received, and performed Offering a corrective to the prevailing views expressed in Western scholarly writings on the Greco-Arabian encounter, this book is a major contribution to scholars and students interested in Islamic studies, Arabic and comparative literature, Middle East and gender studies
