*Hegel on the Proofs and the Personhood of God* Robert R. Williams, 2017-01-19 Hegel's analysis of his culture identifies nihilistic tendencies in modernity i.e. the death of God and end of philosophy. Philosophy and religion have both become hollowed out to such an extent that traditional disputes between faith and reason become impossible because neither any longer possesses any content about which there could be any dispute. This is nihilism. Hegel responds to this situation with a renewal of the ontological argument, Logic and ontotheology, which takes the form of philosophical trinitarianism. Hegel on the Proofs and the Personhood of God examines Hegel's recasting of the theological proofs as the elevation of spirit to God and defense of their content against the criticisms of Kant and Jacobi. It also considers the issue of divine personhood in the Logic and Philosophy of Religion. This issue reflects Hegel's antiformalism that seeks to win back determinate content for truth, Logic and the concept of God. While the personhood of God was the issue that divided the Hegelian school into left wing and right wing factions, both sides fail as interpretations. The center Hegelian view is both virtually unknown and the most faithful to Hegel's project. What ties the two parts of the book together is Hegel's philosophical trinitarianism or identity as unity in and through difference, Logic and his theological trinitarianism or incarnation, trinity, reconciliation and community. Philosophy of Religion is Hegel's Logic of the Concept. Hegel's metaphysical view of personhood is identified with the singularity, *Einzelheit*, of the concept. This includes as its speculative nucleus the concept of the true infinite, the unity in difference of infinite, finite, thought and being, divine, human, unity, incarnation and trinity, God as spirit in his community.

**Tragedy, Recognition, and the Death of God** Robert R. Williams, 2012-09-27 Hegel and Nietzsche are two of the most important figures in philosophy and religion. Robert R. Williams challenges the view that they are mutually exclusive. He identifies four areas of convergence. First, Hegel and Nietzsche express and define modern interest in tragedy as a philosophical topic. Each seeks to correct the traditional philosophical and theological suppression of a tragic view of existence. This suppression of the tragic is required by the moral vision of the world, both in the tradition and in Kant's practical philosophy and its postulates. For both Hegel and Nietzsche, the moral vision of the world is a projection of spurious life, negating values that Nietzsche calls the ascetic ideal and that Hegel identifies as the spurious infinite. The moral God is the enforcer of morality. Second, while acknowledging a tragic dimension of existence, Hegel and Nietzsche nevertheless affirm that existence is good in spite of suffering. Both affirm a vision of human freedom as open to otherness and requiring recognition and community. Struggle and contestation have affirmative significance for both. Third, while the moral God is dead, this does not put an end to the God question. Theology must incorporate the death of God as its own theme. The union of God and death, expressing divine love, is for Hegel the basic speculative intuition. This implies a dipolar panentheistic concept of a tragic suffering God who risks loves and reconciles. Fourth, Williams argues that both Hegel and Nietzsche pursue theodicy not as a justification of the moral God but rather as a question of the meaningfulness and goodness of existence.

despite nihilism and despite tragic conflict and suffering The inseparability of divine love and anguish means that reconciliation is no conflict free harmony but includes a paradoxical tragic dissonance reconciliation is a disquieted bliss in disaster

**The Compassion Project** Julian Abel, Lindsay Clarke, 2020-06-25 A wonderful book Dr Rangan Chatterjee Highly convincing Daily Express Pioneering The Telegraph The strength of the book lies in its description of how community life can have a transformative effect on individuals British Journal of General Practice Across the country general hospital admissions are on the rise But in a small town in rural England thanks to the simple introduction of kindness and compassion that trend has been reversed And what this town achieved we can all adopt in our own lives to powerful effect Through daily mindful acts of care we are capable of changing things for the better both inside ourselves and for the world around us Frome in Somerset isn't special It could be any town it could be your town And yet the people who live there have a story to tell about the simple ground shaking power of compassion If it came in tablet form it would be hailed as a wonder of modern medicine By contrast it's entirely free but offers heartening evidence that when human beings make time for each other the beneficial effects go far beyond the reach of naive optimism A culture in which compassion is a prevailing value allows individuals to flourish and bring their talents and gifts to the communities in which they live Unanticipated possibilities emerge presenting fresh ways of addressing what previously appeared to be insoluble problems Hearts are lifted The case for hope is more strongly made And as the people who work in this way begin to change the world immediately around them so too the wider world beyond begins to change Dr Julian Abel Lindsay Clarke
