## Meaning Of Infant Teachers Work:

The Meaning of Infant Teachers' Work Linda Evans, Angie Packwood, S.R. St. J. Neill, R.J. Campbell, 2005-09-26 Examines the effects of curriculum changes on teachers of the early years giving the views and perceptions of thirty infant teachers

*The Meaning of Infant Teachers' Work* Linda Evans, 1994 Examines the effects of curriculum changes on teachers of the early years giving the views and perceptions of thirty infant teachers      Teachers Matter: Connecting Work, Lives And Effectiveness Day, Christopher, Sammons, Pam, Stobart, Gordon, 2007-03-01 Based on a DfES funded study of 300 teachers in 100 primary and secondary schools in England the authors identify different patterns of influence and effect between groups of teachers which provide powerful evidence of the complexities of teachers work lives identity and commitment in relation to their sense of agency well being resilience and pupil attitudes and attainment This in turn provides a clear message for teachers teachers associations school leaders and policy makers internationally in understanding and supporting the need to build and sustain school and classroom effectiveness      **Primary Teachers at Work** Jim Campbell, S. R. St. J.

Neill, 2002-01-04 The first part of this book charts and analyses the working days of 326 primary school teachers It shows how they spent their working lives the nature of the curriculum they taught and analyses their work into five main categories Teaching Preparation Administration Professional Development and Other Activities The second part comments on the findings by relating them to issues of school management and curriculum manageability and looks at how the idea of conscientiousness among primary school teachers may have led to their exploitation      **Teaching: Professionalisation,**

**Development and Leadership** David Johnson, Rupert Maclean, 2008-06-04 Harry Judge It is doubly fortunate that a foreword is not an introduction Since it is mercifully brief it should not be expected to mention respectfully each of the distinguished contributions which constitute the word before which it modestly stands as herald For the same reason it cannot be expected to constrain within one overarching framework contributions which are essentially varied in subject matter and method The brief of a foreword writer might indeed be compared to that of a musician commissioned to write an overture to an opera which he had not written To write such a piece for a volume devoted to Eric Hoyle is nevertheless a privilege as well as a pleasure Partly of course because this volume celebrates a long and distinguished career devoted to the application of intelligence and less assertively theory to the improvement of practice And partly because this abbreviated overture is privileged by being placed before a set of virtuoso performances throughout which consistent and coherent themes do insistently resonate Those themes are the very same that distinguish Eric Hoyle's own work      Testing Teachers

Bob Jeffrey, Peter Woods, 2005-08-16 OFSTED inspections are often the most challenging searching uncompromising and stressful events teachers have to experience This text looks at what effects the inspections have on teachers and their work on their self and role      *Education 3-13* Mark Brundrett, 2013 There is a growing interest internationally in research that helps us to understand the best ways to help young children engage with the curriculum in order that they may have the best

possible life chances This text helps to address these issues and consists of seminal articles derived from the forty year history of the journal *Education* 3 13 *Restructuring Schools, Reconstructing Teachers* Peter Woods,Bob Jeffrey,Geoff Troman,Mari Boyle,2019-07-01 Drawing on wide ranging research this book originally published in 1997 explores how the policy changes of previous years were affecting primary teachers and their work at the time Within the context of worldwide restructuring the thoughts feelings and activities of teachers in their daily work are examined The core argument is that what used to be a complex but fulfilling job distinguished by professional dilemmas which are amenable to professional skill had become increasingly marked by tension and constraint which frustrates teacher creativity While some teachers found new opportunities in the new primary school many used strategical and micro political activity in order to cope while others fell victim to stress and burnout The authors argue that teachers own active involvement in policy change is required if their creative potential is to be realized The book will still be of interest to teachers in primary schools researchers and policy makers **Primary Teachers' Stress** Geoff Troman,Peter Woods,2001 The findings inform policy recommendations aimed at preventing at source occupational stress in teaching and other caring professions as well as offering advice to individuals suffering from stress Jacket **Teaching and Learning with Infants and Toddlers** Mary Jane Maguire-Fong,2020 Maguire Fong has updated her groundbreaking book designed to assist pre and inservice professionals working with infants and their families Each chapter draws from research and real life infant care settings to provide valuable insights into how to design an infant care program plan curriculum assess learning and work with families English in Urban Classrooms Gunther R. Kress,2005 This ground breaking text spans a range of issues central to school English It extends not only to the spoken and written language of classrooms but also to other important modes of representation and communication

**INSET For NQTs** Neil Kitson,2013-07-04 An independent study workbook designed for newly qualified teachers NQTs This text will lead the teacher through a range of activities which have been designed to help them to get to know and understand all the important school systems the children and themselves as teachers The materials can be used throughout the first and or second years of teaching Versions of Primary Education Robin Alexander,2013-04-15 Getting to the heart of primary education six contrasting studies of teachers teaching learning and classroom discourse all set in a historical frame Contains extended lesson transcripts for re analysis The five studies in this book span the tumultuous period from the mid 1980s to the mid 1990s This was a time when the dominant educational ideas and practices of the previous two decades were being questioned and primary teachers were being catapulted from the Plowden era into the very different ethos of the National Curriculum The first four studies portray the ideas practices and dilemmas of primary teaching at different points during this period They also exemplify different approaches to classroom research though all of them stay close to the interactions between teacher and child which are central to learning They thus raise educational questions which are perennial and fundamental rather than tied to policy or fashion The final study uses a broader brush to provide a historical

framework for understanding the particular blend of change and continuity which characterises English primary education as a whole

*Reflective Practice in Educational Research* Linda Evans, 2002-07-01 Have you ever found that your initial research training if indeed you received one has proved not entirely adequate Has you ever found research more complex or intractable than expected If so this book is for you Drawing on examples from her own research and others Linda Evans shows how as reflective practioners researchers as can develop more advanced methods and understandings

Cummings, 2015-06-05 This book focuses on the changes in academic careers and their implications for job attachment and the management of academic work Against the background of an ageing profession with different demands on academic staff increasing insecurity accountability and internationalisation it discusses important common themes in detail This book examines such aspects as the nature of academic careers and recent changes in careers changing biographies rewards of academic work such as income and job satisfaction internationalisation of the academy and the organisation and management of academic work sites This book is the second of two books highlighting findings from research on the academic profession notably the Changing Academic Profession Study and the European project supported by the European Science Foundation on changes in the academic profession in Europe EUROAC An adapted version of the CAP questionnaire has been used to carry out the survey in those countries that had not been involved before in the CAP survey Altogether 19 countries are covered by the CAP project and an additional seven European countries are covered by EUROAC

**Managing to Motivate** Linda Evans, 2010-07-15 Anyone who has spent time in education knows that teachers achieve more when they feel better motivated The media policy makers teachers unions and a multitude of others have opinions on how leaders should motivate staff but what really works In this timely and constructive book Linda Evans draws from a wealth of evidence and experience to answer this question She shares examples drawn from a range of educational settings from schools for young children to colleges for older students and shows the contrast between successful and unsuccessful management of teachers motivation

**Understanding and Preventing Teacher Burnout** Roland Vandenberghe, A. Michael Huberman, 1999-05-28 International specialists review research in the field of career burnout in this 2009 volume

**Managing People in Education** Tony Bush, David Middlewood, 1997-02-28 Aims to enhance management practice in education by presenting research findings and theory from a wide range of contributors Skills and Enterprise Update This is indeed a book which could be useful to a much larger readership than the normal closed circle of those working in education Managing Schools Today The book presents relevant research and theory in order to enhance management practice in education The editors intention is to articulate good practice on the basis of evidence in educational settings The ideas presented here are derived from international research and practice and apply to all phases of education with the emphasis on applying research findings to improve practice in schools and colleges

Mathematics Teaching in the Early Years Carol Aubrey, 2013-04-03 Young children start school

already able to do a surprising amount of mathematics This book examines the nature and origin of subject knowledge and is based on information gathered from observing the interactions between teachers and their first year pupils It demonstrates the necessity of the classroom teacher to draw on many kinds of knowledge in order to deal with various issues surrounding classroom learning and teaching Two important core areas are knowledge of lesson structure and of subject matter this book address the area of subject matter and as such it should be of interest to classroom teachers and lecturers in education
