**Edmund S. Morgan**

## **Meaning Of Independence John Adams George Washington And Thomas Jefferson:**

The Meaning of Independence Edmund Sears Morgan, 1976      **The Meaning of Independence** Edmund Sears Morgan, 2005-07-01 Americans did not at first cherish the idea of political severance from their mother country In just a few years however they came to desire independence above all else What brought about this change of feeling and how did it affect the lives of their citizens To answer these questions Edmund S Morgan looks at three men who may fairly be called the architects of independence the first presidents of the United States Anecdotes from their letters and diaries recapture the sense of close identity many early Americans felt with their country's political struggles Through this perspective Morgan examines the growth of independence from its initial declaration and discovers something of its meaning for three men who responded to its challenge and for the nation that they helped create *The Meaning of Independence* first published in 1976 has become one of the standard short works on the first three presidents of the United States George Washington John Adams and Thomas Jefferson When the Mount Vernon Ladies Association and the Organization of American Historians asked 1 500 historians to name the ten best books about George Washington this book was one of those selected In this updated edition the author provides a new preface to address a few remaining concerns he has pondered in the quarter century since first publication Tag A classic work on the founding by the author of the bestselling *Benjamin Franklin*      **The Meaning of Independence** Edmund Sears Morgan, 1978 Anecdotes from diaries and letters complement a portrait of Adams Jefferson and Washington      **The Meaning of Independence** Edmund S. Morgan, 1978-04      *Washington's Revolution* Robert Middlekauff, 2016-02-09 Focusing on Washington's early years Bancroft Prize winner and Pulitzer Prize finalist Robert Middlekauff penetrates his mystique revealing his all too human fears values and passions Rich in psychological detail regarding Washington's temperament idiosyncrasies and experiences this book shows a self conscious Washington who grew in confidence and experience as a young soldier businessman and Virginia gentleman and who was transformed into a patriot by the revolutionary ferment of the 1760s and 70s Middlekauff makes clear that Washington was at the heart of not just the revolution's course and outcome but also the success of the nation it produced This vivid insightful new account of the formative years that shaped a callow George Washington into an extraordinary leader is an indispensable book for truly understanding one of America's great figures      George Washington's Final Battle Robert P. Watson, 2021-02-15 George Washington's Final Battle tells the little known story of how the country's first president tirelessly advocated for a capital on the shores of the Potomac Although Washington died just months before the federal government's relocation his vision and influence live on in the city that bears his name      **The Meaning of Independence**, 1976\*      **George Washington's Journey** T.H. Breen, 2016-01-12 Follows Washington's journey to each of the original thirteen states during which he brought the government to the people and promoted the idea of a strong federal union      The Education of John Adams Richard B. Bernstein, 2020 This book a free standing companion to Bernstein's 2003 biography Thomas Jefferson responds to the public

curiosity about Adams his life and his work for those intrigued by popular culture portrayals of Adams in the Broadway musical 1776 and the HBO television miniseries John Adams As with Bernstein s other work e g The Founding Fathers A Very Short Introduction it is a clear scholarly concise well written and well researched account of Adams s life career and thought addressing anyone seeking to learn more about him **Historical Dictionary of the American Revolution** Terry M.

Mays,2019-02-08 The American Revolution pitted 13 loosely united colonies in a military political and economic struggle against Great Britain the mother country and arguably the most powerful state in the world during the late 18th century The independent spirit that led many individuals to leave homes in Europe and settle in the New World during the 17th and 18th centuries evolved into the drive that persuaded these same settlers and their descendants to challenge the colonial economic and taxation policies of Great Britain which lead to the armed conflict that resulted in a declaration of independence This third edition of Historical Dictionary of the American Revolution contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 1 000 cross referenced entries on the politics battles weaponry and major personalities of the war This book is an excellent resource for students researchers and anyone wanting to know more about the American Revolution *The Political Philosophy of George Washington* Jeffry H. Morrison,2009-04-15 A delight

rewarding insight into Washington and his times and an illuminating section on the religious outlook of this American founder Journal of American History George Washington is revered as the father of his country a clever and skilled general and a man of restrained principle but not as a political thinker This short introduction to Washington s political philosophy reveals him as a thoughtful public intellectual who was well equipped to lead the young United States Though Washington left little explicit writing on political philosophy Jeffry Morrison examines his key writings actions education and political and professional lives He finds that Washington held closely to a trinity of foundational principles classical republicanism British liberalism and Protestant Christianity with greater fidelity than many of the other founding fathers In unearthing Washington s ideological growth Morrison reveals the intellectual heritage of his political thought and shows how these beliefs motivated him to action This insightful concise story makes clearer the complexities of the revolutionary era and shows how the first president s political ideas shaped governmental institutions and instantiated the nation s foundational principles Those who accept the dumb general caricature should be chastened by Morrison s elegant and concise sampling of Washington s writings This work deserves to be studied and debated by political scientists historians and public intellectuals concerned with America s fundamental political principles and those of liberal democracy Review of Politics **A Companion to John**

**Adams and John Quincy Adams** David Waldstreicher,2013-02-15 A Companion to John Adams and John Quincy Adams presents a collection of original historiographic essays contributed by leading historians that cover diverse aspects of the lives and politics of John and John Quincy Adams and their spouses Abigail and Louisa Catherine Features contributions from top historians and Adams scholars Considers sub topics of interest such as John Adams role in the late 18th century demise of

the Federalists both Adams presidencies and efforts as diplomats religion and slavery Includes two chapters on Abigail Adams and one on Louisa Adams

**Heart of the Nation** John M. Bridgeland, 2012-12-29 Heart of the Nation traces America's volunteer tradition the golden thread of American democracy and how Presidents from Washington to Obama have called on citizens to serve neighbor and nation From the bunker below the White House on 9/11 to villages in Africa John Bridgeland shares his own experiences inside and outside of government to spark more Americans to volunteer to meet urgent needs He compellingly argues that such service is fundamental to our own happiness and to what the Founding Fathers envisioned when they talked about the pursuit of Happiness in the Declaration of Independence Bridgeland helps the reader discover their own volunteer service mission and issues a rallying cry to the nation to heal our partisan divisions by joining together across party lines to address our toughest challenges

**Inventing the People: The Rise of Popular Sovereignty in England and America** Edmund S. Morgan, 1989-09-17 The best explanation that I have seen for our distinctive combination of faith hope and naiveté concerning the governmental process Michael Kamman Washington Post This book makes the provocative case here that America has remained politically stable because the Founding Fathers invented the idea of the American people and used it to impose a government on the new nation His landmark analysis shows how the notion of popular sovereignty the unexpected offspring of an older equally fictional notion the divine right of kings has worked in our history and remains a political force today

The Genuine Article: A Historian Looks at Early America Edmund S. Morgan, 2005-08-17 A masterly quarter century of commentary on the discipline of American history Allen D Boyer New York Times Book Review This book amounts to an intellectual autobiography These pieces are thus a statement of what I have thought about early Americans during nearly seventy years in their company writes historian Edmund S Morgan in the introduction to this landmark collection The Genuine Article gathers together twenty-five of Morgan's finest essays over forty years commenting brilliantly on everything from Jamestown to James Madison In revealing the private lives of Those Sexy Puritans and The Price of Honor on Southern plantations The Genuine Article details the daily lives of early Americans along with The Great Political Fiction that continues to this day As one of our most celebrated historians Morgan's characteristic insight and penetrating wisdom are not to be missed in this extraordinarily rich portrait of early America and its Founding Fathers

Roger Williams: The Church and the State Edmund S. Morgan, 2007-07-17 An illuminating portrait of the nation's earliest and most passionate advocate for the total separation of church and state A classic of its kind Edmund S Morgan's Roger Williams skillfully depicts the intellectual life of the man who after his expulsion in 1635 from the Massachusetts Bay Colony founded what would become Rhode Island As Morgan re-creates the evolution of Williams's thoughts on the nature of the church and the state he captures with characteristic economy and precision the institutions that informed Williams's worldview from the Protestant church in England to the Massachusetts government in the seventeenth century In doing so Morgan reveals the origins of a perennial and heated American debate told through the

ideas of one of the most brilliant polemicists on the subject a man whose mind as Morgan describes drove him to examine accepted ideas and carry them to unacceptable conclusions Forty years after its first publication Roger Williams remains essential reading for anyone interested in the church the state and the right relation of the two American Heroes: Profiles of Men and Women Who Shaped Early America Edmund S. Morgan, 2010-05-10 From the bestselling author of Benjamin Franklin and recent winner of the Pulitzer Prize comes this collection of revelatory stories that redefines the notion of American heroism challenging those who persist in revering the American history status quo **Declaration of Independence & U.S. Constitution (Including the Bill of Rights and All Amendments)** George Washington, Thomas Jefferson, John Adams, Benjamin Franklin, James Madison, U.S. Government, 2018-03-21 This edition is comprised of the most important legal documents in early American history which are considered instrumental to its founding and philosophy The United States Declaration of Independence The Constitution and Bill of Rights Also included The Federalist Papers and Inaugural Speeches from the first three American presidents our Founding Fathers Their words provide additional insights on how the American identity was shaped Discover the real roots of the present day Government Table of Contents Declaration of Independence 1776 U S Constitution 1787 Bill of Rights 1791 Amendments 1792 1991 The Federalist Papers 1787 1788 Inaugural Speeches George Washington 1789 1793 John Adams 1797 Thomas Jefferson 1801 1805 Canon Fodder Penny A. Weiss, 2015-11-09 This book is an exercise in the recovery of historical memory about a set of thinkers who have been forgotten or purposely ignored and as a result never made it into the canon of Western political philosophy Penny Weiss calls them canon fodder recalling the fate of soldiers in war who are treated by their governments and military leaders as expendable Despite some real progress at recovery over the past few decades and the now frequent references to a few female thinkers like Mary Wollstonecraft Hannah Arendt and Simone de Beauvoir the surface has only been scratched and the rich resources of women s writings about political ideas remain still largely untapped Included here and intended to further whet the palate are figures from Sei Sh nagon Christine de Pizan and Mary Astell to Elizabeth Cady Stanton Anna Julia Cooper and Emma Goldman Restoring female thinkers to the conversation of political philosophy is the primary goal of this book Part I deploys a range of these thinkers to discuss the nature of political inquiry itself Part II focuses on alternative approaches to and visions of core political ideas equality power revolution childhood and community While mainly an intellectual act of revival this book also affects practical political life because remote and academic as they sometimes appear debates about what to include in the canon ultimately touch almost everyone students handed texts from lists of great books to guide them and citizens whose governments justify their actions with ideas from political texts deemed classic

**Historical Dictionary of Revolutionary America** Terry M. Mays, 2005-06-09 Not just about the grievances that led to war nor the actual war itself but more particularly the subsequent period of trial and error in which the thirteen states and those that followed were welded into the United States of America In addition to the over 1100 dictionary entries on

significant people and political economic and social events of the era appendixes documenting the signers of the Declaration of Independence the Articles of Confederation and the Constitution as well as listing all the Presidents of Congress under the Articles of Confederation are included
