The Meaning of Life Steven Sanders, David R. Cheney, 1980 *Exploring the Meaning of Life* Joshua W.

Seachris, 2012-09-04 Much more than just an anthology this survey of humanity's search for the meaning of life includes the latest contributions to the debate a judicious selection of key canonical essays and insightful commentary by internationally respected philosophers Cutting edge viewpoint features the most recent contributions to the debate Extensive general introduction offers unprecedented context Leading contemporary philosophers provide insightful introductions to each section

Meaning in Life, Volume 1 Irving Singer, 2009-12-30 An acclaimed philosopher views the search for meaning in life as the search for a mode of creativity that will make our lives meaningful What is meaning in life Does anything really matter How can a life achieve lasting significance How can we explain the human propensity to struggle for ideals How is meaning related to contentment happiness joy Is meaning something we discover or do we create it What is the nature of value and what are its sources in human experience Can there be a meaning in life without religious faith What is the meaning of death Is life worth living What would enable us to have a love of life Meaning in life writes philosopher Irving Singer and the meaning in our own lives results from creative efforts on our part It is not a prior reality awaiting our discovery Though we talk about a search for meaning what we are seeking is primarily a mode of creativity that will make our lives meaningful In *The Creation of Value* the first volume of his *Meaning in Life* trilogy Singer studies the nature of imagination idealization and love in the context of humanity's attempt to define itself through the pursuit of meanings and values that it creates Singer confronts life's most troubling problems the meaning of death the presence of anxiety in daily existence the conditions needed for us to have a life worth living and the possibility of a love of life in others as well as in ourselves

Meaning in Life Thaddeus Metz, 2013-11-07 What makes a person's life meaningful Thaddeus Metz offers a new answer to an ancient question which has recently returned to the philosophical agenda He proceeds by examining what if anything all the conditions that make a life meaningful have in common The outcome of this process is a philosophical theory of meaning in life He starts by evaluating existing theories in terms of the classic triad of the good the true and the beautiful He considers whether meaning in life might be about such principles as fulfilling God's purpose obtaining reward in an afterlife for having been virtuous being attracted to what merits attraction leaving the world a better place connecting to organic unity or transcending oneself by connecting to what is extensive He argues that no extant principle satisfactorily accounts for the three fold significance of morality enquiry and creativity and that the most promising theory is a fresh one according to which meaning in life is a matter of intelligence contoured toward fundamental conditions of human existence

Mysticism and Vocation James R. Horne, 2006-01-01 We tend to think that a person who is both reasonable and moral can have a good life What constitutes a life that is not only good but superlative or even marvellous or holy Those who have such lives are called sages heroes or saints and their lives can display great integrity as well as integration with a

transformative Spiritual Presence Does it follow that saints are perfect people Is there a common vision that impels them to seek holiness In a controversial interpretation of mysticism Horne suggests that there is no single formula for the meaning of life and no one story that displays it to us Mysticism rather than being just a visionary perception then becomes a problem solving process that brings about a creative transformation of the personality at a critical stage in life He suggests also that saints may be imperfect morally and describes true saints as double minded they are serious in a playful way Mysticism and Vocation illuminates our understanding of saintly lives by explicating their mystical characteristics and extending discussions of mysticism to explain its role in active lives In discussing important decisions that go beyond conventional morality it adds to recent philosophical arguments by Charles Taylor Alasdair MacIntyre Iris Murdoch Bernard Williams and others to the effect that morality should be defined more broadly to deal with the human condition This book will be of interest to students of philosophy and religious studies in both graduate and undergraduate programs Faith, Freedom, And Value Randolph M. Feezell, 2019-03-04 This book contains a series of philosophical conversations between two old college friends and provides a readable and clear examination of certain fundamental philosophical questions It shows introductory students some of the standard arguments in the history of philosophy **Scaling the Secular City** J. P. Moreland, 1987-02-01 This volume offers up to date arguments for God s existence and for Jesus s deity and resurrection answers to objections to Christian theism and discussions of four key issues Meaning in Life Irving Singer, 1992 The nearest thing to a rational discernment of meaning in life Irvin Singer suggests is the discernment of goals and values that we can find gratification and fulfillment in pursuing He offers wise counsel to that end along with rewarding glimpses into a wide range of literature

Intelligent Design and Religion as a Natural Phenomenon John S. Wilkins, 2017-03-02 Over the past decade a strident public debate has arisen about the nature and origin of religions Controversies include how exactly religion evolved whether by individual or group selection if it is adaptive and if not whether and how it is a side effect of evolution This volume focuses on the issue of naturalizing religion on the ways in which cognitive science and social sciences have treated religion as a natural phenomenon It questions whether religious behaviour institutions and experiences can be explained in natural terms The editor brings together some of the best published work on the definition of religion intelligent design and the evolution of religion **Scientific Approach to the Meaning of Life** Arturas Vaitaitis, 2024-01-17 In Scientific Approach to the Meaning of Life science and spirituality intertwine through the captivating narrative of the author s personal journey This compact yet profound book draws upon a spectrum of scientific fields while also charting the complex and mixed paths of religion and science through history aiming to shed light on one of humanity s most profound questions What is the meaning of life Personal experiences are beautifully melded with insights from particle physics evolutionary biology and historical analyses crafting an intimate yet lighthearted account of the search for life s purpose Perfect for readers seeking a personal and intellectually stimulating exploration of life s most significant question Scientific Approach to the Meaning of

Life offers a compelling intersection of science history and personal discovery This book promises a unique journey through the dimensions of existence shaped by the author s scientific insight and personal journey God and the Meanings of Life T. J. Mawson,2016-10-20 Some philosophers have thought that life could only be meaningful if there is no God For Sartre and Nagel for example a God of the traditional classical theistic sort would constrain our powers of self creative autonomy in ways that would severely detract from the meaning of our lives possibly even evacuate our lives of all meaning Some philosophers by contrast have thought that life could only be meaningful if there is a God God and the Meanings of Life is interested in exploring the truth in both these schools of thought seeking to discover what God could and couldn t do to make life meaningful as well as what he would and wouldn t do Mawson espouses a version of the amalgam or pluralism thesis about the issue of life s meaning in essence that there are a number of different legitimate meanings of meaning and indeed life in the question of life s meaning According to Mawson God were he to exist would help make life meaningful in some of these senses and hinder in some others He argues that whilst there could be meaning in a Godless universe there could be other sorts of meaning in a Godly one and that these would be deeper Proceedings of the Meaning in Life International Conference 2022 - Cultivating, Promoting, and Enhancing Meaning in Life Across Cultures and Life Span (MIL 2022) Alex Chi-Keung Chan,Michael F. Steger,Raymond Chi-Fai Chui,Nicolson Yat-Fan Siu,Susanna Chung Ping Wong Ip,Bess Yin-Hung Lam,2023-02-10 This is an open access book Meaning in Life MIL International Conference 2022 Cultivating Promoting and Enhancing Meaning in Life Across Cultures and Life Span will be held On 22 25 June 2022 Onsite Live Online at The Hong Kong Shue Yan University Hong Kong China The concept of meaning in life MIL has recently earned a renaissance of interest Although MIL has always been framed as significant for human survival it has simultaneously been portrayed as chronically lacking in people s lives Furthermore though MIL has been seen as a universal need it is also highly idiosyncratic These paradoxes of MIL being a basic necessity but also a rare commodity and as being universal yet idiosyncratic have driven the quest for meaning throughout history and across disciplines The COVID 19 pandemic has not only been changing and impacting the ways we live but also initiates us to quest more about what still makes life meaningful in this chaotic challenging and uncertain world The increasing quest for MIL provides the driver for meaning enhancing interventions and meaning centered practices but the efficacy of these interventions is influenced by cultural and developmental moderators Thus the MIL International Conference 2022 will focus on the theme of cultivating promoting and enhancing meaning in life across cultures and life span and welcomes paper presentations that share and discuss empirical based and evidence based MIL research practice and applications **The Intentional Life Series** Ramesh P. Richard,2004-05-01 This set includes all three books of the Intentional Life Series Soul Passion Soul Mission and Soul Vision Throughout the Ages humanity has pursued the meaning of life However most of us live decidedly arbitrary lives muddling through from day to day In the Intentional Life Series Dr Ramesh Richard who has been called the layman s Ravi Zacharias articulates how a meaningful life

must be a truly intentional life comprised of passion mission and vision He believes that in order for us to embody our true selves and become what we were designed to be we must reevaluate that passion mission and vision and conform them to God's will In *Soul Passion* Richard argues that even though many of us know there must be something more to life we stumble about with undirected goals and undiscovered passion He motivates readers to ask themselves what their passion is where they have placed their heart love trust and sufficiency Discovering your soul passion is the foundation for living a biblically well built and profitable life In *Soul Mission* Richard explores what it means to have a mission for your life that is in response to God's universal purpose Readers will find themselves deeply challenged to evaluate why they're here and find assistance with developing their own soul mission In *Soul Vision* Richard closes the trilogy by orienting his readers to the future through guidance from the Divine Visionary

Meaning in Life Michael Hauskeller, 2025-03-07 This book develops and defends a subjectivist account of meaning in life which holds that the only place that meaning can ever be found is in the way we experience the living of our lives Many philosophers consider that a life can only be meaningful if it meets certain objective standards For a life to be meaningful they insist it needs to make a difference and contribute something important something that is of value and not just for the person whose life it is In contrast this book contends that meaningfulness is not an objective quality of lives nor is it in some way dependent on such a quality Meaning is not like truth which is commonly thought to be an objective quality of propositions Statements or beliefs are not true simply because someone thinks or feels that they are true Something can appear true that is in fact false But a person cannot feel their life to be meaningful while in fact it is not because meaning does not depend on the presence of certain features without which no life can be rightly considered meaningful The book therefore concludes that many people live a meaningful life Meaning is not the prerogative of an elite minority It is not a measure of human accomplishments This book will be essential reading for philosophers and postgraduate students researching the meaning of life and is also suitable for use in teaching on philosophy courses at university level

Encountering Life in the Universe Chris Impey, Anna H. Spitz, William Stoeger, 2013-10-25 Are we alone in the universe Are the planets our playground to treat as we will or do we have a responsibility to other creatures who may inhabit or use them Do we have a right to dump trash in space or leave vehicles on Mars or the moon How should we interact with other life forms *Encountering Life in the Universe* examines the intersection of scientific research and society to further explore the ethics of how to behave in a universe where much is unknown Taking contributions from notable experts in several fields the editors skillfully introduce and develop a broad look at the moral questions facing humans on Earth and beyond Major advances in biology biotechnology and medicine create an urgency to ethical considerations in those fields Astrobiology goes on to debate how we might behave as we explore new worlds or create new life in the laboratory or interact with extraterrestrial life forms Stimulated by new technologies for scientific exploration on and off the Earth astrobiology is establishing itself as a distinct scientific endeavor In what way can established philosophies

provide guidance for the new frontiers opened by astrobiology research Can the foundations of ethics and moral philosophy help answer questions about modifying other planets Or about how to conduct experiments to create life in the lab or about How to interact with organisms we might discover on another world While we wait for the first echo that might indicate life beyond Earth astobiologists along with philosophers theologians artists and the general public are exploring how we might behave even before we know for sure they are there Encountering Life in the Universe is a remarkable resource for such philosophical challenges

Taking Off Roofs and Building Bridges Alan J. Pihringer, 2022-09-27 Why don't they believe the same things I do Why don't they see things my way We get frustrated when people hold differing opinions from ours or view life's major issues from conflicting angles Their system of belief their worldview seems foreign to us as they filter the events of this world in ways that we would never have imagined and then come to conclusions that we would never even consider When other people's worldviews contradict ours both of us cannot be right Is there a way to account for the differences and determine if one is right and the other wrong For the Christian especially can we defend the Christian worldview in a way that upholds our entire system of belief and then opens the door to share the gospel with those who believe differently from us The method of worldview apologetics enables the Christian to expose the faults in other worldviews demonstrate the truth of the Christian worldview and build a bridge for others to hear the gospel of Jesus Christ Both scholarly and practical worldview apologetics equips the Christian to assess and critique differing belief systems and fulfill the call to Great Commission outreach
