Means Of Escape Getaways:

Getaway F. J. Whiting, Stanley Hockman, 2000 In the spring of 1915 when the sinking of the Lusitania screamed across the headlines 20 year old Frank Whiting dropped out of agricultural college He left his Saskatchewan farm to the care of his father and younger brother and went very reluctantly indeed to the hell and horror of World War I Serving with his university corps in the PPCLI he survived the battles of Ypres Sanctuary Wood The Somme Vimy Ridge and Passchendaele He changed as the dreadful years dragged on from a green kid innocent trustful and believing everything my elders told me After three years of war I was no longer innocent I believed nothing except that God had died or didn't care My trustfulness and dependence had given place to a well developed ability to look after myself I was an expert at dodging parades guards and fatigues when out on a so called rest In the trenches I knew all there was to know about making the poorest of dugouts comfortable how to rustle food and whiskey from officers and others whom I thought were getting more than their share of good things I could tell the instant a battery or machine gun spoke whether to hurl myself prone or walk on indifferently To me the war was something to be endured and if possible survived At twenty three I was an old soldier in everything the term implied and little of it was good When on August 27th of 1918 he was captured by the Germans he needed all his courage and resourcefulness as he set himself to escape the stench and starvation of the prison camp His story is one of stubborn independence and flashing humour of audacity a strange sympathy for the enemy soldiers he encountered and of friends and comrades lost forever His adventures are preserved in this book and in his battered stained and faded diaries testaments to human courage and the incredible folly of war

Reading the Romance Janice A. Radway, 2009-11-18 Originally published in 1984 Reading the Romance challenges popular and often demeaning myths about why romantic fiction one of publishing's most lucrative categories captivates millions of women readers Among those who have disparaged romance reading are feminists literary critics and theorists of mass culture They claim that romances enforce the woman reader's dependence on men and acceptance of the repressive ideology purveyed by popular culture Radway questions such claims arguing that critical attention must shift from the text itself taken in isolation to the complex social event of reading She examines that event from the complicated business of publishing and distribution to the individual reader's engagement with the text Radway's provocative approach combines reader response criticism with anthropology and feminist psychology Asking readers themselves to explore their reading motives habits and rewards she conducted interviews in a midwestern town with forty two romance readers whom she met through Dorothy Evans a chain bookstore employee who has earned a reputation as an expert on romantic fiction Evans defends her customers choice of entertainment reading romances she tells Radway is no more harmful than watching sports on television We read books so we won't cry is the poignant explanation one woman offers for her reading habit Indeed Radway found that while the women she studied devote themselves to nurturing their families these wives and mothers

receive insufficient devotion or nurturance in return In romances the women find not only escape from the demanding and often tiresome routines of their lives but also a hero who supplies the tenderness and admiring attention that they have learned not to expect The heroines admired by Radway's group defy the expected stereotypes they are strong independent and intelligent That such characters often find themselves to be victims of male aggression and almost always resign themselves to accepting conventional roles in life has less to do Radway argues with the women readers' fantasies and choices than with their need to deal with a fear of masculine dominance These romance readers resent not only the limited choices in their own lives but the patronizing attitude that men especially express toward their reading tastes In fact women read romances both to protest and to escape temporarily the narrowly defined role prescribed for them by a patriarchal culture Paradoxically the books that they read make conventional roles for women seem desirable It is this complex relationship between culture, text and woman reader that Radway urges feminists to address Romance readers she argues should be encouraged to deliver their protests in the arena of actual social relations rather than to act them out in the solitude of the imagination In a new introduction Janice Radway places the book within the context of current scholarship and offers both an explanation and critique of the study's limitations

The World's Most Romantic Destinations Abbie Kozolchyk, National Geographic, 2017 National Geographic reveals gloriously romantic vacations Whatever kind of getaway you are planning wedding anniversary Valentine's Day or other amorous special occasions you'll find secluded beaches exotic jungles and luxurious spas that offer the perfect passionate escape The book includes recommendations for hotel rooms with the best sunset views restaurants with a flair for romance and ideas to add a special touch to your trip
