Rist, 2016-08-01 **Understanding John Dewey** James Campbell, 1995 Dewey is the most influential of American social thinkers and his stock is now rising once more among professional philosophers Yet there has heretofore been no adequate readable survey of the full range of Dewey's thought After an introduction situating Dewey in the context of American social and intellectual history Professor Campbell devotes Part I to Dewey's general philosophical perspective as it considers humans and their natural home Three aspects of human nature are most prominent in Dewey's thinking humans as evolutionary emergents as essentially social beings and as problem solvers Part II examines Dewey's social vision taking his ethical views as the starting point Underlying all of Dewey's efforts at social reconstruction are certain assumptions about cooperative enquiry as a social method assumptions which Campbell explains and clarifies before evaluating various criticisms of Dewey's ideas The final chapter discusses Dewey's views on religion *The Bloomsbury Handbook to Cold War Literary Cultures* Greg Barnhisel, 2022-06-30 Adopting a unique historical approach to its subject and with a particular focus on the institutions involved in the creation dissemination and reception of literature this handbook surveys the way in which the Cold War shaped literature and literary production and how literature affected the course of the Cold War To do so in addition to more traditional sources it uses institutions like MFA programs university literature departments book review sections of newspapers publishing houses non governmental cultural agencies libraries and literary magazines as a way to understand works of the period differently Broad in both their geographical range and the range of writers they cover the book's essays examine works of mainstream American literary fiction from writers such as Roth Updike and Faulkner as well as moving beyond the U S and the U K to detail how writers and readers from countries including but not limited to Taiwan

The Rhetorical Leadership of Fulton J. Sheen, Norman Vincent Peale, and Billy Graham in the Age of Extremes Timothy H. Sherwood, 2013-08-15 Fulton J Sheen Norman Vincent Peale and Billy Graham were America s most popular religious leaders during the mid twentieth century period known as the golden years of the Age of Extremes It was part of an era that encompassed polemic contrasts of good and evil on the world stage in political philosophies and international relations The 1950s and early 1960s in particular were years of high anxiety competing ideologies and hero villain mania in America Sheen was the voice of reason who spoke against those conflicting ideologies which were hostile to religious faith and democracy Peale preached the gospel of reassurance self assurance and success despite ominous global threats and Graham was the heroic model of faith whose message of conversion provided Americans an identity and direction opposite to atheistic communism This study looks at how and why their rhetorical leadership both separately and together contributed to the climate of an extreme era and influenced a national religious revival

Nature's Kindred Spirits James I. McClintock, 1994-04-01 In Nature's Kindred Spirits James McClintock shows how their mystical experiences with the wild led to dramatic conversions in their thinking and behavior By embracing the ecstasy of nature they reject modern alienation and spiritual confusion From Aldo Leopold America s most important conservationist and author of the classic *A Sand County Almanac* to Pulitzer Prize winners Annie Dillard and Gary Snyder and defenders of the desert Joseph Wood Krutch and Edward Abbey these writers share a common vision that harkens back to Henry David Thoreau and John Muir To nineteenth century Romantic ideals they add the authority of modern ecological science Collectively they have elevated nature s importance in American culture shaping the growth of the environmental movement and influencing

American environmental policies Widely admired among educated readers but relatively neglected by the literary establishment these writers unite the experiential with the metaphysical the ordinary with the sacred the personal with the public and the natural with the social Using ecology as a touchstone McClintock further draws connections among science politics religion and philosophy to create an enlightening overview of the work of these kindred spirits **The Nation** ,1914
