Gaes, 2004-09-14 Gaes and his distinguished co authors offer a comprehensive analysis of public vs private management of prisons a competition that originated with the introduction of private facilities into the criminal justice system in the 1980s The authors measure prison performance with the technique of multi level modeling for simultaneous measurement of the individual and the institution Their work points the way to improved penal policy and accountability and will be a valuable resource for public administrators policy analysts corrections personnel and criminologists Visit our website for sample chapters

Measuring Prison Performance Gerald G. Gaes, 2004 This book provides approaches and tools to measure prison performance particularly in the context of analyzing public versus private management of prisons The authors argue that prison performance must be measured in reference to the goals of a particular prison system and introduce the technique of multilevel modeling to allow for simultaneous measurement of the individual and the institution They also show how their analytic framework can be applied to other criminal justice components such as prosecution adjudication post release supervision and policing Further they argue their framework can be used to evaluate the privatization of almost any publicly administered service They contend that the ability to meaningfully compare public and private prisons can better inform penal policy and improve prison performance and accountability

The Puzzle of Prison Order David Skarbek, 2020-07-01 Many people think prisons are all the same rows of cells filled with violent men who officials rule with an iron fist Yet life behind bars varies in incredible ways In some facilities prison officials govern with care and attention to prisoners needs In others officials have remarkably little influence on the everyday life of prisoners sometimes not even providing necessities like food and clean water Why does prison social order around the world look so remarkably different In The Puzzle of Prison Order David Skarbek develops a theory of why prisons and prison life vary so much He finds that how they are governed sometimes by the state and sometimes by the prisoners matters the most He investigates life in a wide array of prisons in Brazil Bolivia Norway a prisoner of war camp England and Wales women's prisons in California and a gay and transgender housing unit in the Los Angeles County Jail to understand the hierarchy of life on the inside Drawing on economics and a vast empirical literature on legal systems Skarbek offers a framework to not only understand why life on the

inside varies in such fascinating and novel ways but also how social order evolves and takes root behind bars Competition for Prisons Julian Le Vay, 2016 A quarter of a century has passed since the Thatcher government launched one of its most controversial reforms privately run prisons This book offers an assessment of the successes and failures of that initiative comparing public and private prisons analyzing the possible and claimed benefits of competition and looking closely at how well the government has managed the unusual quasi market that the privatization push created Drawing on first person interviews with key players and his own experience working in prison finance Julian Le Vay presents the most valuable look yet at the results of prison privatization for government citizens and prisoners **Prisons, Penology and Penal Reform** Curt R.
