

MECHANISMS OF POWER IN THE SOVIET UNION

Edited by
Niels Erik Rosenfeldt, Bent Jensen and Erik Kulavig
Foreword by Robert C. Tucker

Mechanisms Of Power In The Soviet Union

Sidney G. Tarrow

Mechanisms Of Power In The Soviet Union:

Mechanisms of Power in the Soviet Union Niels Erik Rosenfeldt, Bent Jensen, Erik Kulavig, 2000-01 Based on archival evidence and other sources these essays examine the power structures communication channels and mechanisms of decision making within the Soviet political system The book deals with both domestic and foreign policy problems Special attention is focused on the era of Stalinism

Soviet Economic Thought and Political Power in the USSR Aron Katsenelinboigen, 2013-10-22 Soviet Economic Thought and Political Power in the USSR examines the evolution of economic theory in the Soviet Union from uniformity under Josef Stalin to diversity in the post Stalin period The reasons for uniformity and diversity in Soviet economics are analyzed along with the structure of this diversity the paradoxes in its development and the conditions under which it will continue The connection between leaders of Soviet economics and the Communist Party rulers is also discussed Emphasis is placed on one of the principal trends in Soviet economics in the post Stalin period mathematical economics This book is comprised of six chapters and begins with a discussion on the development of the economic mathematical trend in the USSR The social environment in the Soviet Union is examined in macro terms along with the role of various mutations among the economists and the institutionalization of such mutations especially in the framework of the existing research institutes and universities The book also considers the attitudes of various factions of economists such as reactionaries conservatives and modernizers toward the question of the limitation of the leaders power and toward some areas of economics such as problems of mathematical modeling and institutional economics and toward the Marxist ideology The final chapter highlights the confusing struggle among the various trends in Soviet economics and the ways in which this struggle is supported by the country s political leaders This monograph will be of interest to economists political scientists politicians and economic policymakers

Historical Mechanisms Andreas Boldt, 2017-03-16 Historical Mechanisms argues that scientific method can provide key new insights about events that took place long ago Taking a fresh approach to historical method and theory this book contends that there is enough data to show that under certain circumstances societies have behaved and will continue to behave in similar ways throughout history In this book Andreas D Boldt discusses the possibility of utilizing natural scientific theories in order to explain historical processes focusing on the question of how nations and empires rise succeed fail and then assume another form in which they begin the cycle again Scientific methods are utilized metaphorically as a means of establishing connections between events and trends throughout history and this book argues that these methods can explain historical patterns such as chaos and stability the relationship between power centres and power vacuums the necessary conditions for the expansion of empires and the influence of natural and man made borders Exploring the ways in which concepts from science can be employed to shed new light on the analysis of historical data Historical Mechanisms is valuable reading for all scholars of the theory and method of history

Penal Theories and Institutions Michel Foucault, 2019-11-22 What characterizes the act of justice is not resort to a court

and to judges it is not the intervention of magistrates even if they had to be simple mediators or arbitrators What characterizes the juridical act the process or the procedure in the broad sense is the regulated development of a dispute And the intervention of judges their opinion or decision is only ever an episode in this development What defines the juridical order is the way in which one confronts one another the way in which one struggles The rule and the struggle the rule in the struggle this is the juridical Michel Foucault *Penal Theories and Institutions* is the title Michel Foucault gave to the lectures he delivered at the Collège de France from November 1971 to March 1972 In these lectures Michel Foucault presents for the first time his approach to the question of power that will be the focus of his research up to the writing of *Discipline and Punish* 1975 and beyond His analysis starts with a detailed account of Richelieu's repression of the Nu-pieds revolt 1639-1640 and then goes on to show how the apparatus of power developed by the monarchy on this occasion breaks with the system of juridical and judicial institutions of the Middle Ages and opens out onto a judicial State apparatus a repressive system whose function is focused on the confinement of those who challenge its order Michel Foucault systemizes the approach of a history of truth on the basis of the study of juridico-political matrices that he had begun in the previous year's lectures *Lectures on the Will to Know* and which is at the heart of the notion of knowledge-power In these lectures Foucault develops his theory of justice and penal law The appearance of this volume marks the end of the publication of the series Foucault's courses at the Collège de France the first volume of which was published in 1997

Power in Movement Sidney G. Tarrow, 2011-02-04 Social movements have an elusive power but one that is altogether real From the French and American revolutions to the post-Soviet ethnic and terrorist movements of today contentious politics exercises a fleeting but powerful influence on politics society and international relations This study surveys the modern history of the modern social movements in the West and their diffusion to the global South through war colonialism and diffusion and it puts forward a theory to explain its cyclical surges and declines It offers an interpretation of the power of movements that emphasizes effects on the lives of militants policy reforms political institutions and cultural change The book focuses on the rise and fall of social movements as part of contentious politics in general and as the outcome of changes in political opportunities and constraints state strategy the new media of communication and transnational diffusion

Adam Smith's Invisible Hand as Self-control Mechanism of Social Structures Tadeusz Szuba, 2022-11-07 This book shows how such a computational process functions how great is its power and versatility since it is possible to show how discoveries are made In 1759 Adam Smith realized that there must exist an additional powerful control mechanism behind Great Britain's authority and government explaining the extraordinary successes of Great Britain He called this the Invisible Hand Despite having used this term only 3 times the idea evokes extreme scientific and political emotions to this day If we apply a molecular model of computation such as in in Adleman's DNA computer a computational model for the Invisible Hand can be built to show how it affects a society It is a spontaneous unconscious distributed noncontinuous computational process on the platform of minds of e.g. people or

ants Knowing this mechanism a future self steering and self optimization system for AI robot teams can be proposed e g for construction sites and rescue operations Handbook of CO2 in Power Systems Qipeng P. Zheng,Steffen Rebennack,Panos M. Pardalos,Mario V. F. Pereira,Niko A. Iliadis,2012-06-05 The Handbook of CO2in Power Systems objective is to include the state of the art developments that occurred in power systems taking CO2emission into account The book includes power systems operation modeling with CO2emissions considerations CO2market mechanism modeling CO2regulation policy modeling carbon price forecasting and carbon capture modeling For each of the subjects at least one article authored by a world specialist on the specific domain is included Torn between East and West Iulian Chifu,Simona Tutuianu,2016-08-05 This book is a very timely account of the legal economic and political consequences for border states caught in the current tug of war between the West and Russia The Ukraine crisis of 2014 focused policy makers attention on a geographical area full of dangers that had gone relatively unnoticed since the breakup of the Soviet Union namely the security dynamics of the border states of Eastern Europe and the Black Sea Twenty five years after the collapse of the Soviet Union a strong Russia returns alternatively threatening and cajoling but at risk itself of suffering economic injury from western reprisals over its nostalgia for the map drawn at Yalta That conflict which hotted up over the Ukraine was soon being played out over and in the air space over Syria and Turkey while the border states themselves are likely to be drawn into the European refugee crisis and have the potential after the 2015 Paris atrocities to be breeding grounds for international terrorists This groundbreaking book contains prescient warnings that must be heeded by leaders and diplomats on both sides of the East West divide **Socialism and the Market: Mechanism design theory and the allocation of resources** Peter J. Boettke,2000 **The Soviet Union As An Asianpacific Power** Ramesh Thakur,Carlyle A. Thayer,G J Gill,Amin Saikal,2019-06-26 This volume provides a useful analysis of the domestic dimension of Soviet foreign policy in Asia Pacific It considers the implications of Gorbachev s 1986 Vladivostok Initiative on Northeast Asia Southeast Asia South Asia and the South Pacific *Power and the State* Martin J. Smith,2009-08-14 In this important new text Martin Smith reassesses traditional debates about power and how they understand the nature and impact of the state He develops an analysis of the new forms of state power that have developed in response to the perceived challenges of globalization and governance **The Routledge Handbook of Great Power Competition** Brian C. H. Fong,Chong Ja Ian,2024-08-20 The Routledge Handbook of Great Power Competition is a comprehensive pioneering and interdisciplinary guide of this re emerging field Offering a team of cutting edge researchers in the field it advances an analytical framework of great power competition It surveys the major theories mainstream and critical actors state quasi state and non state mechanisms military economic and ideational influence and domains territorial and non territorial pertaining to contemporary great power competition This Handbook is an essential text for scholars and students of international relations security studies global governance and comparative politics It will also appeal to global policy makers and practitioners who need to observe contemporary great

power competition **The End of the Communist Power Monopoly** Michael Waller,1993 This work analyzes the internal weaknesses and the external pressures that led to Communism's terminal crisis in Europe It systematically links the history of Euro Communism and the Prague Spring to the momentous events of 1989 to 1991 **100 Volumes of 'Notes on Numerical Fluid Mechanics'** Ernst Heinrich Hirschel,Egon Krause,2009-05-19 In a book that will be required reading for engineers physicists and computer scientists the editors have collated a number of articles on fluid mechanics written by some of the world's leading researchers and practitioners in this important subject area *Freedom Power & Democratic Planning V 4* Karl Mannheim,2013-07-04 First Published in 1951 In common with great sociologists of the past such as Comte and Spencer Marx and Max Weber Mannheim engaged in sociological study as a response to the challenging present This is volume IV of Freedom Power and Democratic Planning is the collected works of Karl Mannheim *Wars Without End: a New Mechanism for World Peace* B.A. Zikria MD FACS,2020-11-09 After arrival I visited museums and monuments in Washington D C I had a peak experience reading Thomas Jefferson's writing in the dome of the monument I have sworn upon the altar of God eternal hostility against every form of tyranny over the mind of man Ever since my faith in democracy has become unshakable I dedicate this book to the people of America to relit the torch of democracy for its revival and survival In the course of history humanity has struggled to survive to live with less threats exercising its free will for comfort and safety The book is based on all sources of knowledge to find out the probability of victory of constructive forces for peace vs destructive forces to allow the realization of World Peace Professor Audrey Cronin discovered the criteria of permanent neutrality's success for Switzerland Comparing it with Afghanistan she found that there is a good probability for Afghanistan to become a permanently neutral PN nation The author extended the same logic for achieving sustainable World Peace Of 193 member states of United Nation 170 meek nations demanding PN eventually others finding it to their interest also would guarantee their right for permanent neutrality by the Security Council of the United Nations **Canadian-American Slavic Studies** ,2003 A quarterly journal devoted to Russia and East Europe **In the Shadow of the Garrison State** Aaron L. Friedberg,2012-01-06 War or the threat of war usually strengthens states as governments tax draft soldiers exert control over industrial production and dampen internal dissent in order to build military might The United States however was founded on the suspicion of state power a suspicion that continued to gird its institutional architecture and inform the sentiments of many of its politicians and citizens through the twentieth century In this comprehensive rethinking of postwar political history Aaron Friedberg convincingly argues that such anti-statist inclinations prevented Cold War anxieties from transforming the United States into the garrison state it might have become in their absence Drawing on an array of primary and secondary sources including newly available archival materials Friedberg concludes that the weakness of the American state served as a profound source of national strength that allowed the United States to outperform and outlast its supremely centralized and statist rival the Soviet Union Friedberg's analysis of the U S government's approach to taxation conscription

industrial planning scientific research and development and armaments manufacturing reveals that the American state did expand during the early Cold War period But domestic constraints on its expansion including those stemming from mean self interest as well as those guided by a principled belief in the virtues of limiting federal power protected economic vitality technological superiority and public support for Cold War activities The strategic synthesis that emerged by the early 1960s was functional as well as stable enabling the United States to deter contain and ultimately outlive the Soviet Union precisely because the American state did not limit unduly the political personal and economic freedom of its citizens Political scientists historians and general readers interested in Cold War history will value this thoroughly researched volume Friedberg's insightful scholarship will also inspire future policy by contributing to our understanding of how liberal democracy's inherent qualities nurture its survival and spread

Tokens of Power Ann Hironaka, 2017-03-06

War presents a curious paradox Interstate war is arguably the most carefully planned endeavor by states yet military history is filled with disasters and blunders of monumental proportions These anomalies happen because most military history presumes that states are pursuing optimal strategies in a competitive environment This book offers an alternative narrative in which the pillars of military planning evaluations of power strategy and interests are theorized as social constructions rather than simple material realities States may be fighting wars primarily to gain or maintain power yet in any given historical era such pursuits serve only to propel competition they do not ensure military success in subsequent generations Allowing states to embark on hapless military ventures is fraught with risks while the rewards are few

Understanding Soft Power in

Africa Oluwaseun Tella, 2025-10-21 Negative images of Africa which define the continent as being riven with poverty crime or war are increasingly being challenged Examples of soft power such as Nigeria's Nollywood athletic successes in Kenya Rwanda's commercial diplomacy and South Africa's liberal constitution are all reasserting African agency and shaping more positive understandings of the continent This book considers the role and impact of soft power in the African context and how it relates to the 21st century scramble for Africa Bringing together leading scholars in the field this book delves into various aspects of soft power in Africa shedding light on how the continent's attractiveness is shaped by soft power in the continent's biggest states the small states and also the regional organisations such as the African Union AU Economic Community of West African States ECOWAS Southern African Development Community SADC and East African Community EAC The book then goes on to assess the ways in which great powers most notably China the United States the United Kingdom Brazil and France are themselves deploying soft power in Africa in order to vie for influence resources and strategic advantages Understanding Soft Power in Africa will be an important read for researchers in political science international relations African studies and cultural studies as well as for African policymakers
