Moutray,2016-03-22 In eighteenth century literature negative representations of Catholic nuns and convents were pervasive Yet during the politico religious crises initiated by the French Revolution a striking literary shift took place as British writers championed the cause of nuns lauded their socially relevant work and addressed the attraction of the convent for British women Interactions with Catholic religious including priests and

nuns Tonya J Moutray argues motivated writers including Hester Thrale Piozzi Helen Maria Williams and Charlotte Smith to reevaluate the historical and contemporary utility of religious refugees Beyond an analysis of literary texts Moutray s study also examines nuns personal and collective narratives as well as news coverage of their arrival to England enabling a nuanced investigation of a range of issues including nuns displacement and imprisonment in France their rhetorical and practical strategies to resist authorities representations of refugee migration to and resettlement in England relationships with benefactors and locals and the legal status of English nuns and convents in England including their work in recruitment and education Moutray shows how writers and the media negotiated the multivalent figure of the nun during the 1790s shaping British perceptions of nuns and convents during a time critical to their survival

Convents and Nuns in Eighteenth-Century French Politics and Culture Mita Choudhury,2018-07-05 Representations of convents and nuns assumed power and urgency within the volatile political culture of eighteenth century France Drawing from a range of literary cultural and legal material Mita Choudhury analyzes how between 1730 and 1789 lawyers religious pamphleteers and men of letters repeatedly asked Who should control the female convent and women religious These sources chronicled the conflicts between nuns and the male clergy among nuns themselves and between nuns and their families conflicts that were presented to the public in the context of potent issues such as despotism citizenship female education and sexuality The cloister operated as a symbol of despotism the equivalent of the Sultan s seraglio or the King s Bastille Before 1770 lawyers and magistrates praised nuns as the personification of virtuous Christian women often victims vulnerable to those who would use them to further their own political ends After 1770 men of letters evaluated nuns according to more secular norms and concluded that the convent had no purpose in society except as a reminder of the problems inherent in the Old Regime Choudhury elaborates on how nuns were not always passive entities mere objects to be shaped by the political needs of others But because they relied on men in order to make their voices heard the place of women religious in the public sphere was a complex one based on negotiations between female action and male subjectivity During the French Revolution whatever support they had enjoyed was lost as republicans and moderates began to see nuns as potentially disruptive to the social order family life and revolutionary values

The Rabbi and the Nun Mordecai Schreiber,1991 Rabbi Kaye and Sister Eve are passionately committed to their religious vocations yet in spite of their differing beliefs become attracted to each other only to find out they have to choose between their faith and their feelings for each other
