Origins Of Islamic Jurisprudence:

The Origins of Islamic Jurisprudence Harald Motzki, 2021-10-01 The current view among Western scholars of Islam concerning the early development of Islamic jurisprudence was shaped by Joseph Schacht's famous study on the subject published 50 years ago. Since then new sources became available which make a critical review of his theories possible and desirable. This volume uses one of these sources to reconstruct the development of jurisprudence at Mecca virtually unknown until now from the beginnings until the middle of the second Islamic century. New methods of analysis are developed and tested in order to date the material contained in the earliest compilations of legal traditions more properly. As a result the origins of Islamic jurisprudence can be dated much earlier than claimed by Schacht and his school. *A History of Islamic Law* N. J. Coulson, 2011 The classic introduction to Islamic law tracing its development from its origins through the medieval period to its place in modern Islam. **History of Islamic Law** Noel Coulson, 2014-03-11 The classic introduction to Islamic law tracing its development from its origins through the medieval period to its place in modern Islam. *Method and Theory in the Study of Islamic Origins* Herbert Berg, 2003-01-01 This collection of articles examines the various and often mutually exclusive methodological approaches and theoretical assumptions used by scholars of Islamic origins. *A History of Islamic Societies* Ira M. Lapidus, 2014-10-13 This new edition of one of the most widely used course books on Islamic civilizations around the world has been substantially revised to incorporate the new scholarship and insights of the last twenty five years. Ira Lapidus' history explores the beginnings and transformations of Islamic civilizations in the Middle East and details Islam's worldwide diffusion. The history is divided into four parts. Part I is a comprehensive account of pre-Islamic late antiquity, the beginnings of Islam, the early Islamic empires, and Islamic religious, artistic, legal, and intellectual cultures. Part II deals with the construction in the Middle East of Islamic religious communities and states to the fifteenth century. Part III includes the history to the nineteenth century of Islamic North Africa and Spain, the Ottoman, Safavid, and Mughal empires, and other Islamic societies in Asia and Africa. Part IV accounts for the impact of European commercial and imperial domination on Islamic societies and traces the development of the modern national state system and the simultaneous Islamic revival from the early nineteenth century to the present. *Origins of Islamic Jurisprudence* M. Y. Guraya, 1992-01-01 *Origin and Development of Islamic Law* Majid Khadduri, Herbert J. Liebesny, 2008 The American profession should welcome this exhaustive and authentic work edited by two scholars who are authorities on the law of Islam and also students of the law of the United States. These editors have enlisted leading authorities on special subjects and have presented the whole in a manner that should appeal to American interest and understanding. Dr. Khadduri and Dr. Liebesny are entitled to our thanks and to our congratulations. It is to be hoped that Law in the Middle East will be widely read and pondered by the American legal profession and all who believe understanding begets good will. **The Oxford Handbook of Legal History** Markus D.
