Pioneers Of Excellence A History Of The Chilton Corporation

Mike Jess

Pioneers Of Excellence A History Of The Chilton Corporation:

Pioneers of Excellence William Simon,1986 *The Emergence of Routines* Daniel M. G. Raff,Philip Scranton,2017

This book explains how things get organized and how routines emerge in businesses and business life The chapters explore historical episodes in a wide variety of settings and encourage a view of firm operations and development that is much more realistic and much more practically helpful than the standard economic perspective *Creditworthy* Josh Lauer,2017-07-25
The first consumer credit bureaus appeared in the 1870s and quickly amassed huge archives of deeply personal information Today the three leading credit bureaus are among the most powerful institutions in modern life yet we know almost nothing about them Experian Equifax and TransUnion are multi billion dollar corporations that track our movements spending behavior and financial status This data is used to predict our riskiness as borrowers and to judge our trustworthiness and value in a broad array of contexts from insurance and marketing to employment and housing In *Creditworthy* the first comprehensive history of this crucial American institution Josh Lauer explores the evolution of credit reporting from its nineteenth century origins to the rise of the modern consumer data industry By revealing the sophistication of early credit reporting networks *Creditworthy* highlights the leading role that commercial surveillance has played ahead of state surveillance systems in monitoring the economic lives of Americans Lauer charts how credit reporting grew from an industry that relied on personal knowledge of consumers to one that employs sophisticated algorithms to determine a person s trustworthiness Ultimately Lauer argues that by converting individual reputations into brief written reports and later credit ratings and credit scores credit bureaus did something more profound they invented the modern concept of financial identity *Creditworthy* reminds us that creditworthiness is never just about economic facts It is fundamentally concerned with and determines our social standing as an honest reliable profit generating person Forthcoming Books Rose Arny,2001-06

Pioneering Places of British Aviation Bruce Hales-Dutton,2020-03-30 A high flying tour of British aviation history and the sites where trials and triumphs took place From the beginning of the nineteenth century Britain was at the forefront of

powered flight Across the country many places became centers of innovation and experimentation as increasing numbers of daring men took to the skies In 1799 at Brompton Hall Sir George Cayley Bart put forward ideas that formed the basis of powered flight There were balloon flights at Hendon from 1862 though attempts at powered flights from the area later used as the famous airfield don t seem to have been particularly successful Despite this Louis Bleriot established a flying school there in 1910 It was gliders that Percy Pilcher flew from the grounds of Stamford Hall Leicestershire during the 1890s He was killed in a crash there in 1899 but Pilcher had plans for a powered aircraft which experts believe may well have enabled him to beat the Wright Brothers in becoming the first to make a fixed wing powered flight At Brooklands unsuccessful attempts were made to build and fly a powered aircraft in 1906 but on June 8 1908 A V Roe made what is considered the first powered flight in Britain from there in reality a short hop in a machine of his own design and construction enabling Brooklands to call itself the birthplace of British aviation These are just a few of the places investigated in this intriguing look at the early days of British aviation which includes the first ever aircraft factory in Britain in the railway arches at Battersea Larkhill on Salisbury Plain which became the British Army s first airfield and Barking Creek where Frederick Handley Page established his first factory **Iron Age and Hardware, Iron and Industrial Reporter** ,1891 **The Engineer** ,1893
