English W. E. Collinson,1927 This book is written primarily for foreign students and teachers of English That purpose governs the whole presentment and organization of the material and the type of explanation offered To my own fellow countrymen it may at the highest reckoning offer a means of bringing to the surface hidden memories of curious and amusing words Probably it brings them little that is new but it may stimulate them to seek out and regroup their own linguistic experiences In fifty years time the work might even claim the attention of the English philologist whom it will provide with a certain amount of dated material for his historical inductions For the present its mission is more humble and more practical The first idea that such a collection as the present might not be unwelcome lowe to Professor Jespersen whose kindness in looking through the first draft and suggesting improvements I acknowledge with deep gratitude Mr Bradley and Mr Hutton both of the Liver pool University Library have unselfishly given me the benefit of their sharp eyes and wide reading a number of their proposed emendations and additions have been gratefully embodied My special thanks are due to Dr Hittmair of the University of Innsbruck whose encouragement and ungrudging help have throughout been of the greatest value to me Finally I feel I must express my gratitude to the firm of Teubner for its care in preparing my MS **A Fable** William

Bois de Fourcaux a luxuriant woodland covering 75 acres set in the area of the battlefields of the Somme dominates the

surrounding landscape today as it did in the summer of the year 1916 Known to the British Army as High Wood the invading Germans had occupied the wood as it proved to be a natural field fortification and a menace that had to be neutralized if the British were to find a way forward in their attempts to breach the trench systems of the German Army and break out into the Green Fields Beyond This insightful publication will take the battlefield visitor and also those who are unable to visit the site on a journey through the history of the battles for High Wood and its environs It covers the most significant dates in the British Armys struggle to eject the invader and the Germans determination to hold that which they considered to be their new National Frontier This is the story of the largely amateur British Army of 1916 Lessons were learned in the roaring furnace of the Somme that would transform the fighting ability of the British irrevocably High Wood was at the epicentre of that learning process The book contains detailed maps from the time of the High Wood battles using the excellent British Trench maps and importantly an explanation on the use of the numbered grid system which enables the visitor to locate to within 5 yards the site of an action that took place 100 years ago Photographs are also included to enhance the visitor experience Join us for the journey
