Chemistry Jo Allan Beran,Mark Lassiter,2022 The Laboratory Manual for Principles of General Chemistry has focused on the
laboratory experience through each of its ten previous editions Realizing that all experimental conclusions are not the same
each conclusion is dependent upon identifying an appropriate experimental procedure selecting the proper apparatus
employing the proper techniques while systematically analyzing and interpreting the data and minimizing the inherent
variables associated with the student scientist As a result of good data a scientific and analytical conclusion is made which
may or may not be right but consistent with the data This approach has been prevalent throughout the previous ten editions
