## **Place Among The Nations:**

A Place Among the Nations Binyamin Netanyahu, 1993 In a passionate meticulously researched work Israel's most charismatic spokesperson traces the origins history and politics of his country's relationship with the Arab world and the West and offers for the first time his own detailed plan for a real lasting peace in the Middle East

*A Place Among the Nations* Benjamin Netanyahu, 1993 Benjamin Netanyahu traces the origins history and politics of Israel's relationship with the Arab world and the West providing a view of the country's precarious situation among the Arabs and revealing his own plan for peace in the Middle East the hostile target not only of an Arab world more than 500 times its size but of so much of the West He wonders how what he identifies as the only democracy in the Middle East has become the focus of Western criticism of the kind never directed at the surrounding Arab tyrannies He argues against the lies which he feels are levelled against Israel today by using the facts of ancient and modern history to establish his country's case attainable but only if the nature of Middle Eastern politics and the volatile forces within Arab and Islamic society are taken into account He puts forward his plan for an Israeli renewal and calls for sweeping political and economic reforms to enable the Jewish state to achieve a permanent position on the international stage

**A Durable Peace** Benjamin Netanyahu, 2009-10-14 This examination of the Middle East's troubled history traces the origins development and politics of Israel's relationship with the Arab world and the West It argues that peace with the Palestinians will leave Israel vulnerable to Iraq and Iran

**Iran and Its Place among Nations** Alidad Mafinezam, Aria Mehrabi, 2007-11-30 Iran and Its Place among Nations takes a bird's eye view of where Iran has been in the international community where it is today and where it may ideally end up in the future Is Iran an Eastern country bound by traditions that hinder economic development Or does it also have some attributes of Western countries given its history geographic location culture and politics Among the key insights in this book is the observation that Iran is a bridge between East and West Is Iran a fomenter of Islamic radicalism in the Middle East and beyond or can it be a promoter of moderation and reform within its own borders and in other Muslim countries How effectively can the religious and national sources of Iran's identity be reconciled or must the country choose one over the other and overcome the inherent tensions of this dual identity This book addresses these and similar questions regarding one of the most important and newsworthy countries in the world Combining description and prescription the authors shed light on the tumultuous history of Iran in the twentieth century and uncover the domestic and foreign factors that have aided and retarded the country's development in modern times Providing a close look at the backgrounds and identities of key pre and post revolutionary leaders in Iran the authors make insightful recommendations to Iranians and the international community on how to integrate Iran into harmonious and stable relationships that benefit Iranians the region that surrounds them and the world Grounded in solid scholarship yet written accessibly this is a must read for all Iran watchers today

**(Illustrations)** Henry Smith Williams, Many a nation has walked God s earth has long enjoyed its good things has come into being and passed away without our knowing anything of its history or even whether it had a history at all For no nation has a history except one that makes history that is to say that influences the course of human development It is with races as with individuals none is kept in mind by posterity save those who have distinguished themselves by ideas that have modified the life of mankind or which comes to the same thing have been pioneers in fresh fields of action The greater the spiritual gain a nation has brought to the rest of the world the longer and more steadily its life has flowed in the channels it was the first to make the longer is its history told among them The nations of history are those which have put forward in one fashion or another their claim to the dominion of the world Thus we may fitly ask what claim it is that is made upon our interest by the history of the Jewish nation And the answer will be that nothing which excites our attention or stirs us to admiration or imitation in the history of other nations is here present in any large measure Israel was always a small nay a petty nation settled in a narrow space never of any considerable importance in the political history of the East it never brought forth a Ramses II a Sargon an Esarhaddon an Asshurbanapal a Nebuchadrezzar or a Cyrus to bear its banner into distant lands Yet for all this the history of Israel has for us an interest quite different from that of those other nations of antiquity And if as we see Israel is far surpassed in martial glory by the peoples of the great empires and by the Romans in their influence on the

development of law there are yet other points in which it must yield unquestioned precedence to other nations of antiquity We do not find in Israel the same feeling for beauty as among the Greeks who like no nation before them or after showed forth the laws of beauty in every sphere of intellectual life and to this day in such matters stand forth in a perfection which has never again been attained far less excelled Among the Hebrews there is nothing analogous nothing comparable to what we admire in the Hellenic people It has no epic nothing that can be compared with the Iliad and the Odyssey against which the Germans set the Nibelungen Lied and the Finns the Kalewala it has not the slightest rudiments of a drama the Song of Songs and Job are not dramas There is a school of lyrical poetry unsurpassed for all time and the music that corresponds to it But the bent towards science which actuates the Greeks is wholly lacking wholly lacking the bent towards 2 philosophy Nor was it ever eminent in ancient days in the walks of commerce enterprise and invention by which also a nation may conquer the world its intellectual life is absolutely one sided a one sidedness that produces on us the effect of extreme singularity But the attraction it has for us does not lie in this singularity It is due rather to the circumstance that this small nation has exerted a far greater influence over the course of the history of the whole human race than the Greeks or Romans that to us it has become typical in many more respects than they Our present modes of thought and feeling our lives and actions are far more profoundly influenced by the world of thought and feeling which Israel brought to the birth than by that of Greece or Rome Our whole civilisation to day is saturated with tendencies and impulses which have their origin in Israel To be continue in this ebook
