## **Place Called Home:**

**A Place Called Home** Richard O. Davies, David R. Pichaske, Joseph Anthony Amato, 2003 2004 Minnesota Book Award Winner The Midwestern small town has long held an iconic place in American culture from the imaginings of Sinclair Lewis's Main Street and Sherwood Anderson's Winesburg, Ohio to Garrison Keillor's Lake Wobegon. But the reality is much more complex as the small town has been a study in transition from its very inception. In *A Place Called Home* editors Richard O. Davies, Joseph A. Amato, and David R. Pichaske offer the first comprehensive examination of the Midwestern small town and its evolving nature from the 1800s to the present. This rich collection, gleaned from the best writings of historians, novelists, social scientists, poets, and journalists, features not only such well-known authors as Sherwood Anderson, Carol Bly, Willa Cather, Hamlin Garland, Langston Hughes, Garrison Keillor, William Kloefkorn, Sinclair Lewis, Susan Allen Toth, and Mark Twain, but also many lesser-known and exceptionally talented writers. Five chronological sections trace the founding, growth, and decline of the Midwestern town, and introductory comments illuminate its ever-changing face. The result is a wide-ranging collection of writings on the community at the heart of America.

**A Place Called Home** Chris Bobblett, 2012-08-09 This book is designed to help empower your relationships through practical principles from God's word. Married, divorced, or single, there is something for everyone.

**A Place Called Home** David Ambroz, 2022-09-13 This memoir that will take your breath away chronicles a harrowing journey through homelessness and poverty in New York City, followed by a turbulent experience in foster care. Jeanette Walls, New York Times bestselling author of *The Glass Castle*, This powerful memoir exposes the harsh realities faced by countless children living in poverty and highlights Ambroz's extraordinary resilience and transformation. As young children, David and his siblings should have been focused on school, but instead they wandered the streets searching for shelter, food, and warmth while their mother struggled with mental illness. When David is placed into foster care, he initially sees it as a beacon of hope, only to find that it brings its own set of dangers. Shuffled between abusive homes and enduring the cruelty of those who rejected him for his emerging sexuality, David's experience paints a stark picture of systemic failure. Amid the turmoil, David found refuge and hope in libraries, schools, and the kindness of a few compassionate adults. His unyielding determination and resilience earned him a scholarship to Vassar College, marking the beginning of his escape from poverty. He later graduated from UCLA Law with a mission to reform laws impacting children in poverty. *A Place Called Home* is a poignant journey from despair to hope. It is both a gripping personal story and a compelling call to action, urging readers to move beyond sympathy and advocate for meaningful change.

**A Place Called Home** Kim R. Manturuk, Mark R. Lindblad, Roberto G. Quercia, 2017-09-01 Since the onset of the mortgage lending crisis and the subsequent Great Recession, there has been ongoing debate about the economic benefits of homeownership. Some say homeownership remains an important contributor to wealth creation, while others believe that renting is a less expensive and less risky option. This debate has raised an interesting question about homeownership: if the home is not guaranteed to

provide a solid return on investment is there a rationale for promoting homeownership beyond whatever financial benefits it may deliver The authors research has provided tremendous insights into the extra financial effects of affordable homeownership It shows that homeowners when compared with renters have better health outcomes experience less stress in times of financial hardship experience a greater sense of trust in their neighbors have access to more social capital resources and are more likely to vote Further the data allows us to explore not only what benefits result from affordable homeownership but how and why these benefits are transferred The book ultimately argues that homeownership is not only important for financial reasons but also functions as a social tool that can improve the lives of low and moderate income people

**Designing a Place Called Home** James Wentling, 2016-12-28 This insightful volume shares design ideas to help builders planners and architects create mass produced affordable housing that pushes suburban development in more sustainable liveable directions The author argues that improving the quality of design in our new homes and communities for greater resiliency sustainability and equality we can build neighborhoods and communities where residents feel more connected to their homes and to one another Through text photographs and illustrations the book reviews prototypical American housing design then suggest ways to both learn from the past as well as adapt for new environmental imperatives demographic changes and lifestyle needs Written by a practicing architect with 25 years of experience optimizing residential design this pioneering approach to suburban building will inspire readers to view mass produced housing through a new modern lens

**Home** Alison Blunt, Robyn Dowling, 2022-05-30 Home articulates a critical geography of home in which home is understood as an emotive place and spatial imaginary that encompasses lived experiences of everyday domestic life alongside a wider and often contested sense of being and belonging in the world Engaging with the burgeoning cross disciplinary interest in home since the first edition was published this significantly revised and updated second edition contains new research boxes illustrations and contemporary examples throughout It also adds a new chapter on Home and the City that extends the scalar understanding of home to the urban The book develops the conceptual and methodological underpinnings of a critical geography of home drawing on key feminist postcolonial and housing thinkers as well as contemporary methodological currents in non representational thinking and performance The book's chapters consider the making and unmaking of home across the domestic scale house as home the urban city as home national nation as home and homemaking in relation to transnational migration and diaspora Each chapter includes illustrative examples from diverse geographical contexts and historical time periods Chapters also address some of the key cross cutting dimensions of home across these scales including digital connectivity art and performance more than human constructions of home and violence and dispossession The book ends with a research agenda for home in a world of COVID 19 The book provides an understanding of home that has three intersecting dimensions that material and imaginative geographies of home are closely intertwined that home power and identity are intimately linked and that geographies of home are multi scalar This

framework the examples used to illustrate it and the intended audience of academics and students across the humanities and social sciences will together shape the field of home studies into the future      **A Place Called District 12** Thomas W.

**in Law** Lorna Fox O'Mahony,James A. Sweeney,2016-03-03 The Idea of Home in Law Displacement and Dispossession explores an important set of legal and policy issues surrounding the concepts of home and homelessness taking a growing area of legal scholarship into the new arena of human rights and international law The collection considers the ideas concerning home both in the sense of the dwelling place as a special type of property and territorial claims to homeland

which underpin many contemporary legal problems by examining a range of contexts where people are displaced or dispossessed from their homes The essays focusing on dispossession consider themes ranging from mortgage and rent arrears in the UK to responses to the foreclosure crisis in the USA and from eviction for the purposes of economic development in South Africa to the exclusion of asylum seekers from the UK's social housing and welfare provision and within the framework of the European Convention on Human Rights The displacement theme meanwhile examines transnational home issues from the experiences of exiles and refugees in areas of conflict to the impact of the broader context of economic social and cultural rights on attempts to protect housing and home through international law At the heart of each essay the contributors experts from across the fields of law policy and housing rights examine the circumstances in which displacement and dispossession take place and reconsider how law and policy respond to such circumstances with a particular focus on the impact of loss of home for the human person At a time of particular and increasing concern about security of tenure and the role of law and policy in protecting people who are vulnerable to forced eviction *The Idea of Home in Law* presents a bold opportunity to raise questions about the rights and norms associated with housing and home and to generate new insights for scholarship and for national and international policy debates concerning displacement and dispossession

motif from the end of the 19th century to the present in a range of different types of comics including funnies and gag a day strips superhero comics underground comix and autobiographical comics      **From Storeroom to Stage** Alexandra
