Laing, 2012-09-05 Lesslie Newbigin 1909-1998 was one of the seminal theologians of mission in the twentieth century and perhaps the most important in the English speaking world His thinking was anchored in the practice of mission he was a

missionary in India a bishop of the Indian church and a leader in emerging international mission structures In his late years he pioneered research on how the gospel could engage with Western culture For many he is the founding father of the missional church movement This book is the first to address the crucial role Newbigin played in shaping ecumenical thinking on mission during the twentieth century filling an important gap in our knowledge of the development of twentieth century missional theology It does so by seeking to answer a central question in Newbigin's thinking How does mission relate to church Taking the integration of the International Missionary Council with the World Council of Churches as its central focus this book provides a unique history of crucial events in the ecumenical movement But more importantly through a study of Newbigin's role in the theological debate this book demonstrates how missional theology evolved during the postwar period when there was a sea change in understandings both of mission and church

Roger Sherman and the Creation of the American Republic Mark David Hall, 2013 One of leading figures of his day Roger Sherman was a member of the five man committee that drafted the Declaration of Independence and an influential delegate at the Constitutional Convention As a Representative and Senator in the new republic he had a hand in determining the proper scope of the national government's power as well as drafting the Bill of Rights In *Roger Sherman and the Creation of the American Republic* Mark David Hall explores Sherman's political theory and shows how it informed his many contributions to America's founding A close examination of Sherman's religious beliefs provides insight into how those beliefs informed his political actions Hall shows that Sherman like many founders was influenced by Calvinist political thought a tradition that played a role in the founding generation's opposition to Great Britain and led them to develop political institutions designed to prevent corruption promote

virtue and protect rights Contrary to oft repeated assertions that the founders advocated a strictly secular policy Hall argues persuasively that most founders believed Christianity should play an important role in the new American republic
