Places in the World a Person Could Walk David Syring, 2010-01-01 Spring fed creeks Old stone houses Cedar brakes and bleached limestone The Hill Country holds powerful sway over the imagination of Texans So many of us dream of having our own little place in the limestone hills The Hill Country feels just like home even if you ve never lived there This beautifully written book explores what the Hill Country has meant as a homeplace to the author his family and longtime residents of the area as well as to newcomers David Syring listens to the stories that his aunts uncles and cousins tell about life in the Hill Country and grapples with their meaning for his own search for a place to belong He also collects short stories focused around Honey Creek Church to consider how places become containers for memory And he draws upon several years of living in Fredericksburg to talk about the problems and opportunities created by heritage tourism and the development of the town as a home for German Americans These interconnected stories illuminate what it means to belong to a place and why the Texas Hill Country has become the spiritual if not actual home of many people [The SAGE Handbook of Cultural Anthropology](#) Lene Pedersen, Lisa Cliggett, 2021-03-31 The SAGE Handbook of Cultural Anthropology is the first instalment of The SAGE Handbook of the Social Sciences series and encompasses major specialities as well as key interdisciplinary themes relevant to the field Globally societies are facing major upheaval and change and the social sciences are fundamental to the analysis of these issues as well as the development of strategies for addressing them This handbook provides a rich overview of the discipline and has a future focus whilst using international theories and examples throughout The SAGE Handbook of Cultural Anthropology is an essential resource for social scientists globally and contains a rich body of chapters on all major topics relevant to the field whilst also presenting a possible road map for the future of the field Part 1 Foundations Part 2 Focal Areas Part 3 Urgent Issues Part 4 Short Essays Contemporary Critical Dynamics [Envisioning Human Geographies](#) Paul Cloke, Philip Crang, Mark Goodwin, 2014-02-24 Bringing together many of the leading human geographers from around the English speaking world Envisioning Human Geographies offers a series of personal visions for the future of human geography The result is a vigorous and far sighted debate about what human geography could and should be concerned with in the twenty first century The individual contributors develop their arguments to address the shape and direction of human geographies with each chapter looking forward and envisioning an intellectual future for the subject The result is a set of powerful statements written around the themes of space nature enclosure political economy non representation post colonialism feminism post structuralism computation morality spirituality activism The statements are tied via an introduction that discusses the ideological academic and aesthetic prompts that fire the human geographical imagination Envisioning Human Geographies maps out important new territories of enquiry for human geography and is essential reading for all students studying the nature and philosophy of the subject **Earth's Enemy a Satire on the Present from the Future** Barry C. Kent, 2013-05-13 Earths Enemy is a fiction about future changes in the way humans live In this incredible

culture humans have evolved a new technology society and ideology The changes were gradual and keyed to both a major decrease in population and a seemingly impossible alteration of the economy The setting is a century and a half from now and takes place largely in the area formerly called the United States Due to an unfortunate loss of most books and electronic storage devices much of history no longer exists Jack a psychologist has volunteered to explain the new culture to a number of humans from the turn of the 20th century who had undergone cryonics and are now being revived During these sessions Jack discovers many strange things about the past which the people of his time have forgotten Likewise few of the cryons are able to cope with the new culture to which Jack is introducing them In one way or another each of them is disappointed by the paucity of technological inventions Most are outraged or dismayed by the disappearance of so many things which they thought were an essential part of their way of life No more newspapers competitive sports nursing homes new music fossil fuel air travel space programs banks courtrooms prisons money multitudes of religions and only one language are generally unacceptable or incomprehensible to the cryons All of them seem pleased to learn that there is no more war crime poverty bigotry overpopulation or environmental pollution However when they discover the ridiculous changes in economy which have made the new way of life possible most of the cryons are willing to fight for a return to their old way of life **The**
