Roland,Jacques Bernier,2010-11-22 Volume Two of this retrospective bibliography is both a continuation and an expansion of Volume One 1984 It contains references to Canadian medical historical literature published between 1984 and 1998 and also includes much additional material published prior to 1984 Finally it substantially enlarges the content of French language material Every effort has been made to be as inclusive as possible of articles theses book chapters and books both in English and in French relating to the history of medicine No single electronic source can replace this bibliography The contents are divided into three sections The first is a listing of material expressly biographical Section

two lists material under a wide variety of subject headings related to medicine and the third is a complete listing of the authors who have contributed these articles Simply organized and easy to use this bibliography will be of value to historians archivists librarians and anyone interested in the history of medicine **Montreal, City of Spires** Clarence

Epstein,2012-03-19T00:00:00-04:00 Of the fifty religious buildings discussed in this book only a precious few remain standing despite the fact that Montreal boasts one of the largest and most eclectic groupings of Georgian and Victorian structures of any city in North America Following the British conquest of New France in 1759 a remarkable series of transformations took place in the small Catholic trading town of Montreal Given the diversity of settlers forced to live side by side the new church buildings that were to rise became strategic public spaces meeting places as well as power bases It was no wonder that by the time Mark Twain toured Canada s first metropolis in the 1880s he found that one could not throw a brick in the place without breaking a church window By addressing the social religious and architectural issues surrounding these colonial era structures it will become apparent that Montreal was at once a shining jewel in England s imperial crown a chief outpost of Catholicism in the New World as well as the British North American headquarters for more than a dozen independent congregations *Histories of Post-Mortem Contagion* Christos Lynteris,Nicholas H A Evans,2017-12-13 This edited volume

draws historians and anthropologists together to explore the contested worlds of epidemic corpses and their disposal Why are burials so frequently at the center of disagreement recrimination and protest during epidemics Why are the human corpses produced in the course of infectious disease outbreaks seen as dangerous not just to the living but also to the continued existence of society and civilization Examining cases from the Black Death to Ebola contributors challenge the predominant idea that a single universal framework of contagion can explain the political social and cultural importance and impact of the epidemic corpse **The Politics of Healing** Robert D. office alternative medicine is everywhere A recent survey found that more than two in five Americans uses some form of alternative medicine The Politics of Healing brings together top scholars in the fields of American history history of medicine anthropology sociology and politics to counter the view that alternative medical therapies fell into disrepute in the decades after physicians established their institutional authority during the Progressive Era From homeopathy to Navajo healing this volume explores a variety of alternative therapies and political movements that have set the terms of debate over North American healing methods Soap and Water & Common Sense Bonnie Henry,2020-03-31 The definitive guide to fighting

coronaviruses colds flus pandemics and deadly diseases from one of North America s leading public health authorities now updated with a new introduction on protecting yourself and others from COVID 19 Dr Bonnie Henry a leading epidemiologist microbe hunter and public health doctor at the forefront of the fight against the worldwide COVID 19 coronavirus outbreak has spent the better part of the last three decades chasing bugs all over the world from Ebola in Uganda to polio in Pakistan SARS in Toronto and the H1N1 influenza outbreak across North America Now she offers three simple rules to live by wash

your hands cover your mouth when you cough and stay at home when you have a fever From viruses to bacteria to parasites and fungi Dr Henry takes us on a tour through the halls of Microbes Inc providing up to date and accurate information on everything from the bugs we breathe to the bugs we eat and drink the bugs in our backyard and beyond Urgent and informative Soap and Water Common Sense is the definitive guide to staying healthy in a germ filled world Taking to the Streets Dan Horner,2020-07-23 The 1840s were a period of rapid growth and social conflict in Montreal The city s public life was marked by a series of labour conflicts and bloody sectarian riots at the same time the ways that elites wielded power and ordinary people engaged in the political process were changing particularly in public space In Taking to the Streets Dan Horner examines how the urban environment became a vital and contentious political site during the tumultuous period from the end of the 1837 38 rebellions to the burning of Parliament in 1849 Employing a close reading of newspaper and judicial archives he looks at a broad range of collective crowd experiences including riots labour demonstrations religious processions and parades By examining how crowd events were used both to assert claims of political authority and to challenge their legitimacy Horner charts the development of a contentious democratic political culture in British North America Taking to the Streets is an important contribution to the political and urban history of pre Confederation Canada and a timely reminder of how Montrealers from all walks of life have always used the streets to build community and make their voices heard Tax, Order, and Good Government E.A. Heaman,2017-06-08 Was Canada s Dominion experiment of 1867 an experiment in political domination Looking to taxes provides the answer they are a privileged measure of both political agency and political domination To pay one s taxes was the sine qua non of entry into political life but taxes are also the point of politics which is always about the control of wealth Modern states have everywhere been born of tax revolts and Canada was no exception Heaman shows that the competing claims of the propertied versus the people are hardwired constituents of Canadian political history Tax debates in early Canada were philosophically charged politically consequential dialogues about the relationship between wealth and poverty Extensive archival research from private papers commissions the press and all levels of government serves to identify a rising popular challenge to the patrician politics that were entrenched in the Constitutional Act of 1867 under the credo Peace Order and good Government Canadians wrote themselves a new constitution in 1867 because they needed a new tax deal one that reflected the changing balance of regional racial and religious political accommodations In the fifty years that followed politics became social politics and a liberal state became a modern administrative one But emerging conceptions of fiscal fairness met with intense resistance from conservative statesmen culminating in 1917 in a progressive income tax and the bitterest election in Canadian history Tax Order and Good Government tells the story of Confederation without exceptionalism or misplaced sentimentality and in so doing reads Canadian history as a lesson in how the state works Tax Order and Good Government follows the money and returns taxation to where it belongs at the heart of Canada s political economic and social history On All Frontiers

Social Policy and Practice in Canada Alvin Finkel, 2012-05-09 Social Policy and Practice in Canada A History traces the history of social policy in Canada from the period of First Nations control to the present day exploring the various ways in which residents of the area known today as Canada have organized themselves to deal with or to ignore the needs of the ill the poor the elderly and the young This book is the first synthesis on social policy in Canada to provide a critical perspective on the evolution of social policy in the country While earlier work has treated each new social program as a major advance and reacted with shock to neoliberalism's attack on social programs Alvin Finkel demonstrates that right wing and left wing forces have always battled to shape social policy in Canada He argues that the notion of a welfare state consensus in the period after 1945 is misleading and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted Social Policy and Practice in Canada A History begins by exploring the non state mechanisms employed by First Nations to insure the well being of their members It then deals with the role of the Church in New France and of voluntary organizations in British North America in helping the unfortunate After examining why voluntary organizations gradually gave way to state controlled programs the book assesses the evolution of social policy in Canada in a variety of areas including health care treatment of the elderly child care housing and poverty

Writing History Michael Bliss, 2011-09-20 One of Canada's best known and most honoured biographers turns to the raw material of his own life in Writing History A university professor prolific scholar public intellectual and frank critic of the world he has known Michael Bliss draws on extensive personal diaries to describe a life that has taken him from small town Ontario in the 1950s to international recognition for his books in Canadian and medical history His memoir ranges remarkably widely it encompasses social history family tragedy a critical insider's view of university life Canadian national politics and above all a rare glimpse into the craftsmanship that goes into the research and writing of history in our time Whether writing about pigs and millionaires the discovery of insulin sleazy Canadian politicians or the founders of modern medicine and brain surgery Michael Bliss is noted for the clarity of his prose the honesty of his opinions and the breadth of his literary interests

Families in Transition Peter Gossage, 1999 Using a family reconstruction method Gossage history U de Sherbrooke explores how the rise of industrial capitalism transformed the lives of the Quebec town's French speaking Catholic families He draws on local registers and manuscript census schedules to focus on marriage household organization and family size in the context of the social and economic change Among his findings are a growing divergence between bourgeois and proletarian families in regard to marriage and fertility patterns Annotation copyrighted by Book News Inc Portland OR

Viruses, Plagues, and History Michael B. A. Oldstone, 2020 In Viruses Plagues and History virologist

Michael Oldstone explains the scientific principles of viruses and epidemics while relating the past and present history of the major and recurring viral threats to human health and how they have influenced human events Meeting of the People Roderick MacLeod, Mary Anne Poutanen, 2004-06-03 In A Meeting of the People Roderick MacLeod and Mary Anne Poutanen look at the Protestant public education system and the communities that established and were served by its schools from the origins of public education in 1801 to the dissolution of confessional school boards in 1998 They focus on key issues such as class ethnicity religion gender health and welfare patriotism and the nature of local administration bringing to life the people who attempted to establish and maintain schools and considering relationships between school trustees parents teachers and the wider public Their analysis shows that communities recognized the importance of providing schooling despite what were often bleak circumstances The authors show that Protestant families often had to make a difficult choice between supporting better educational facilities in a central place far away or encouraging the survival of the local community through maintaining one of its key institutions the local school They explore the ambiguous nature of Protestant education at times understood as schooling reserved for a religious minority and at others as a liberal approach similar to public schooling across North America The Protestant community begun as a British element within a small colony has developed into a diverse array of people from across the religious spectrum periodically redefining itself to meet the needs of a changing Quebec society

Vaccine: The Controversial Story of Medicine's Greatest Lifesaver Arthur Allen, 2008-05-17 A timely fair minded and crisply written account New York Times Book Review Vaccine juxtaposes the stories of brilliant scientists with the industry's struggle to produce safe effective and profitable vaccines It focuses on the role of military and medical authority in the introduction of vaccines and looks at why some parents have resisted this authority Political and social intrigue have often accompanied vaccination from the divisive introduction of smallpox inoculation in colonial Boston to the 9 000 lawsuits recently filed by parents convinced that vaccines caused their children's autism With narrative grace and investigative journalism Arthur Allen reveals a history illuminated by hope and shrouded by controversy and he sheds new light on changing notions of health risk and the common good
