Kerry Abel, Jean Friesen, 1991-01-15 This volume addresses a wide range of topics related to Aboriginal resource use ranging from the pre contact period to the present The papers were originally presented at a conference held in 1988 at the University of Winnipeg Co editor Kerry Abel has written an introduction that outlines the main themes of the book She points out that it is difficult to know what the enshrinement of Aboriginal rights in the Canadian Constitution means without knowing exactly what constituted the Aboriginal interest in the land past and present She also summarizes some of the developments in the rapidly evolving concept of Aboriginal rights The Ojibwa of Western Canada 1780-1870

Laura Peers, 2009-09-08 Among the most dynamic Aboriginal peoples in western Canada today are the Ojibwa who have played an especially vital role in the development of an Aboriginal political voice at both levels of government Yet they are relative newcomers to the region occupying the parkland and prairies only since the end of the 18th century This work traces the origins of the western Ojibwa their adaptations to the West and the ways in which they have coped with the many challenges they faced in the first century of their history in that region between 1780 and 1870 The western Ojibwa are descendants of Ojibwa who migrated from around the Great Lakes in the late 18th century This was an era of dramatic change Between 1780 and 1870 they survived waves of epidemic disease the rise and decline of the fur trade the depletion of game the founding of non Native settlement the loss of tribal lands and the government's assertion of political control over them As a people who emerged adapted and survived in a climate of change the western Ojibwa demonstrate both the effects of historic

forces that acted upon Native peoples and the spirit determination and adaptive strategies that the Native people have used to cope with those forces This study examines the emergence of the western Ojibwa within this context seeing both the cultural changes that they chose to make and the continuity within their culture as responses to historical pressures The Ojibwa of Western Canada differs from earlier works by focussing closely on the details of western Ojibwa history in the crucial century of their emergence It is based on documents to which pioneering scholars did not have access including fur traders and missionaries journals letters and reminiscences Ethnographic and archaeological data and the evidence of material culture and photographic and art images are also examined in this well researched and clearly written history

Severing the Ties that Bind Katherine Pettipas, 1994-10-28 Religious ceremonies were an inseparable part of Aboriginal traditional life reinforcing social economic and political values However missionaries and government officials with ethnocentric attitudes of cultural superiority decreed that Native dances and ceremonies were immoral or un Christian and an impediment to the integration of the Native population into Canadian society Beginning in 1885 the Department of Indian Affairs implemented a series of amendments to the Canadian Indian Act designed to eliminate traditional forms of religious expression and customs such as the Sun Dance the Midewiwin the Sweat Lodge and giveaway ceremonies However the amendments were only partially effective Aboriginal resistance to the laws took many forms community leaders challenged the legitimacy of the terms and the manner in which the regulations were implemented and they altered their ceremonies the times and locations the practices in an attempt both to avoid detection and to placate the agents who enforced the law Katherine Pettipas views the amendments as part of official support for the destruction of indigenous cultural systems She presents a critical analysis of the administrative policies and considers the effects of government suppression of traditional religious activities on the whole spectrum of Aboriginal life focussing on the experiences of the Plains Cree from the mid 1880s to 1951 when the regulations pertaining to religious practices were removed from the Act She shows how the destructive effects of the legislation are still felt in Aboriginal communities today and offers insight into current issues of Aboriginal spirituality including access to and use of religious objects held in museum repositories protection of sacred lands and sites and the right to indigenous religious practices in prison

Elder Brother and the Law of the People Robert Alexander Innes, 2013-11-30 In the pre reserve era Aboriginal bands in the northern plains were relatively small multicultural communities that actively maintained fluid and inclusive membership through traditional kinship practices These practices were governed by the Law of the People as described in the traditional stories of W sashk c hk or Elder Brother that outlined social interaction marriage adoption and kinship roles and responsibilities In Elder Brother and the Law of the People Robert Innes offers a detailed analysis of the role of Elder Brother stories in historical and contemporary kinship practices in Cowessess First Nation located in southeastern Saskatchewan He reveals how these tradition inspired practices act to undermine legal and scholarly definitions of Indian and counter the perception that First Nations people have internalized such classifications He presents Cowessess s successful negotiation of the 1996 Treaty Land Agreement and their high inclusion rate of new Bill C31s as evidence of the persistence of historical kinship values and their continuing role as the central unifying factor for band membership Elder Brother and the Law of the People presents an entirely new way of viewing Aboriginal cultural identity on the northern plains
