Road To Infinity:

Elemental Luther E. Vann, Aberjhani, 2008 **ELEMENTAL** The Power of Illuminated Love is the product of two individuals combined creative and spiritual visions It features some 64 paintings by celebrated artist Luther E Vann with more than approximately 50 accompanying poems and two essays by award winning author Aberjhani The art spanning the early 1970s to 2007 expresses Vann s perception of spiritual principles active in the personal and public lives of people in New York and Savannah Introductory essays comment on Vann s life and his art The poems complement the art with themes that explore issues like war homelessness the nature of love and expanded spiritual consciousness **Sociality and Justice** Maria Dimitrova, 2016-10-11 Building on the work of Emmanuel Levinas this groundbreaking book puts the phenomenological paradigm into a new perspective Overcoming the focus on self reflection of the thinking subject and instead arguing for the importance of sociality as responsibility for the Other this new approach is based on intersubjectivity and introduces a social dimension in phenomenology This also allows for a different interpretation of the notion of justice which in this context sits in the space between the one the other and the third before settling into any relation to the law In the vast area inhabited by more or less distant others moral responsibility is implemented through the establishment and maintenance of just institutions **Burning Down The House** Rosemary Marangoly George, 2019-04-09 This book views domesticity through multiple frames and surveys the rhetoric and practices of domestication in contemporary cultures It also examines the consequences and costs of homemaking in various geographic and textual locations *Twins to the Tops The Highpoints of Canada's Provinces and Territories* Eric Gilbertson, Matthew Gilbertson, 2023-08-22 Can we stop for another breather I yelled up to Matthew I was exhausted after wading through deep snow for the last three hours while making seemingly no progress up the steep slope We were each hauling about 60 pounds of gear to cache higher up on the mountain and it was tough work We split the gear up between backpacks and sleds but had to strike a balance too much gear on our backs made us sink deeper into the snow but too much in the sleds pulled us back down the slope Yeah but now it s your turn to break trail Matthew shouted back It was Day 8 of our expedition on Mt Logan and we had just ridden out a three day storm at King Col at 13 500 ft We were taking advantage of a brief clearing to try to haul some gear up and over the headwall the steepest part of the King Trench route But the storm had dumped a lot of fresh snow and progress was painfully slow Excerpt from Mt Logan Report Long drives short hikes long hikes bushwhacks mountain bikes kayaks month long expeditions acclimation helicopters commercial flights bus rides bush planes ski planes float planes boats pack rafts glacier travel near the North Pole snow storms snow shoes skis sleds extreme cold a 20 30 pitch rock climb and thousands of miles driving This book documents the journeys of Eric and Matthew Gilbertson to summit all 12 diverse and challenging highpoints of Canada s provinces and territories While this is a short list of peaks it is still extremely difficult Several of the mountains require serious mountaineering and expedition skills Up to 2023 Eric is the fifth person to climb all 12 peaks and Matthew is near

finishing Eric and Matthew Gilbertson were born in Berea Kentucky USA in 1986 and started hiking with their Dad in the nearby hills and hollers of Kentucky as soon as they could walk Before that their parents Keith and Mary Kay carried them on their backs on hikes They have climbed the highest point in 140 countries as of June 2023 Please visit our website for more info [http www countryhighpoints com](http://www.countryhighpoints.com) *Merope n. 61-62 Aa.Vv.,* **Smart Sensors Measurement and**
