

"Convincing . . . Currie's argument is just about airtight."  
—Jonathan Yardley, *The Washington Post*

A group of young people, likely teenagers, are sitting on a concrete ledge or wall. They are looking out over a body of water, possibly a beach or a harbor. The image is slightly blurred, focusing on the text. The people are wearing casual clothing, including a blue beanie and a red jacket. The background shows a hazy landscape with some trees and buildings in the distance.

**Road to Whatever** Elliott Currie, 2005      **The Road to Whatever** Elliott Currie, 2024-03-26 From the Pulitzer Prize finalist a sharp and compassionate investigation of the root causes of the epidemic of drug abuse violence and despair among mainstream American teenagers In the past few years it has become painfully clear that all is not well with the children of middle class America Beyond the shootings at Columbine hardly a day goes by without stories of drug use binge drinking fatal accidents and senseless suicides among middle class adolescents But the why of these tragedies has eluded us In this groundbreaking book acclaimed sociologist and Pulitzer Prize finalist Elliott Currie rejects such predictable answers as TV violence permissiveness and inherent evil Instead drawing on years of interviews he links this crisis to a pervasive culture of exclusion that has left young people facing an ever more unforgiving world Currie describes a society in which severe punishment and zero tolerance of adolescent misbehavior have become the norm where tough love and medications have replaced engagement and guidance Broadening his inquiry he dissects the changes in middle class life that have enforced newly rigid divides between winners and losers and imposed an extraordinarily harsh culture and not just on kids Vivid compelling and deeply empathetic *The Road to Whatever* is a profound investigation of what has gone wrong for so many American teenagers and a stark indictment of a society that has lost the will or the capacity to care      *The Teacher's Attention* Garrett Delavan, 2009-04-27 *The Teacher's Attention* is a fresh take on relationships in schools Looking beyond our obsession with raising test scores this book recognizes that education is a key partner in raising children Garrett Delavan contends that allowing students educators and parents to navigate a smaller number of relationships a concept he calls relationship load provides many benefits including a better chance at achieving equal access to a good education for all children Delavan shows how class size school size and longer term student teacher relationships are all equally critical components for educating our children ethically and successfully After examining these proposed reforms in detail Delavan also considers counterarguments and provides a detailed projection of costs and savings putting to rest the assumption that smaller classes and smaller schools are necessarily more expensive Finally the book discusses possible steps toward implementation showing how the author's proposed reforms are remarkably practical      *Hurt 2.0* () Chap Clark, 2011-06-01 *Hurt* provided a vivid and insightful view into the world of today's teenagers Now leading youth ministry expert Chap Clark substantially updates and revises his groundbreaking bestseller over 55 000 copies sold *Hurt 2.0* features a new chapter on youth at society's margins and new material on social networking and gaming Each chapter has been thoroughly revised with new research statistics quotations and documentation Praise for the first edition Based on solid research and years of insightful observation *Hurt* offers a deep and penetrating look into the contemporary adolescent experience that will serve us

well as we work to have a prophetic preventive and redemptive influence on the world of today's youth culture Walt Mueller Center for Parent Youth Understanding A daring yet hopeful glance into the underworld of teen promiscuity self mutilation and suicide A groundbreaking resource for parents youth ministers and counselors ForeWord Clark's classic book is highly recommended by youth workers and educators who write about teenage stress It is foundational reading that provides valuable insight into the hurting hearts of young people YouthWorker Journal Clark has been stepping inside the world of teenagers for many years This book is a unique invitation for us to join him in their world When we finish this journey we will care more about kids and understand who they are and the challenges they face Denny Rydberg Young Life Drawing together research from many others along with his fresh exploration into the world beneath Clark paints a compelling picture of adolescent life This book is a must read for anyone who has any contact with adolescents Journal of Youth Ministry

**Policing: Toward an Unknown Future** John Crank, Colleen Kadleck, 2013-12-16 The enclosed papers are the culmination of a project Dr John Crank and Dr Colleen Kadleck carried out assessing issues facing the police into the early 21st century The papers are future oriented in the sense that they anticipate trends visible today Everywhere the contributing scholars found that the organizational concept practice and function of the police were undergoing transition Yet the seeming state level hardening of the police function was ubiquitous Two themes were noteworthy On the one hand in developing or second world countries police face endemic problems of corruption organized crime and drugs Police in response are undergoing centralization and intensification of law enforcement activities In countries with first world economies Canada the United States and Australia contributors discovered trends toward expansion of the police function a trend described by Brodeur as toward high policing It reflects the growing reliance on surveillance for crime control and for the tracking of minority indigenous and immigrant populations in crime prevention efforts The results suggest that governments sometimes encouraged by their citizenry seem increasingly to rely on the police to deal with a broad array of social as well as criminal problems This book was originally published as a special issue of Police Practice and Research

**Encyclopedia of Criminological Theory** Francis T. Cullen, Pamela Wilcox, 2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological Theory available in both print and electronic formats This serves

as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory     Social Participation in Occupational Contexts Marilyn B. Cole, Mary V. Donohue, 2011 Social participation naturally occurs in everyday life in combination with daily occupations such as when people interact while eating playing carpooling and working This book provides information on social participation for different occupations     *What Can Parents Do?* Margaret Kerr, Håkan Stattin, Rutger C. M. E. Engels, 2008-04-15 In recent years research on parenting has changed stance from one where parents shape child outcomes to an interactive perspective However this shift is only now transferring to adolescents with research exploring how the roles that adolescents and parents play in their interactions can lead to problem behaviour Part of the Hot Topics in Developmental Research series this book presents the new perspective     Routledge Handbook of Critical Criminology Walter S. DeKeseredy, Molly Dragiewicz, 2018-04-09 The main objective of the second edition of the Routledge Handbook of Critical Criminology is twofold 1 to provide original chapters that cover contemporary critical criminological theoretical offerings generated over the past five years and 2 to provide chapters on important new substantive topics that are currently being studied and theorized by progressive criminologists Special attention is devoted to new theoretical directions in the field such as southern criminology queer criminology and green criminology The diverse chapters cover not only cutting edge theories but also the variety of research methods used by leading scholars in the field and the rich data generated by their rigorous empirical work In addition some of the chapters suggest innovative and realistic short and long term policy proposals that are typically ignored by mainstream criminology These progressive strategies address some of the most pressing social problems facing contemporary society today which generate much pain and suffering for socially and economically disenfranchised people The new edition of the Handbook is a major work in redefining areas within the context of international multidisciplinary critical research and in highlighting emerging areas such as human trafficking Internet pornography and image based sexual abuse It is specifically designed to be a comprehensive resource for undergraduate and postgraduate students researchers and policymakers     **The First Year Out** Tim Clydesdale, 2008-09-15 Wild parties late nights and lots of sex drugs and alcohol Many assume these are the things that define an American teenager's first year after high school But the reality is really quite different As Tim Clydesdale reports in *The First Year Out* teenagers generally manage the increased responsibilities of everyday life immediately after graduation effectively But like many good things this

comes at a cost Tracking the daily lives of fifty young people making the transition to life after high school Clydesdale reveals how teens settle into manageable patterns of substance use and sexual activity how they meet the requirements of postsecondary education and how they cope with new financial expectations Most of them we learn handle the changes well because they make a priority of everyday life But Clydesdale finds that teens also stow away their identities religious racial political or otherwise during this period in exchange for acceptance into mainstream culture This results in the absence of a long range purpose for their lives and imposes limits on their desire to understand national politics and global issues sometimes even affecting the ability to reconstruct their lives when tragedies occur The First Year Out is an invaluable resource for anyone caught up in the storm and stress of working with these young adults

*The Study of Children in Religions* Susan B. Ridgely, 2011-09 Research in religious studies has traditionally focused on adult subjects since working with children presents significantly more challenges to the researcher such as getting the research protocol passed by the Internal Review Board obtaining permission from parents and schools and figuring out how to make sense of young worldviews The Study of Children in Religions provides scholars with a comprehensive source to assist them in addressing many of the issues that often stop researchers from pursuing projects involving children This handbook offers a broad range of methodological and conceptual models for scholars interested in conducting work with children It not only illuminates some of the legal and ethical issues involved in working with youth and provides guidance in getting IRB approval but also presents specific case studies from scholars who have engaged in child centred research and here offer the fruits of their experience Cases include those that use interviews and drawings to work with children in contemporary settings as well as more historically focused endeavours to use material culture such as Sunday school projects or religious board games to study children's religious lives in past eras The Study of Children in Religions offers concrete help to those who wish to conduct research on children and religion but are unsure of how to get started or how to frame their research Contributors Priscilla Alderson Sally Anderson Jennifer Beste Chris Boyatzis Ann Braude Pia Christensen Cindy Dell Clark Amy Holmes Tagchungdarpa Moira Hinderer Zohreh Kermani Ruqayya Khan Phillipa Koch Kristy Nabhan Warren Rebecca Sachs Norris Sarah Pike Susan B Ridgely E Burke Rochford Jr and Diane Wolf Susan B Ridgely is Assistant Professor at University of Wisconsin at Oshkosh and the author of When I Was a Child Children's Interpretations of First Communion

**Drinking Dilemmas** Thomas Thurnell-Read, 2015-12-14 Drinking and drunkenness have become a focal point for political and media debates to contest notions of responsibility discipline and risk yet at the same time academic studies have highlighted the positive aspects of drinking in relation to sociability belonging and identity These issues are at the heart of this volume which brings together the work of academics and researchers exploring social and cultural aspects of contemporary drinking practices These drinking practices are enormously varied and are spatially and culturally defined The contributions to the volume draw on research settings from across the UK and beyond to demonstrate both the complexity and diversity of

drinking subjectivities and practices Across these examples tensions relating to gender social class age and the life course are particularly prominent Rather than align to now long established moral discourses about what constitutes good and bad drinking sociological approaches to alcohol foreground the vivid lived nature of alcohol consumption and the associated experiences of drunkenness and intoxication In doing so the volume illuminates the controversial yet important social and cultural roles played by drink for individuals and groups across a range of social contexts

**Parkour, Deviance and Leisure in the Late-Capitalist City** Thomas Raymen, 2018-12-05 This book examines the contradictions surrounding popular lifestyle sports such as parkour and freerunning and their exclusion from our hyper regulated city centres The author combines ethnographic data and complex theory to move beyond tropes of resistance and acknowledge and explain the paradox of parkour against a backdrop of late capitalism

AIDS in America Susan Hunter, 2025-09-23 With more than one million people currently infected and half a million already dead the U S ranks among the top ten most severe AIDS epidemics in the world Americans should know more about the current state of the epidemic so they can protect themselves and demand that the government act responsibly to reduce the danger of HIV in this country Hunter exposes the ways in which the U S shamefully resembles a developing country and the many fronts on which the government has failed to control the spread of the disease In this startling book she also shows what we must do to change the future of AIDS

Child and Adolescent Psychotherapy David A. Crenshaw, 2008-09-26 This edited collection by David A Crenshaw with contributions from such notables as James Garbarino Kenneth V Hardy and Andrew Fussner addresses the multiple sources of wounding of children and teens in contemporary life The book conveys a message of hope and optimism even in work with children who might be viewed as impossible cases because the contributors share a passion for utilizing and building on the strengths of children and families These authors go beyond treating psychiatric symptoms to address in a more comprehensive way the emotional suffering of youth The unifying treatment framework for the book is relational therapy The emotional injuries of children do not develop in a vacuum but rather in a relational context and healing must also be embedded in an empathic relationship between the child and the family Building repairing and restoring connections within the family and the larger community as well as within the therapeutic relationship opens the door to growth healing and meaningful belonging The stories of triumph over adversity by the courageous children and families in this book will inspire those who daily strive to make a meaningful difference in the lives of hurting youth to renew their commitment to this worthy mission

**Women's Imprisonment in Eastern Europe** Arta Jalili Idrissi, 2023-11-16 The first qualitative study based on an ethnographic approach to women's carceral experiences in Latvia this book draws parallels across Eastern Europe and throughout the neoliberal West to provide a refreshing and timely addition to the study of criminology and the sociology of imprisonment

The Rich Get Richer and the Poor Get Prison Jeffrey Reiman, Paul Leighton, 2023-04-28 For 40 years this classic text has taken the issue of economic inequality seriously and asked Why are our prisons filled with the poor Why aren't the tools of the criminal justice system being used to protect Americans from predatory business practices and to punish well off people who cause widespread harm This new edition continues to engage readers in important exercises of critical thinking Why has the U S relied so heavily on tough crime policies despite evidence of their limited effectiveness and how much of the decline in crime rates can be attributed to them Why does the U S have such a high crime rate compared to other developed nations and what could we do about it Are the morally blameworthy harms of the rich and poor equally translated into criminal laws that protect the public from harms on the streets and harms from the suites How much class bias is present in the criminal justice system both when the rich and poor engage in the same act and when the rich use their leadership of corporations to perpetrate mass victimization The Rich Get Richer the Poor Get Prison shows readers that much of what goes on in the criminal justice system violates citizens sense of basic fairness It presents extensive evidence from mainstream data that the criminal justice system does not function in the way it says it does nor in the way that readers believe it should The authors develop a theoretical perspective from which readers might understand these failures and evaluate them morally and they do it in a short text written in plain language Readers who are not convinced about the larger theoretical perspective will still have engaged in extensive critical thinking to identify their own taken for granted assumptions about crime and criminal justice as well as uncover the effects of power on social practices This engagement helps readers develop their own worldview New to this edition Presents recent data comparing the harms due to criminal activity with the harms of dangerous but not criminal corporate actions Updates research on class discrimination at every stage of the criminal justice system Updates statistics on crime victimization incarceration and wealth Increased material for thinking critically about criminal justice and criminology New material on global warming and why Black Lives Matter protests did not cause increases in crime in 2020 Expanded discussion of marijuana and drug legalization Stronger chapter overviews clearer chapter structure and expanded review questions Streamlined and condensed prose for greater clarity
