The first vampires driven from their home find themselves locked in a struggle for survival The King of the Elves sends an army to destroy them and the only escape is north Their last hope may lie in the walled frontier town of Dundari or beyond in the White Wastes a land of ice and snow completely empty of life or so everyone thinks A novella *Serengeti II* A. R. E. Sinclair, Peter Arcese, 1995-08 *Serengeti II* Dynamics Management and Conservation of an Ecosystem brings together twenty years of research by leading scientists to provide the most thorough understanding to date of the spectacular Serengeti Mara ecosystem in East Africa home to one of the largest and most diverse populations of animals in the world Building on the groundwork laid by the classic *Serengeti Dynamics of an Ecosystem* published in 1979 by the University of Chicago Press this new book integrates studies of the ecosystem at every level from the plants at the bottom of the visible food chain to the many species of herbivores and predators to the system as a whole Drawing on new data from many long term studies and from more recent research initiatives and applying new theory and computer technology the contributors examine the large scale processes that have produced the Serengeti's extraordinary biological diversity as well as the interactions among species and between plants and animals and their environment They also introduce computer modeling as a tool for exploring these interactions employing this new technology to test and anticipate the effects of social political and economic changes on the entire ecosystem and on particular species and so to shape future conservation and management strategies
