The Role of the Public Bureaucracy in Policy

Implementation in Five ASEAN Countries Jon S. T. Quah, 2016-02-12 This pioneering book addresses an important gap in the literature by comparing the role of the public bureaucracies in policy implementation in Indonesia Malaysia the Philippines Singapore and Vietnam It highlights the importance of the policy context especially the commitment of the

government in allocating the necessary resources and the support of the implementers as well as the public bureaucracy's effectiveness as the critical factors responsible for effective policy implementation. The comparative analysis shows that the public bureaucracies in Singapore and Malaysia are more effective in policy implementation than their counterparts in Indonesia, the Philippines, and Vietnam because of their favourable policy contexts and higher level of organizational effectiveness. The focus on policy context and the public bureaucracy's role in the policy making process and its implementation of two ASEAN policies will be of interest to policymakers, civil servants, scholars, and students concerned with enhancing policy implementation in the ASEAN countries.

Accountability in education: meeting our commitments

UNESCO, 2017-10-30. The second edition of the Global Education Monitoring Report (GEM Report) presents the latest evidence on global progress towards the education targets of the UN Sustainable Development Goals. With hundreds of millions of people still not going to school and many not achieving minimum skills at school, it is clear education systems are off track to achieve global goals. The marginalized currently bear the most consequences but also stand to benefit the most if policy makers pay sufficient attention to their needs. Faced with these challenges along with tight budgets and increased emphasis on results-oriented value for money, countries are searching for solutions. Increased accountability often tops the list. The 2017 GEM Report shows the entire array of approaches to accountability in education. It ranges from countries unused to the concept where violations of the right to education go unchallenged to countries where accountability has become an end in itself instead of a means to inclusive, equitable, and high quality education and lifelong learning for all. The report emphasizes that education is a shared responsibility. While governments have primary responsibility, all actors—schools, teachers, parents, students, international organizations, private sector providers, civil society, and the media—have a role in improving education systems. The report emphasized the importance of transparency and availability of information but urges caution in how data are used. It makes the case for avoiding accountability systems with a disproportionate focus on narrowly defined results and punitive sanctions. In an era of multiple accountability tools, the report provides clear evidence on those that are working and those that are not.

Poverty in the Philippines. Asian Development Bank, 2009-12-01. Against the backdrop of the global financial crisis and rising food, fuel, and commodity prices, addressing poverty and inequality in the Philippines remains a challenge. The proportion of households living below the official poverty line has declined slowly and unevenly in the past four decades, and poverty reduction has been much slower than in neighboring countries such as the People's Republic of China, Indonesia, Thailand, and Viet Nam. Economic growth has gone through boom and bust cycles, and recent episodes of moderate economic expansion have had limited impact on the poor. Great inequality across income brackets, regions, and sectors, as well as unmanaged population growth, are considered some of the key factors constraining poverty reduction efforts. This publication analyzes the causes of poverty and recommends ways to accelerate poverty reduction and achieve more inclusive growth. It

also provides an overview of current government responses strategies and achievements in the fight against poverty and identifies and prioritizes future needs and interventions The analysis is based on current literature and the latest available data including the 2006 Family Income and Expenditure Survey State and Society in the Philippines Patricio N. Abinales, Donna J. Amoroso, 2017-07-06 This clear and nuanced introduction explores the Philippines ongoing and deeply charged dilemma of state society relations through a historical treatment of state formation and the corresponding conflicts and collaboration between government leaders and social forces Patricio N Abinales and Donna J Amoroso examine the long history of institutional weakness in the Philippines and the varied strategies the state has employed to overcome its structural fragility and strengthen its bond with society The authors argue that this process reflects the country s recurring dilemma on the one hand is the state s persistent inability to provide essential services guarantee peace and order and foster economic development on the other is the Filipinos equally enduring suspicions of a strong state To many citizens this powerfully evokes the repression of the 1970s and the 1980s that polarized society and cost thousands of lives in repression and resistance and billions of dollars in corruption setting the nation back years in economic development and profoundly undermining trust in government The book s historical sweep starts with the politics of the pre colonial era and continues through the first year of Rodrigo Duterte s controversial presidency *The MacArthur Highway and Other Relics of American Empire in the Philippines* Joseph P. McCallus, 2010 It has been more than a century since the American conquest and subsequent annexation of the Philippines Although the nation was given its independence in 1946 American cultural authority remains In order to locate and lend significance to the relics of American empire Joseph McCallus retraces the route Gen Douglas MacArthur took during his liberation of the country from the Japanese in 1944 and 1945 While following MacArthur s footsteps he provides a historical and geographical account of this iconic soldier s military career accompanied by a description of the contemporary Philippine landscape McCallus uses the past and the present to explore how America influenced the country s political and educational systems and language as well as the ramifications of the continued U S military presence and the effects of globalization on traditional Filipino society He examines the American influence on its architecture and introduces to the reader the American expatriate business community people who have lived in the Philippines for decades and continue to help shape the nation The MacArthur Highway and Other Relics of American Empire in the Philippines is an absorbing look at how American military intervention and colonial rule have indelibly shaped a nation decades after the fact
