Shall America Be Defended Salt II And Beyond:

Shall America be Defended? Daniel Orrin Graham, 1979 Coercion, Cooperation, and Ethics in International Relations Richard Ned Lebow, 2007 This collection offers a useful framework for thinking about America's role in the current world and the most efficient ways of translating American power into influence A substantive overview of Lebow's views on ethics and foreign policy and the future of international relations theory this book represents a major statement by a pre eminent thinker

Shall America be Defended? Daniel Orrin Graham, 1979 The Origins of SDI, 1944-1983 Donald R. Baucom, 1992 Most people think Star Wars began with the ideas of Ronald Reagan but its roots reach decades further back In this first scholarly account of the origins of the Strategic Defense Initiative SDI historian Don Baucom traces these roots back to the dawn of the missile age in 1944 He finds SDI emerging after a period of nearly 40 years from forces generated by technological developments changing strategic conditions and the collapse of the SALT arms control negotiations of the 1970s

National Security Affairs Monograph Series, 1976 The Soviet View of U.S. Strategic Doctrine Jonathan Samuel Lockwood, 1983-01-01 Soviet perceptions of American strategic doctrine have influenced then use of military power in foreign policy An understanding of how those perceptions are being derived at and of their specific contents is therefore essential to any reflection on direction that American defense policy should take Particularly in the field of arms control and disarmament Soviet perceptions carry severe implications for U S proposals as well as general behavior Lockwood bases his examination on Soviet sources such as newspapers periodicals radio broadcasts and books He establishes that Soviet analysts tend to project their own notions of clear strategy onto U S doctrine and intentions Starting from the premise that the Soviets mean what they say Lockwood is able to give a historical account of Soviet perceptions starting from massive retaliation up to and including Presidential Directive 59 In his final chapter the author gives possible policy strategies to successfully counteract the Soviet military policy

Causes of War Stephen Van Evera, 2013-01-15 What causes war How can military conflicts best be prevented In this book Stephen Van Evera frames five conditions that increase the risk of interstate war false optimism about the likely outcome of a war a first strike advantage fluctuation in the relative power of states circumstances that allow nations to parlay one conquest into another and circumstances that make conquest easy According to Van Evera all but one of these conditions false optimism rarely occur today but policymakers often erroneously believe in their existence He argues that these misperceptions are responsible for many modern wars and explores both World Wars the Korean War and the 1967 Mideast War as test cases Finally he assesses the possibility of nuclear war by applying all five hypotheses to its potential onset Van Evera's book demonstrates that ideas from the Realist paradigm can offer strong explanations for international conflict and valuable prescriptions for its control

Strategic Review, 1981 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States

Perceptions and Behavior in Soviet Foreign Policy Richard K.

Herrmann,2010-11-23 This book discerns Soviet leaders views of the United States and sees them in relation to foreign policy statements and actions Hermann first examines the subtle problem of analyzing perceptions and interpreting motives from the words and deeds of national leaders He then turns to cases measuring the dominant U S hypotheses about the USSR against Soviet behavior in Central Europe the Middle East Africa and Asia as well as Soviet participation in the arms race Finally he weighs his conclusions against a thematic study of speeches and publications by members of the Politburo

American Opinion ,1983 *Weapons in Space* Aaron Bateman,2024-05-07 A new and provocative take on the formerly classified history of accelerating superpower military competition in space in the late Cold War and beyond In March 1983 President Ronald Reagan shocked the world when he established the Strategic Defense Initiative SDI derisively known as Star Wars a space based missile defense program that aimed to protect the US from nuclear attack In *Weapons in Space* Aaron Bateman draws from recently declassified American European and Soviet documents to give an insightful account of SDI situating it within a new phase in the militarization of space after the superpower d tente fell apart in the 1970s In doing so Bateman reveals the largely secret role of military space technologies in late Cold War US defense strategy and foreign relations In contrast to existing narratives *Weapons in Space* shows how tension over the role of military space technologies in American statecraft was a central source of SDI s controversy even more so than questions of technical feasibility By detailing the participation of Western European countries in SDI research and development Bateman reframes space militarization in the 1970s and 1980s as an international phenomenon He further reveals that even though SDI did not come to fruition it obstructed diplomatic efforts to create new arms control limits in space Consequently *Weapons in Space* carries the legacy of SDI into the post Cold War era and shows how this controversial program continues to shape the global discourse about instability in space and the growing anxieties about a twenty first century space arms race *The*
