

The background of the cover features several stylized fish in shades of teal and black. One large fish is positioned horizontally across the top, with its head on the left and tail on the right. Another fish is partially visible on the left side, and a third is on the right. The fish are depicted with detailed scales and fins, creating a layered, artistic effect.

Congress. House. Committee on Resources. Subcommittee on Fisheries and Oceans, 2005 Environmental and Natural Resources Economics Steven Hackett, Sahan T. M. Dissanayake, 2014-12-18 Extensively revised and updated this popular text presents an accessible yet rigorous treatment of environmental and natural resources economics including climate change and the economics of sustainability Completely revised and updated the fourth edition now includes new figures and tables definitions to assist the reader and updated policy information New advances in the science economics and policy approaches to climate change have been integrated into essentially all new chapters on incentive regulation and global climate change This innovative textbook integrates economics with science and public policy in a balanced and accessible way that will be appreciated by students from disciplines ranging from economics and natural resources management to environmental studies and energy policy *Proposed Acceptable Biological Catch and Optimum Yield Specifications and Management Measures for the 2005-2006 Pacific Coast Groundfish Fishery*, 2004 **Moving to Markets in Environmental Regulation** Jody Freeman, Charles D. Kolstad, 2007 Publisher description Natural Resource Economics Barry C. Field, 2008-03-12 People make decisions regarding the use of natural resources every day from the individual recycling a sheet of paper to governments of large nations creating energy policy Those decisions ultimately affect people around the world Their motivation and results are best framed and analyzed using the tools of natural resource economics Field presents the methods and applications of the discipline in the latest edition of his popular text The updated book retains its successful structure first presenting basic economic principles as they apply to natural resource use and then examining the economic issues surrounding individual resources New material is included on energy demand and efficiency nonrenewable resources individual transferable fishing quotas water pricing agricultural cropland programs and the Endangered Species Act

Programmatic Supplemental EIS for Alaska Groundfish Fisheries Implemented Under the Authority of the Fishery Management Plans for the Groundfish Fishery of the Gulf of Alaska and the Groundfish of the Bering Sea and Aleutian Islands Area ,2004 **The Drama of the Commons** National Research Council,Division of Behavioral and

Social Sciences and Education,Committee on the Human Dimensions of Global Change,2002-02-15 The tragedy of the commons is a central concept in human ecology and the study of the environment It has had tremendous value for stimulating research but it only describes the reality of human environment interactions in special situations Research over the past thirty years has helped clarify how human motivations rules governing access to resources the structure of social organizations and the resource systems themselves interact to determine whether or not the many dramas of the commons end happily In this book leaders in the field review the evidence from several disciplines and many lines of research and present a state of the art assessment They summarize lessons learned and identify the major challenges facing any system of governance for resource management They also highlight the major challenges for the next decade making knowledge development more systematic understanding institutions dynamically considering a broader range of resources such as global and technological commons and taking into account the effects of social and historical context This book will be a valuable and accessible introduction to the field for students and a resource for advanced researchers **The Fisheries**

Co-management Experience Douglas Clyde Wilson,Jesper Raakjaer Nielsen,Poul Degnbol,2013-03-09 For two decades the idea of governments and fishers working together to manage fisheries has been advocated questioned disparaged and most importantly attempted in fisheries from North and South America through Europe Africa Asia and Oceania This book is the first time these experiences have been pulled together in a single volume summarized and explained The Fisheries Co management Experience begins with a review of the intellectual foundations of the co management idea from several professional perspectives Next fisheries researchers from six global regions describe what has been happening on the ground in their area Finally the volume offers a set of reflections by some of the best authors in the field The end result describes both the state of the art and emerging issues for one of the most important trends in natural resources management
