Sharing Time Troubles:

Sharing Time Troubles Grace MacCarone, 1996 Sam searches through all of his toys but can't find anything good enough to take to school for show and tell until his troublesome little brother appears *Sharing Time Troubles (Dot Book)* Grace MacCarone, 1997 Sam searches through all of his toys but can't find anything good enough to take to school for show and tell until his troublesome little brother appears **Time Sharing** Walt Dodge, 2016-01-15 Allen Jackson an attorney with a heightened sense of Right and Wrong has spent his career fighting for the victims of a society that has gotten so far off track by political correctness nothing seems correct anymore He attends a Timeshare Presentation where he wins the prize a prototype Lamborghini Later while driving to a deposition he stops to help a young woman who is getting mugged by a teenage street urchin trying to steal her purse He is transporting both of them to the hospital when they suddenly find themselves 500 years in the future where society has become a land of sexual bigots Men are kept down and have the social status of a pet An insane Judge whose only desire is to cause the total genocide of men with the help of a supercomputer runs the land She cons Al into defending a prisoner accused of a capital crime Accepting the appointment he finds out too late that attorneys face the same punishment as the accused **The Trouble With Sharing** Airi Lampinen, 2022-05-31 Peer to peer exchange is a type of sharing that involves the transfer of valued resources such as goods and services among members of a local community and or between parties who have not met before the exchange encounter It involves online systems that allow strangers to exchange in ways that were previously confined to the realm of kinship and friendship Through the examples in this book we encounter attempts to foster the sharing of goods and services in local communities and consider the intricacies of sharing homes temporarily with strangers also referred to as hospitality exchange or network hospitality Some of the exchange arrangements discussed involve money while others explicitly ban participants from using it All rely on digital technologies but the trickiest challenges have more to do with social interaction than technical features This book explores what makes peer to peer exchange challenging with an emphasis on reciprocity closeness and participation How should we reciprocate How might we manage interactions with those we encounter to attain some closeness but not too much What keeps people from getting involved or draws them into exchange activities that they would rather avoid This book adds to the growing body of research on exchange platforms and the sharing economy It provides empirical examples and conceptual grounding for thinking about interpersonal challenges in peer to peer exchange and the efforts that are required for exchange arrangements to flourish It offers inspiration for how we might think and design differently to better understand and support the efforts of those involved in peer to peer exchange While the issues cannot be simply solved by technology it matters which digital tools an exchange arrangement relies on and even seemingly small design decisions can have a significant impact on what it is like to participate in exchange processes The technologies that support exchange arrangements often platformsof some sort can be driven by differing sets of values and commitments This book invites

students and scholars in the Human Computer Interaction community and beyond to envision and design alternative exchange arrangements and future economies
