Shark Wanted Dead Or Alive:

Shark Wanted! Dead Or Alive Hal Scharp, Mary Scharp, 1976 *Sharks of the World* David A. Ebert, Sarah Fowler, 2021-07-20 Fully revised and updated Back cover **International Law of Sharks** Erika J. Techera, Natalie Klein, 2017-04-18 In *International Law of Sharks* Erika J Techera and Natalie Klein provide an in depth analysis of the current legal frameworks that relate to these important species The authors offer ways in which to overcome obstacles that prevent existing laws from working better and identify best practice global governance options while highlighting opportunities for legal reform Scientific evidence indicates that sharks play a critical role in maintaining marine ecosystem health yet current governance regimes have not been effective and many shark species continue to diminish In this context effective laws are critical to improve sharks conservation status This volume also explores the broader relevance of oceans governance by identifying appropriate legal frameworks and regulatory mechanisms that balance conservation and utilisation of marine species in general **Sharks: Conservation, Governance and Management** Erika J. Techera, Natalie Klein, 2014-06-05 The key aim of this book is to explore the global conservation and management of sharks There has been a rapid decline in populations of many shark species while new science has emerged of the critical role they play in marine ecosystems However the authors show that conservation law and policy have been slow to develop with only a small number of iconic species being protected worldwide The increase in fishing impact primarily through shark finning and by catch has led to shark conservation receiving greater international attention in recent years The book explores our current knowledge and status of the law and science in relation to sharks with a particular focus on improving frameworks for their conservation and management Recent trends are analysed including shark finning bans that have been put in place in several countries the widening number of nations establishing shark sanctuaries and the growth of shark based tourism The efficacy of current listing processes for endangered species and fisheries regulations is also examined Tourism is explored as an alternative to fishing and the risks and impacts associated with this industry are analysed Contributors include leading authorities from universities and conservation organizations in North America Europe and Australia A common theme is to emphasise the importance of collaborative governance between various interest groups and the need for inter disciplinary research and management approaches that are necessary to address the decline in sharks New Directions in South African Tourism Geographies Jayne M. Rogerson, Gustav Visser, 2019-09-26 This book provides an overview of innovative and new directions being chartered in South African tourism geographies Within the context of global change the volume explores different facets and different geographies of tourism Key themes under scrutiny include the sharing economy the changing accommodation service sector touring poverty tourism and innovation tourism and climate change threats to sustainability inclusive tourism and a number of studies which challenge the present mindedness of much tourism geographical scholarship The 18 chapters range across urban and rural landscapes in South Africa with sectoral studies which include adventure

tourism coastal tourism cruise tourism nature based tourism sports tourism and wine tourism Finally the volume raises a number of policy and planning issues in the global South in particular relating to sustainability local economic development and poverty reduction Outlining the impact of tourism expansion in South Africa and suggesting future research directions this stimulating book is a valuable resource for geographers as well as researchers and students in the field of tourism studies
