*Sharks and Rays* Fog City Press, 2003 Encourages a better understanding of these creatures a chance to get closer to their real life world be it on a dive in their natural habitat or a visit to an aquarium

**The Lives of Sharks** Daniel Abel, R. Dean Grubbs, 2023-09-19 A richly illustrated and comprehensive introduction to the world's sharks Sharks are the top predators in many marine ecosystems But tales of the killer instincts and fearsomely sharp senses of these hunters can obscure their full life histories In fact sharks are characterful exhibit surprisingly complex behaviors and lead secretive lives full of interest in every type of marine habitat *The Lives of Sharks* is a fascinating and beautifully illustrated guide to these iconic marine creatures from two world renowned experts This book explores shark physiology anatomy behavior ecology and evolution as well as conservation and the impact of human activity on shark populations With stunning photographs and illustrations as well as profiles of selected species this is a comprehensive authoritative and inviting introduction to global shark life today

*Animals and the Environment* Lisa Kemmerer, 2015-05-01 Contemporary Earth and animal activists rarely collaborate perhaps because environmentalists focus on species and ecosystems while animal

advocates look to the individual and neither seems to have much respect for the other This diverse collection of essays highlights common ground between earth and animal advocates most notably the protection of wildlife and personal dietary choice If earth and animal advocates move beyond philosophical differences and resultant divergent priorities turning attention to shared goals both will be more effective and both animals and the environment will benefit Given the undeniable seriousness of the environmental problems that we face including climate change and species extinction it is essential that activists join forces Drawing on a wide range of issues and disciplines ranging from wildlife management hunting and the work of NGOs to ethics ecofeminism religion and animal welfare this volume provides a stimulating collection of ideas and challenges for anyone else who cares about the environment or animals
