

The background of the entire cover is a golden-yellow field filled with a dense, overlapping pattern of stylized human faces. These faces are rendered in a sketch-like, line-art style, with some appearing more prominent than others. The faces represent a wide variety of ethnicities and ages, creating a sense of global unity and diversity. The overall effect is warm and inclusive.

Weaving Work and Motherhood Anita Iltis Garey, 1999 In American culture the image of balancing work and family life is often represented in the glossy shot of the executive track woman balancing cell phone laptop and baby In Weaving Work and Motherhood Anita Iltis Garey focuses not on the corporate executives so frequently represented in American ads and magazines but rather on the women in jobs that typify the vast majority of women s employment in the United States A sociologist and work and family expert Garey situates her research in the health service industry Interviewing a racially and ethnically diverse group of women hospital workers clerical workers janitorial workers nurses and nurse s aids Garey analyzes what it means to be at once a mother who is employed and a worker with children Within the limits of the resources available to them women integrate their identities as workers and their identities as mothers by valuing their relation to work while simultaneously preserving cultural norms about what it means to be a good mother Some of these women work non day shifts in order to have the right blocks of time at home including for example a registered nurse who explains how working the night shift enables her to see her children off to school greet them when they return and attend school events in the way she feels good mothers should even if she finds little

time for sleep Moving beyond studies of women work and family in terms of structural incompatibilities Garey challenges images of the exclusively work oriented or exclusively family oriented mother As women talk about their lives Garey focuses on the meanings of motherhood and of work that underlie their strategies for integrating employment and motherhood She replaces notions of how women balance work and family with a better understanding of how women integrate negotiate and weave together their identities as both workers and mothers Breaking new ground in the study of work and family Weaving Work and Motherhood offers new insights for those interested in sociology gender and women s studies social policy child care social welfare and health care

Gender, Migration and Social Transformation Tanja Bastia, 2019-05-28 Intersectionality can be used to analyse whether migration leads to changes in gender relations This book finds out how migrants from a peri urban neighbourhood on the outskirts of Cochabamba Bolivia make sense of the migration journeys they have undertaken Migration is intrinsically related to social transformation Through life stories and community surveys the author explores how gender class and ethnicity intersect in people s attempts to make the most of the opportunities presented to them in distant labour markets While aiming to improve their economic and material conditions migrants have created a new transnational community that has undergone significant changes in the ways in which gender relations are organised Women went from being mainly housewives to taking on the role of the family s breadwinner in a matter of just one decade This book asks and addresses important questions such as what does this mean for gender equality and women s empowerment Can we talk of migration being emancipatory Does intersectionality shed light in the analysis of everyday social transformations in contexts of transnational migrations This book will be useful to researchers and students of human geography development studies and Latin America area studies

Transforming Vocation David Benson, Kara Martin, Andrew Sloane, 2021-05-12 There has been an explosion of publishing in the faith work movement in the last twenty years Work is increasingly seen as the new

frontier for Christian mission However the church and theological colleges have failed to keep up with the interest among and needs of workplace Christians This book is the urgent corrective that is needed moving past Theology of Work 101 to much deeper encounters with God's word as it relates to daily work These twelve academic papers look at work through three different lenses the workplace the church and theological education It is prefaced by Mark Greene from the London Institute for Contemporary Christianity reflecting on what work church and theological education would look like if there was no sacred secular divide In the concluding remarks the editors imagine a future where each domain is transformed by the gospel working dynamically together for the life of the world While academic in terms of depth of thinking quality of research and referencing of crucial sources for further exploration this book is never dry Rather it's life giving and provocative for every vocation asking fundamental questions of the reader What is the work that God is calling you to do How can the gospel transform your work And how well positioned are churches and colleges to be at the forefront of transforming vocation With contributions from Mark Greene James Pietsch Peter White Peter Docherty Gordon Preece Keith Mitchell David Fagg Ian Hussey Colin Noble Andrew Matthews Sarah Bacaller Samuel Curkpatrick Maggie Kappelhoff Comparative Constructions in Spanish and French Syntax Susan Price, 2016-11-10 This study first published in 1990 presents a comprehensive description of the comparative constructions of Spanish and French and shows that the apparently numerous differences in their syntactic realisations can be accounted for by general constraints on the expression of comparison There is also a discussion of parallel constructions in other Romance languages showing that these languages display a range of constructions equally compatible with the suggested pattern of possibilities resulting from the general constraints proposed This title will be of interest to students of language and linguistics **Behind Ghetto Walls** Michael Novak, 2017-09-08 This book is about the family lives of some 10 000 children and adults who live in an all Negro public housing project in St Louis The Pruitt Igoe project is only one of the many environments in which urban Negro Americans lived in the 1960s but the character of the family life there shares much with the family life of lower class Negroes as it has been described by other investigators in other cities and at other times in Harlem Chicago New Orleans or Washington D C This book is primarily concerned with private life as it is lived from day to day in a federally built and supported slum The questions which are treated here have to do with the kinds of interpersonal relationships that develop in nuclear families the socialization processes that operate in families as children grow up in a slum environment the informal relationships of children and adolescents and adults with each other and finally the world views the existential framework arising from the life experiences of the Pruitt Igoeans and the ways they make use of this framework to order their experiences and make sense out of them The lives of these persons are examined in terms of life cycles Each child there is born into a constricted world the world of lower class Negro existence and as he grows he is shaped and directed by that existence through the day to day experiences and relationships available to him The crucial transition from child of a family to progenitor of a new family begins in

adolescence and for this reason the book pays particular attention to how each new generation of parents expresses the cultural and social structural forces that formed it and continue to constrain its behavior This book in short is about intimate personal life in a particular ghetto setting It does not analyze the larger institutional social structural and ideological forces that provide the social economic and political context in which lower class Negro life is lived These larger macro sociological forces are treated in another volume based on research in the Pruitt Igoe community However this book does draw on the large body of literature on the structural position of Negroes in American society as background for its analysis of Pruitt Igoe private life **Federal Labor Laws and Programs** United States. Bureau of Labor Standards,1946

Labor-management Cooperation for Safety International Association of Governmental Labor Officials. Convention,1950 **Developing Resilience for Social Work Practice** Louise Grant,Gail Kinman,2018-07-06 The term resilience refers to a person s capacity to handle difficulties demands and pressure without experiencing negative effects Traditionally social work has focused on the nature and impact of resilience in children and adults who have experienced traumatic events but it is increasingly recognised that social workers need to develop personal resilience to manage the emotional demands of the job effectively and sustainably Developing Resilience for Social Work Practice provides social workers with a tool box of strategies to help them enhance their resilience and protect their wellbeing Written by experienced practitioners in the field the book draws on key research to present a series of evidence based interventions These strategies are designed to help social work students and practitioners develop important qualities that underpin resilience such as self awareness time management relaxation skills and empathy as well enable them to gain support from their personal and professional networks Grounded in both theory and practice each chapter explores how the various resilience techniques can be applied to help social workers manage the complexities and challenges they face in everyday practice The use of relevant and engaging case studies throughout is particularly useful in bringing the book to life for the reader **Reports from Committees** Great Britain.
